From Craftsmen to Capitalists Frederick L. McKittrick, 2016-09-01 Politically adrift alienated from Weimar society and fearful of competition from industrial elites and the working class alike the

independent artisans of interwar Germany were a particularly receptive audience for National Socialist ideology. As Hitler consolidated power, they emerged as an important Nazi constituency drawn by the party's rejection of both capitalism and Bolshevism. Yet in the years after 1945, the artisan class became one of the pillars of postwar stability, thoroughly integrated into German society. *From Craftsmen to Capitalists* gives the first account of this astonishing transformation, exploring how skilled tradesmen recast their historical traditions and forged alliances with former antagonists to help realize German democratization and recovery.

How the West Lost the Peace Philipp Ther, 2023-04-25 When the Berlin Wall was stormed and the Soviet Union fell apart, the West and above all the United States looked like the sole victors of history. Three decades later, the spirit of triumph rings hollow. What went wrong? In this sequel to his award-winning history of neoliberal Europe, the renowned historian Philipp Ther searches for an answer to this question. He argues that global capitalism created many losers, preparing the ground for the rise of right-wing populists and nationalists. He shows how the promise of prosperity and freedom did not catch on sufficiently in Eastern Europe despite material progress, and how the West lost Russia and alienated Turkey. Neoliberal capitalism also left the world poorly prepared to cope with Covid-19, and the pandemic further weakened the Western hegemony of the post-1989 period, which is now brutally contested by Russia's war against Ukraine. The double punch of the pandemic and the biggest war in Europe since 1945 has brought to a close the age of transformation that was inaugurated by the end of the Cold War. This penetrating analysis of the disarray of the post-1989 world will be of great interest to anyone who wishes to understand how we got to where we are today and the tremendous challenges we now face.

Discussing Pax Germanica Emmanuel Comte, Fernando Guirao, 2024-10-08 *Discussing Pax Germanica: The Rise and Limits of German Hegemony in European Integration* examines and reconsiders Germany's paramount role in shaping European integration from the aftermath of World War II to the present. This volume meticulously explores the ascendancy of Germany to a dominant position in European politics and economics. It critically engages with the concept of hegemony, delineating Germany's influence on the development of the European Union and its resemblance to historical precedents in German history, like the Holy Roman Empire. Methodologically, the book integrates archival research with contemporary literature to craft a narrative that is both historically grounded and relevant to current European affairs. The work stands out for its exploration of Germany's strategic use of economic power and political diplomacy to shape the European Union according to its interests, while facing inherent limitations and challenges such as the eurozone crisis, migration policies, energy dependency, and foreign policy towards Russia. Targeting a diverse audience of both scholars and non-specialists, this book is particularly relevant for those interested in European politics, German history, and international relations.

A Nation Fermented Robert Shea Terrell, 2024 How did the beer-drinking German become a fixture in the global imagination? How did a provincial production standard, the Reinheitsgebot or Beer Purity Law, become a pillar of national consumer sentiments? *A Nation Fermented* explores how southern German convictions shaped the culture of the nation in the

twentieth century **Germany's Hidden Crisis** Oliver Nachtwey, 2018-11-27 How neoliberalism is causing a crisis in Germany Upward social mobility represented a core promise of life under the old West German welfare state in which millions of skilled workers upgraded their Volkswagens to Audis bought their first homes and sent their children to university Not so in today's Federal Republic where the gears of the so called elevator society have long since ground to a halt In the absence of the social mobility of yesterday widespread social exhaustion and anxiety have emerged across mainstream society Oliver Nachtwey analyses the reasons for this social rupture in postwar German society and investigates the conflict potential emerging as a result He concludes that although the country has managed to muddle through thus far simmering tensions beneath the surface nevertheless threaten to undermine the German system's stability in the years to come Recipient of the Friedrich Ebert Foundation 2016 Hans Matthfer Preis for Economic Writing **Neue Folge. 60. Furthermore he implicitly discusses issues of conditional and unconditional values subjective and objective values aesthetic or economic values etc In recent Kant scholarship there has been a controversy on the question how moral and nonmoral values are related in Kant's account of human dignity This leads to the more fundamental problem if Kant should be seen as a prescriptivist antirealist or as subscribing to a more objective rational agency account of goods This issue and several further questions are addressed in this volume

That Sinking Feeling Stefan Wellgraf, 2023-08-11 Emotions especially those of impoverished migrant families have long been underrepresented in German social and cultural studies That Sinking Feeling raises the visibility of the emotional dimensions of exclusion processes and locates students in current social transformations Drawing from a year of ethnographic fieldwork with grade ten students Stefan Wellgraf's study on an array of both classic emotions and affectively charged phenomena reveals a culture of devaluation and self assertion of the youthful post migrant urban underclass in neoliberal times
