A History of the Episcopal Church Schism in South Carolina Ronald James

Caldwell,2017-08-09 In 2012 the Episcopal Diocese of South Carolina declared its independence from the Episcopal Church. It was the fifth of the 111 dioceses of the Church to do so since 2007. A History of the Episcopal Church Schism in South Carolina is the sweeping story of how one diocese moved from the mainstream of the Episcopal Church to separate from the church. It examines the underlying issues, the immediate causes and the initiating events as well as the nature and results of the schism. The book traces the escalating conflict between the diocese and the church that led up to the schism. It also examines the legal war between the two post schism dioceses, the majority in the independent Diocese of South Carolina and the minority in the Episcopal Church in South Carolina. This is the first scholarly history of a diocesan schism from the Episcopal Church. It is extensively researched from original and secondary sources and documented in over 2 000 notes citing nearly 900 works. This story stands as a cautionary tale of what happens in a major Christian denomination when majority and minority factions increasingly differentiate themselves and what impact that can have for both parties. The History of the Black Watch (Royal Highland Regiment) of Canada: Volume 3, 1946-2022 Roman Johann

Jarymowycz,2023-05-15 In three volumes spanning centuries Lieutenant Colonel Roman Jarymowycz recounts the story of the Black Watch Royal Highland Regiment of Canada, the oldest Highland regiment in the country. He traces its history from the roots when soldiers, settlers and militia volunteers rallied to defend the southern borders of their adopted country against invasion from the United States. Drawing on diaries, letters, classified documents and the regimental archive, Jarymowycz weaves the strands of a complex story into an epic narrative of a resolute collective of officers and men. Since its birth in 1862 as the 5th Battalion Volunteer Militia Rifles of Canada, thousands of citizens have served in the unit. In addition to securing Canada's borders, Black Watch soldiers have fought in the South African War, both world wars and the Korean War. They have bolstered NATO operations and United Nations peacekeeping missions and they provided aid to the civil power during the 1997 Quebec and Eastern Ontario ice storm disaster and the COVID 19 pandemic. The Montreal based battalion continues to serve Canada in its traditional role as a reserve infantry unit and to this day Black Watch soldiers frequently deploy on dangerous missions abroad. Volume 3 relates the regiment's post Second World War story. Canada's commitments to NATO and the United Nations led to the creation of two regular battalions of the Black Watch while retaining the reserve battalion in Montreal. From 1953 to 1970 in Korea, Germany, Cyprus and Canada, the regular battalions served with devotion and courage. The thousands of men who were based at Camp Aldershot, Nova Scotia and the Regimental Depot in Sussex, New Brunswick, then moved to establish a Regular Force Home Station in the newly constructed Camp Gagetown, NB. These units earned a reputation second to none in efficiency, training, fighting ability, readiness and strength. This monumental history of Canada's oldest Highland regiment is at once a record of Scottish heritage, a portrait of Montreal rising as an industrial giant and an examination of the emergence of a military culture from the Western Front. **Power and Progress on the Prairie**

Thomas Biolsi,2018-05-22 A critical exploration of how modernity and progress were imposed on the people and land of rural

South Dakota The Rosebud Country comprising four counties in rural South Dakota was first established as the Rosebud Indian Reservation in 1889 to settle the Sicangu Lakota During the first two decades of the twentieth century white homesteaders arrived in the area and became the majority population Today the population of Rosebud Country is nearly evenly divided between Indians and whites In Power and Progress on the Prairie Thomas Biolsi traces how a variety of governmental actors including public officials bureaucrats and experts in civil society invented and applied ideas about modernity and progress to the people and the land Through a series of case studies programs to settle surplus Indian lands to civilize the Indians to modernize white farmers to find strategic sites for nuclear missile silos and to extend voting rights to Lakota people Biolsi examines how these various problems came into focus for government experts and how remedies were devised and implemented Drawing on theories of governmentality derived from Michel Foucault Biolsi challenges the idea that the problems identified by state agents and the solutions they implemented were inevitable or rational Rather through fine grained analysis of the impact of these programs on both the Lakota and white residents he reveals that their underlying logic was too often arbitrary and devastating
