Knowing Governance Jan-Peter Voß, Richard Freeman, 2016-01-26 *Knowing Governance* sets out to understand governance through the design and making of its models and instruments What kinds of knowledge do they require and reproduce How are new understandings of governance produced in practice by scientists and policy makers and by the publics with whom they engage

Knowing Governance Jan-Peter Voß, Richard Freeman, 2016-01-26 *Knowing Governance* sets out to understand governance through the design and making of its models and instruments What kinds of knowledge do they require and reproduce How are new understandings of governance produced in practice by scientists and policy makers and by the publics with whom they engage

The Political Anthropology of Internationalized Politics Sarah Biecker, Klaus Schlichte, 2021-02-05 This volume offers insights from political anthropology on how to analyze and how to think about contemporary areas of internationalized political phenomena in a fresh manner By drawing on a variety of cases like policing budgeting the role of monetary politics in everyday life development agencies and international organisations it shows the promise of an extended experience for the study of international politics yet without glossing over the limits of such approaches This book is an essential contribution to the discussion about ethnography in international relations and a bridge between disciplines

Polycentrism Frank Gadinger, Jan Aart Scholte, 2023-05-03 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations How does governing work today How does society mis handle pressing challenges such as armed violence cultural difference ecological degradation economic restructuring geopolitical shifts global pandemics migration flows and technological change in ways that are not democratic effective fair peaceful and sustainable This volume addresses these key questions with reference to the theme of polycentrism i.e. the idea that contemporary governing is dispersed fluctuating messy elusive and headless Chapters develop this notion of polycentrism from the perspectives of a broad spectrum of academic disciplines and theoretical approaches offering comprehensive coverage of exciting new thinking about how today's world is mis ruled The book identifies four paradigms of knowledge about polycentric governing organizational legal relational and structural and pursues conversations across the divides that normally keep these approaches within separate research communities These exceptional inter paradigm exchanges focus particularly on issues of techniques how governing is done power what forces drive governing and legitimacy whether governing is rightful Comparisons between the multiple perspectives on polycentric governing highlight and help to clarify the distinctive emphases potentials and limitations of each approach In addition various combinations of the different theories generate promising novel avenues of thought about polycentrism The book will allow readers to develop and refine their own understandings of governing today and hence to become more empowered political subjects

Producing Health Policy Jo Maybin, 2016-04-08 In this book Jo Maybin draws on rare access to the inner workings of England's

Department of Health to explore what kinds of knowledge civil servants use when developing policy how they use it and why Combining ethnographic data with insights from psychology socio linguistics sociology and philosophy she demonstrates how civil servants engage in a wide range of knowledge practices in the course of their daily work These include sharing personal anecdotes thrashing out ideas in meetings and creating simplified representations of phenomena as well as conducting cost benefit analyses and commissioning academic research Maybin analyzes the different functions that these various practices serve from developing personal understandings of issues to making complex social problems thinkable and meeting the ever present need to make policies happen In doing so she develops an original theory of policy making as the work of building connections between a policy in development and powerful ideas people and instruments and reveals the policy know how required by civil servants to be effective in their jobs

Transdisciplinary Research and Sustainability Martina Padmanabhan, 2017-10-12 Transdisciplinarity is a new way of scientifically meeting the challenges of sustainability Indeed interdisciplinary collaboration and co operation with non academic practice partners is at the core of this creating contextualised socially relevant knowledge about complex real world problems Transdisciplinary Research and Sustainability breaks new ground by presenting transdisciplinary research in practice drawing on recent advances by the vibrant transdisciplinary research communities in the German speaking world It describes methodological innovations developed to address wide ranging contemporary issues including climate change adaptation energy policy sustainable agriculture and soil conservation Furthermore the authors reflect on the challenges involved in integrating non academic actors in scientific research on the tensions that arise in the encounter of theory and praxis and on the inherently normative political nature of sustainability research Highlighting the need for academic institutions to be transformed to reflect transdisciplinarity this timely volume will appeal to postgraduate students and postdoctoral researchers interested in fields such as Sustainability Science Transdisciplinary Studies and Philosophy of Science

The Routledge Handbook of the Philosophy of Engineering Diane P. Michelfelder, Neelke Doorn, 2020-12-29 Engineering has always been a part of human life but has only recently become the subject matter of systematic philosophical inquiry The Routledge Handbook of the Philosophy of Engineering presents the state of the art of this field and lays a foundation for shaping future conversations within it With a broad scholarly scope and 55 chapters contributed by both established experts and fresh voices in the field the Handbook provides valuable insights into this dynamic and fast growing field The volume focuses on central issues and debates established themes and new developments in Foundational perspectives Engineering reasoning Ontology Engineering design processes Engineering activities and methods Values in engineering Responsibilities in engineering practice Reimagining engineering The Routledge Handbook of the Philosophy of Engineering will be of value for both students and active researchers in philosophy of engineering and in cognate fields philosophy of technology philosophy of design It is also intended for engineers working both inside and outside of academia who would like to gain a more fundamental understanding of their

particular professional field The increasing development of new technologies such as autonomous vehicles and new interdisciplinary fields such as human computer interaction calls not only for philosophical inquiry but also for engineers and philosophers to work in collaboration with one another At the same time the demands on engineers to respond to the challenges of world health climate change poverty and other so called wicked problems have also been on the rise These factors together with the fact that a host of questions concerning the processes by which technologies are developed have arisen make the current Handbook a timely and valuable publication

Handbook on Science and Public Policy Dagmar Simon, Stefan Kuhlmann, Julia Stamm, Weert Canzler, 2019 This Handbook assembles state of the art insights into the co evolutionary and precarious relations between science and public policy Beyond this it also offers a fresh outlook on emerging challenges for science including technology and innovation in changing societies and related policy requirements as well as the challenges for public policy in view of science driven economic societal and cultural changes In short this book deals with science as a policy triggered project as well as public policy as a science driven venture

European Dimension of Metropolitan Policies Carola Fricke, 2019-03-23 This book questions how policies for the metropolis become Europeanised The book analyses how spatial concepts and political ideas permeate the European multi level system Through an interpretive comparison of five contexts the book provides an overview of the European orientation tracing two interdependent developments First the book examines references to Europe in national and subnational policies In French and German policies metropolitan regions are increasingly framed as being central not only for inter municipal coordination but also as nodes within the European space Moreover Europeanised metropolitan regions such as Lyon and Stuttgart develop European strategies The second development shows how metropolitan regions appear as actors and issues in the European policy arena contributing to a tentative and implicit metropolitan dimension This multi scalar analysis is of interest for scholars and practitioners specialised in metropolitan regions European urban and regional policies geography and related areas

Culture and Policy-Making Marco Cremaschi, Carlotta Fioretti, Terri Mannarini, Sergio Salvatore, 2021-04-19 This book advances the understanding and modelling of sensemaking and cultural processes as being crucial to the scientific study of contemporary complex societies It outlines a dynamic processual conception of culture and a general view of the role of cultural dynamics in policy making drawing three significant methodological implications pluralism performativity and semiotic capital It focuses on the theoretical and methodological aspects of the analysis of culture and its dynamics that could be applied to the developing of policymaking and in general to the understanding of social phenomena It draws from the experience and data of a large scale project RECRIRE funded by the H2020 program that mapped the symbolic universes across Europe after the economic crisis It further develops the relationship between culture and policy making discussed in two previous volumes in this series and constitutes the ideal third and final element of this trilogy The book is a useful tool for academics involved in studying cultural dynamics and for policy oriented researchers and decision makers attentive to the

cultural dimensions of the design implementation and reception of public policies **Laboratories of Social Knowledge**

John Berten, 2025-05-24 The book examines the politics of knowledge in global social policy investigating how international organisations IOs have contributed to the emergence and development of social security as a global policy field It reconstructs the role of numerical knowledge in the International Labour Organization ILO and the World Bank theorising how IOs contribute to epistemic infrastructures of global social security The book shows how IOs knowledge production has led to a continuous refinement of the meaning and purpose of social security First it reveals how IOs arrived at a shared conception of social security what the book calls an ontological framework Second it traces how numbers have increasingly enabled the assessment of countries according to shared benchmarks what the book calls an evaluative framework The author demonstrates the political and epistemic work involved in universalising knowledge of social security while highlighting the limits of governing by numbers in global social policy **Strategy for Sustainability Transitions** Kristof

Van Assche, Raoul Beunen, Monica Gruezmacher, 2024-04-12 In this innovative work Kristof Van Assche Raoul Beunen and Monica Gruezmacher analyse the challenges and possibilities of sustainability transitions presenting the dilemmas facing the path to sustainable communities and societies as well as proposing creative solutions The authors deploy evolutionary governance theory as a conceptual framing for transition strategy highlighting the importance of understanding governance and community strategy in any potential response to environmental crises *The Politics of Expertise in International Organizations* Annabelle Littoz-Monnet, 2017-02-24 This edited volume advances existing research on the production and use

of expert knowledge by international bureaucracies Given the complexity technicality and apparent apolitical character of the issues dealt with in global governance arenas evidence based policy making has imposed itself as the best way to evaluate the risks and consequences of political action in global arenas In the absence of alternative democratic modes of legitimation international organizations have adopted this approach to policy making By treating international bureaucracies as strategic actors this volume address novel questions why and how do international bureaucrats deploy knowledge in policy making Where does the knowledge they use come from and how can we retrace pathways between the origins of certain ideas and their adoption by international administrations What kind of evidence do international bureaucrats resort to and with what implications Which types of knowledge are seen as authoritative and why This volume makes a crucial contribution to our understanding of the way global policy agendas are shaped and propagated It will be of great interest to scholars policy makers and practitioners in the fields of public policy international relations global governance and international organizations

Handbook of Policy Advice Michael Howlett, Ishani Mukherjee, 2025-09-10 This timely Handbook examines the background organization and evolution of policy advice and expertise in contemporary government Chapters in the book set out and critically re evaluate conventional assumptions about the role of policy advisors and advice in policy making in an era when increasing new technologies political polarization and contestation have mounted challenges to

traditional sources of policy ideas and influence **Handbook of Critical Environmental Politics** Pellizzoni, Luigi,Leonardi, Emanuele,Asara, Viviana,2022-10-20 This timely Handbook offers a comprehensive outlook on global environmental politics providing readers with an up to date view of a field of ever increasing academic and public significance Its critical perspective interrogates what is taken for granted in current institutions and social and power relations highlighting the issues preventing meaningful change in the relationship between human societies and their biophysical underpinnings This title contains one or more Open Access chapters *The Problem of the State* Michael Mair,2021-05-16 The Problem of the State provides a new perspective on what the social and political sciences can contribute to understandings of the state and the ambivalent place it occupies in our collective affairs Distinguishing two broad conceptual and methodological approaches to addressing the problem of how to study the state empirically rather than theoretically the constitutionalist and constructionist positions the author reviews the grounds and limits of both to reveal their common assumption that it is up to the social and political sciences to define what the problem of the state is Building on insights from Marx Wittgenstein and Ethnomethodology this book frees the study of the state from the limiting assumptions of common approaches and advocates a return of the problem to its proper environment in social and political practice World Politics in Translation Tobias Berger,Alejandro Esguerra,2017-09-14 Virtually all pertinent issues that the world faces today such as nuclear proliferation climate change the spread of infectious disease and economic globalization imply objects that move However surprisingly little is known about how the actual objects of world politics are constituted how they move and how they change while moving This book addresses these questions through the concept of translation the simultaneous processes of object constitution transportation and transformation Translations occur when specific forms of knowledge about the environment international human rights norms or water policies consolidate travel and change World Politics in Translation conceptualizes translation for International Relations by drawing on theoretical insights from Literary Studies Postcolonial Scholarship and Science and Technology Studies The individual chapters explore how the concept of translation opens new perspectives on development cooperation the diffusion of norms and organizational templates the performance in and of international organizations or the politics of international security governance This book constitutes an excellent resource for students and scholars in the fields of Politics International Relations Social Anthropology Development Studies and Sociology Combining empirically grounded case studies with methodological reflection and theoretical innovation the book provides a powerful and productive introduction to world politics in translation What Next for Sustainable Development? James Meadowcroft,David Banister,Erling Holden,Oluf Langhelle,Kristin Linnerud,Geoffrey Gilpin,2019 This book examines the international experience with sustainable development since the concept was brought to world wide attention in Our Common Future the 1987 report of the World Commission on Environment and Development Scholars from a variety of disciplinary backgrounds engage with three critical themes

negotiating environmental limits equity environment and development and transitions and transformations In light of the 2030 Sustainable Development Goals recently adopted by the United Nations General Assembly they ask what lies ahead for sustainable development **Sustainability Politics and Limited Statehood** Alejandro Esguerra,Nicole Helmerich,Thomas Risse,2016-11-25 The contributors to this book critically examine the performance of new modes of governance in areas of limited statehood drawing on a range of in depth case studies on issues of climate change biodiversity and health The Paris Agreement for Climate Change or the Sustainable Development Goals SDGs rely on new modes of governance for implementation New modes of governance such as market based instruments public private partnerships or stakeholder participation initiatives have been praised for playing a pivotal role in effective and legitimate sustainability governance Yet do they also deliver in areas of limited statehood States such as Malaysia or the Dominican Republic partly lack the ability to implement and enforce rules their domestic sovereignty is limited Exploring this perspective on governance the authors demonstrate that areas of limited statehood are not ungoverned or ungovernable spaces The book elaborates how and under what conditions new modes of governance emerge in areas of limited statehood and examines their relative effectiveness

Maritime Security and the Law of the Sea Sir Malcolm D. Evans,Sofia Galani,2020-01-31 Exploring everything from contemporary challenges to ocean security this book offers detailed insights into the increasing activities of state and non state actors at sea Chapters revisit the United Nations Convention on the Law of the Sea LOSC highlighting how not all maritime security threats can be addressed by this and further looking at the ways in which the LOSC may even hinder maritime security
