Dachau and the SS Christopher Dillon, 2016-11-10 *Dachau and the SS* studies the concentration camp guards at Dachau the first SS concentration camp and a national school of violence for its concentration camp personnel Set up in the first months of Adolf Hitler's rule Dachau was a bastion of the Nazi revolution and a key springboard for the ascent of Heinrich Himmler and the SS to control of the Third Reich's terror and policing apparatus Throughout the pre war era of Nazi Germany Dachau functioned as an academy of violence where concentration camp personnel were schooled in steely resolution and the techniques of terror An international symbol of Nazi depredation Dachau was the cradle of a new and terrible spirit of destruction Combining extensive new research into the pre war history of Dachau with theoretical insights from studies of perpetrator violence this book offers the first systematic study of the Dachau School It explores the backgrounds and socialization of thousands of often very young SS men in the camp and critiques the assumption that violence was an outcome of personal or ideological pathologies Christopher Dillon analyses recruitment to the Dachau SS and evaluates the contribution of ideology training social psychology and masculine ideals to the conduct and subsequent careers of concentration camp guards Graduates of the Dachau School would go on to play a central role in the wartime criminality of the Third Reich particularly at Auschwitz Dachau and the SS makes an original contribution to scholarship on the pre history of the Holocaust and the institutional organisation of violence [Hitler's First Hundred Days](#) Peter Fritzsche, 2021 La 4e de couverture indique The chilling story of the hundred days in the spring of 1933 in which the Nazis laid the foundations for their Third Reich [Nazi Buildings, Cold War Traces and Governmentality in Post-Unification Berlin](#) Clare Copley, 2020-05-28 Bringing together approaches from cultural and urban history as well as

German studies and political theory Clare Copley's probing study reflects on post unification responses to iconic Nazi architecture to reveal insights into power legitimacy and memory politics in the Berlin Republic Analysing public debates physical interventions into the buildings and the structuring of the memory landscapes around them the book demonstrates that the politics of memory impact not just upon the built environment of the post dictatorship city but upon the way decisions about it are made In doing so Nazi Buildings Cold War Traces and Governmentality in Post Unification Berlin makes the case for conceiving of a specifically post authoritarian governmentality and uses the responses to constructions like Goering's Aviation Ministry Tempelhof Airport and the Olympic complex to explore its features

Fascism through History Patrick G. Zander, 2020-10-19 While fascism perhaps reached its peak in the regimes of Hitler and Mussolini it continues to permeate governments today This reference work explores the history of fascism and how it has shaped daily life up to the present day Perhaps the most notable example of Fascism was Hitler's Nazi Germany Fascists aimed to control the media and other social institutions and Fascist views and agendas informed a wide range of daily life and popular culture But while Fascism flourished around the world in the decades before and after World War II it continues to shape politics and government today This reference explores the history of Fascism around the world and across time with special attention to how Fascism has been more than a political philosophy but has instead played a significant role in the lives of everyday people Volume one begins with an introduction that surveys the history of Fascism around the world and follows with a timeline citing key events related to Fascism Roughly 180 alphabetically arranged reference entries follow These entries discuss such topics as conditions for working people conditions for women Fascist institutions that regulated daily life attitudes toward race physical culture the arts and more Primary source documents give readers first hand accounts of Fascist thought and practice A selected bibliography directs users to additional resources

The Polish Catholic Church under German Occupation Jonathan Huener, 2021-02-16 When Nazi Germany invaded Poland in 1939 it aimed to destroy Polish national consciousness As a symbol of Polish national identity and the religious faith of approximately two thirds of Poland's population the Roman Catholic Church was an obvious target of the Nazi regime's policies of ethnic racial and cultural Germanization Jonathan Huener reveals in The Polish Catholic Church under German Occupation that the persecution of the church was most severe in the Reichsgau Wartheland a region of Poland annexed to Nazi Germany Here Catholics witnessed the execution of priests the incarceration of hundreds of clergymen and nuns in prisons and concentration camps the closure of churches the destruction and confiscation of church property and countless restrictions on public expression of the Catholic faith Huener also illustrates how some among the Nazi elite viewed this area as a testing ground for anti church policies to be launched in the Reich after the successful completion of the war Based on largely untapped sources from state and church archives punctuated by vivid archival photographs and marked by nuance and balance The Polish Catholic Church under German Occupation exposes both the brutalities and the limitations of Nazi church

policy The first English language investigation of German policy toward the Catholic Church in occupied Poland this compelling story also offers insight into the varied ways in which Catholics from Pope Pius XII to members of the Polish episcopate to the Polish laity at the parish level responded to the Nazi regime's repressive measures

Enemies in the Empire Stefan Manz, Panikos Panayi, 2020-02-27 During the First World War Britain was the epicentre of global mass internment and deportation operations Germans Austro Hungarians Turks and Bulgarians who had settled in Britain and its overseas territories were deemed to be a potential danger to the realm through their ties with the Central Powers and were classified as enemy aliens A complex set of wartime legislation imposed limitations on their freedom of movement expression and property possession Approximately 50 000 men and some women experienced the most drastic step of enemy alien control namely internment behind barbed wire in many cases for the whole duration of the war and thousands of miles away from the place of arrest Enemies in the Empire is the first study to analyse British internment operations against civilian enemies during the First World War from an imperial perspective The narrative takes a three pronged approach In addition to a global examination the volume demonstrates how internment operated on a proto national scale within the three selected case studies of the

metropole Britain a white dominion South Africa and a colony under direct rule India Stefan Manz and Panikos Panayi then bring their study to the local level by concentrating on the three camps Knockaloe Britain Fort Napier South Africa and Ahmednagar India allowing for detailed analyses of personal experiences Although conditions were generally humane the operations caused widespread suffering The study argues that the British Empire played a key role in developing civilian internment as a central element of warfare and national security on a global scale **Reckonings** Mary

Fulbrook, 2018-09-04 Mary Fulbrook's award winning book uses reckoning in the widest possible sense to reveal the disparity between the extent of inhumanity perpetrated during the Nazi era and post war attempts to interpret and rectify wrongs as the consequences of violence reverberated through time Reckonings exposes the disjuncture between official myths about dealing with the past and the fact that the vast majority of Nazi perpetrators were never held accountable **The**

Routledge Handbook to Auschwitz-Birkenau Sarah M. Cushman, Joanne Pettitt, Dominic Williams, 2025-08-12 This handbook examines Auschwitz Birkenau as both a site and a symbol of Nazi genocide Scholars from a range of disciplinary perspectives consider Auschwitz's history by engaging with Holocaust historiography and its place in Holocaust memory and representation illustrating their mutual influence The chapters bring new insights to topics that other studies of Auschwitz have explored before such as the Sonderkommando the Czech family camp and literary representations of Auschwitz Other chapters cover recent developments and more neglected areas such as the experience and memory of Romani prisoners the fate of Soviet prisoners of war and Auschwitz's presence on social media The handbook also responds to a number of recent trends and new paradigms in Holocaust Studies including contributions from the fields of Environmental Studies Spatial Studies and Gender Studies As a crucial overview of the topic of Auschwitz Birkenau and an introduction to its most recent and fruitful scholarly approaches this handbook will be a valuable resource for undergraduates from second year and up as well as for graduate students and researchers seeking a survey of the field *The Phantom Train: Deporting Prisoners from*

Occupied France Martin Sorrell, Ludivine Broch, 2025-11-30 On 3 July 1944 a train of cattle wagons set out from Toulouse heading for Germany Crammed inside eventually were 724 souls of various nationalities and backgrounds all of whom the German occupiers had held captive in concentration camps and prisons across south western France Among them was Francesco Fausto Nitti an Italian antifascist activist who had survived Mussolini's gaols and the Spanish Civil War The journey to Dachau was expected to take three days Instead bombed re-routed and often immobilised it lasted for two months making it the longest of all deportation journeys out of France during the Second World War Nitti kept a daily log of the odyssey of the Phantom Train as it has become known and the document was in his pocket when on 25 August he and some fellow captives made a perilous last minute escape by removing some of their wagon's floorboards and lowering themselves onto the track as the train sped through the night Once back with his family and the Resistance Nitti turned his log into a book which was published at the end of 1944 by a small press run by a Resistance member Now with this first English

translation of *The Phantom Train* and an extended introduction a whole new readership can learn about that never ending journey to Dachau and everything that led up to it and marvel at the determination and endurance of some courageous people notably the remarkable Francesco Fausto Nitti *Buddy Pays Attention* Joseph N. Muzio, 2022-05-12 This book *Buddy Pays Attention* A Collection of Personal Essays draws on his observations and analysis on current and controversial subjects topics violence hatred education politics social issues ethics discrimination the Vietnam War Memorial and family and friends As an Italian American raised in Brooklyn and Queens Dr Muzio attended parochial and public schools achieved his master's and doctoral degrees from Columbia University's Teachers College He served as a councilman and police commissioner in Leonia N J where the family lived for 46 years The father of grown sons he lives in Rockport Massachusetts with his wife Lois also a retired professor **Internment during the First World War** Stefan Manz, Panikos

Panayi, Matthew Stibbe, 2018-10-10 Although civilian internment has become associated with the Second World War in popular memory it has a longer history The turning point in this history occurred during the First World War when in the interests of security in a situation of total war the internment of enemy aliens became part of state policy for the belligerent states resulting in the incarceration displacement and in more extreme cases the death by neglect or deliberate killing of hundreds of thousands of people throughout the world This pioneering book on internment during the First World War brings together international experts to investigate the importance of the conflict for the history of civilian incarceration **Nazi**

Eugenics Melvyn Conroy, 2017-09-19 Conceived as the answer to all of mankind's seemingly insoluble health and social problems and promoted as a substitute for orthodox religious beliefs the pseudoscience of eugenics recruited disciples in many countries during the latter years of the nineteenth and early years of the twentieth centuries Nowhere was this doctrine more enthusiastically endorsed than in Germany where the application of eugenic theory received its most fervent support A program born of what were often contradictory opinions began under Nazi rule with the compulsory sterilization of thousands of Germany's citizens before morphing into the mass murder of the most vulnerable of the state's own population under the guise of so called euthanasia before ultimately escalating into a continent wide policy of extermination of those who did not fit the Nazi eugenic template The progress of this inexorable descent into barbarity was marked by successive stages of development From the practical application of euthanasia through the organization dedicated to it later on called Aktion T4 and the killing centers that this institution spawned to the centrality of Aktion T4 to Aktion Reinhardt and the Holocaust important elements of the historical record can be seen to emerge How did it happen What impact has it had on contemporary society And what of the character and fate of the individuals involved in the gestation and implementation of this murderously inhumane quasi religion These deceptively simple questions require complex and often disturbing answers as shown by Melvyn Conroy in this important work **Prisoners of War** Bob Moore, 2022 The Second World War between

the Axis and Allied powers saw over 20 million soldiers taken as prisoners of war *Prisoners of War* uses a series of case

studies to illuminate the personal and collective histories of those who experienced captivity in Eastern and Western Europe during the war and their repatriation and reintegration afterwards

Saving Lives in Auschwitz: The Prisoners Hospital in Buna-Monowitz Ewa K. Bacon, 2017 In a 1941 Nazi roundup of educated Poles Stefan Budziaszek newly graduated from medical school in Krakow was incarcerated in the Krakow Montelupich Prison and transferred to the Auschwitz concentration camp in February 1942 German big businesses brutally exploited the cheap labor of prisoners in the camp and workers were dying In 1943 Stefan now a functionary prisoner was put in charge of the on site prisoner hospital which at the time was more like an infirmary staffed by well connected but untrained prisoners Stefan transformed this facility from just two barracks into a working hospital and outpatient facility that employed more than 40 prisoner doctors and served a population of 10 000 slave laborers KJ1 Stefan and his staff developed the hospital by commandeering medication surgical equipment and even building materials often from the so called Canada warehouse filled with the effects of Holocaust victims But where does seeking the cooperation of the Nazi concentration camp staff become collusion with Nazi genocide How did physicians deal with debilitated patients who faced selection for transfer to the gas chambers Auschwitz was a cauldron of competing agendas Unexpectedly ideological rivalry among prisoners themselves manifested itself as well Prominent Holocaust witnesses Elie Wiesel and Primo Levi both sought treatment at this prisoner hospital They other patients and hospital staff bear witness to the agency of prisoner doctors in an environment better known for death than survival
