

when you ask him directly, which most folks have failed not to do. When he does speak you wonder if he isn't some sort of alien who sees the landscape of human ideas and experiences differently than everybody else.

The thing is, he usually makes uncomfortable issues in a world where most folks would rather just hear what they are used to hearing, which is often not much of anything. You don't realize how smart Black is unless you happen to something on a dialogue he might be having with an expert. I've been there, when suddenly the language being spoken hardly resembles English, and I find myself struggling to grasp the concepts spilling out like a bubbling river of geniusness. He can speak intelligently about most anything, and even though you sense he has strong convictions, he has a gentle way about him that lets you keep yours.

His favorite topics are all about God and Creation and why people believe what they do. His eyes light up and he gets this smile that curls at the corners of his lips, and suddenly, like a little kid, the darkness melts away and he becomes agreeable and hardly able to contain himself. But at the same time, which is not very religious, he seems to have a love-hate relationship with
