Modern Judaism and Historical Consciousness Andreas Gotzmann, Christian Wiese, 2007 Written by leading authors in their respective fields this first comprehensive handbook on the relationship between modern Judaism and historical thinking contributes to a differentiated interpretation of Jewish historiography and its interaction with other academic disciplines since the Enlightenment **Judaism** Oliver Leaman, 2010-11-25 The story of Judaism is a story of paradox It is the story of how a small cluster of desert tribes gave birth to a monotheistic doctrine that profoundly shaped the history of human civilization It is the story of how that initially obscure desert doctrine came to be codified into the Hebrew Bible one of the world's greatest works of literature It is the story of how a small minority came to be viewed by the majority as disproportionately powerful and following pogrom and Holocaust were driven to the edge of extinction And it is the story of how a displaced people globally dispersed throughout other nations for two and a half millennia came to forge a modern secular Israeli state which many Jews believe to have been granted an explicitly divine mandate Oliver Leaman carefully and creatively explores the nature of these apparent contradictions He discusses the origins of the Jewish Bible recounts the history of the Jewish people from the era of Patriarchs and Prophets through the Middle Ages up to the contemporary era outlines the Jewish liturgical calendar and its major rites and modes of worship and considers the great variety of Jewish literatures including modern post Holocaust writers like Primo Levi and Elie Wiesel art food and culture Further chapters examine such topics as mysticism and kabbalah modern Hebrew interfaith relations and the highly contested question Who is a Jew **How Judaism Became a Religion** Leora Batnitzky, 2011-09-11 A new approach to understanding Jewish thought since the eighteenth century Is Judaism a religion a culture a nationality or a mixture of all of these In How Judaism Became

a Religion Leora Batnitzky boldly argues that this question more than any other has driven modern Jewish thought since the eighteenth century This wide ranging and lucid introduction tells the story of how Judaism came to be defined as a religion in the modern period and why Jewish thinkers have fought as well as championed this idea Ever since the Enlightenment Jewish thinkers have debated whether and how Judaism largely a religion of practice and public adherence to law can fit into a modern Protestant conception of religion as an individual and private matter of belief or faith Batnitzky makes the novel argument that it is this clash between the modern category of religion and Judaism that is responsible for much of the creative tension in modern Jewish thought Tracing how the idea of Jewish religion has been defended and resisted from the eighteenth century to today the book discusses many of the major Jewish thinkers of the past three centuries including Moses Mendelssohn Abraham Geiger Hermann Cohen Martin Buber Zvi Yehuda Kook Theodor Herzl and Mordecai Kaplan At the same time it tells the story of modern orthodoxy the German Jewish renaissance Jewish religion after the Holocaust the emergence of the Jewish individual the birth of Jewish nationalism and Jewish religion in America More than an introduction How Judaism Became a Religion presents a compelling new perspective on the history of modern Jewish thought *The Reader's Guide to Religion Volume 3 Judaism* Professor Sarah Imhoff, *Mapping the Academic Debate* Johannes Duschka, Christoph Kleine, Monika Wohlrab-Sahr, Florian Zemmin, 2024-12-16 This volume maps the international academic debate on secularity It places seminal contributions from within Western academia alongside less well known texts from various parts of the world in several cases this is the first time that they have been translated into English The volume demonstrates that the academic debate on secularity was and is a global debate with contributions from many regions The collected texts relate to each other either directly or indirectly by referring to similar arguments whether reinforcing or criticising them and thus create a discourse When speaking of global secularity we therefore do not insinuate a uniform world secularity resulting from the alleged global diffusion of Western norms ideas and concepts It is rather a web of relations that is constituted via various different references These references are not evenly distributed the development in the West is often the point of reference to which positions from other regions relate to which they connect or from which they distance themselves But the references are not completely unidirectional We also present texts from Europe that underline the multidirectionality of the process even early on Thereby the volume offers the reader the material with which to trace these global exchanges and references *Understanding Judaism Through History* S. Daniel Breslauer, 2003 Taking an unwavering historical approach to its subject Breslauer's text was born out of a contention that students best learn the fundamentals of Judaism through an engagement with the historical contexts that generated the variety of Jewish religious beliefs and practices Encountering Jewish religious expressions both within particular historical periods and across chronological eras readers of this text will discover Judaism as a dynamic tradition not merely a set of static ideas and actions Above all they will come to recognize Judaism as a religion marked perennially by a notable and important diversity **The**

Readers Guide to Judaism and Jewish Studies Sarah Imhoff, 2013 Jewish Apocalyptic and Its History Paolo Sacchi, 1996-12-01 This translation of *L'apocalittica giudaica e la sua storia* makes Professor Sacchi's expertise on Jewish apocalyptic available to a wider English reading audience. Sacchi argues for a more precise literary and historical definition of apocalyptic focusing on the material of 1 Enoch.

"They Took to the Sea" : Jewish History and Culture in Maritime Perspective(s) Björn Siegel, Joachim Schlör, Kobi Cohen-Hattab, Franziska Weinmann, Dalia Wassner, Michael Studemund-Halévy, Frank Jacob, Allison Schachter, Sebastian Schirrmeyer, Caroline Jessen, Elias S. Jungheim, Saskia Fischer, Jessica Cooperman, Caroline Emig, Shai Ginsburg, 2023-03-22 The sea and maritime spaces have long been neglected in the field of Jewish studies despite their relevance in the context of Jewish religious texts and historical narratives. The images of Noah's ark, King Solomon's maritime activities, or the miracle of the parting of the Red Sea immediately come into mind; however, they only illustrate a few aspects of Jewish maritime activities. Consequently, the relations of Jews and the sea have to be seen in a much broader spatial and temporal framework in order to understand the overall importance of maritime spaces in Jewish history and culture. Almost sixty years after Samuel Tolkowsky's pivotal study on maritime Jewish history and culture and the publication of his book *They Took to the Sea* in 1964, this volume of *PaRDeS* seeks to follow these ideas, revisit Jewish history and culture from different maritime perspectives, and shed new light on current research in the field, which brings together Jewish and maritime studies. The articles in this volume therefore reflect a wide range of topics and illustrate how maritime perspectives can enrich our understanding of Jewish history and culture and its entanglement with the sea, especially in modern times. They study different spaces and examine their embedded narratives and functions. They follow, in one way or another, the discussions which evolved in the last decades, focused on the importance of spatial dimensions and opened up possibilities for studying the production and construction of spaces, their influences on cultural practices and ideas, as well as structures and changes.

of social processes By taking these debates into account the articles offer new insights into Jewish history and culture by taking us out to sea and inviting us to revisit Jewish history and culture from different maritime perspectives **Lessons from the Kabbalah and Jewish History** Josef Bláha,2010 The Posen Library of Jewish Culture and Civilization, Volume 8 Todd M. Endelman,Zvi Gitelman,Deborah Dash Moore,2020-04-07 The eighth volume in a landmark series this anthology of Jewish culture and civilization encompasses the period between the world wars An anthology of Jewish culture between the world wars the editors selections convey the variety breadth and depth of Jewish creativity in those tempestuous decades Despite or perhaps because of external threats Jews fought vigorously over religion politics migration and their own relation to the state and to one another The texts translated from many languages span a wide range of politics culture literature and art This collection examines what was simultaneously a tense and innovative period in modern Jewish history
