Jennings Informal Reading Assessment

The *Jennings Informal Reading Assessment*, an informal reading inventory (IRI), was developed by Dr. Joyce Jennings. It was field-tested in the Reading Center of Northeastern Illinois University and in several schools in the Chicago metropolitan area with the help of graduate students in the Departments of Reading and Special Education at Northeastern Illinois University.

The word lists consist of 25 words each. They were developed using *Basic Reading Vocabularies* (Harris & Jacobson, 1982). Each word presented in the word lists is included in the passages read by the students. For those words appearing in the oral reading passages, you can compare students' ability to recognize words in isolation and in context.

The reading passages consist of two passages per level: Preprimer through Grade 8. One set of these graded passages can be used to assess students' oral reading, and the other can be used to assess silent reading. You may also wish to use the silent reading passages to assess students' listening comprehension.

Abbreviations used in this instrument include:

Lit. = Literal	Ind. = Independent Level
Inf. = Inferential	Inst. = Instructional Level
Comp. = Comprehension	Frustr. = Frustrational Level

When you have completed the IRI, use the Summary Record Sheet to record your results. Then determine the oral, silent, and estimated overall reading levels as described in Chapter 3.
