## **Knowledge As Sexual Metaphor Knowledge As Sexual Metaphor:**

**Knowledge as Sexual Metaphor** George Joseph Seidel, 2000 The work then proceeds to give a critical examination of representative samplings of theories of knowledge from different periods and traditions in the history of philosophy pointing out the sexual metaphors involved BOOK JACKET *The Analytic Imaginary* Marguerite La Caze, 2018-09-05 The notion of the philosophical imaginary developed by Michel Le Doeuff refers to the capacity to imagine as well as to the stock of images philosophers employ Making use of this notion Marguerite La Caze explores the idea of the imaginary of analytic philosophy Noting the marked tendency of analytic philosophy to be unselfconscious about the use of figurative language and the levels at which it works La Caze shows how analytic images can work to define the parameters of debates and exclude differing approaches including feminist ones La Caze focuses on five influential types of images in five central areas of contemporary analytic philosophy analogies and how they are used in the abortion debates thought experiments in personal identity the myth of the social contract Thomas Nagel's use of visual and spatial metaphors in epistemology and Kendall Walton's use of children's games as a foundational model in aesthetics The author shows how the image promotes assumptions and conceals tensions in philosophical works how the image persuades and how it limits debate and excludes ideas In providing an analysis of and reflection on the nature of the analytic imaginary La Caze suggests that a more open ended and reflexive approach can result in richer more fruitful philosophical work **Fire Metaphors** Jonathan Charteris-Black, 2016-11-17 This detailed study of fire metaphors provides a deep understanding of the purposeful work of metaphor in discourse It analyses how and why fire metaphors are used in discourses of awe mythology and religion and authority political speeches and media reports Fire serves as a productive and salient lexical field for metaphors that seek to create awe and impose authority These metaphors offer a rich linguistic and conceptual resource for authors of mythologies theologies literature speeches and journalism and provide insight into the rich interplay of thought language and culture This book explores the purpose of fire metaphors in genres ranging from the Norse sagas to religious texts from Shakespeare to British and American political speeches Ultimately it arrives at an understanding of the rhetorical work that metaphor accomplishes in communicating evaluations and ideologies Uncertain Knowledge Riki G. A. Dolby, R. G. A. Dolby, 2002-04-18 This book explores the image of science in the modern world *Critical Communication Theory* Sue Curry Jansen, 2002 In this text Sue Curry Jansen brings a different perspective to contemporary communication inquiry She engages two questions at the heart of critical politics of communication what do we know And how do we know it **Love, Power and Knowledge** Hilary Rose, 2013-07-03 In this book Hilary Rose develops new terms for thinking about science and feminism locating the feminist criticism of science as both integral to the feminist movement and to the radical science movement **Whose Science? Whose Knowledge?** Sandra G. Harding, 2016-12-01 Sandra Harding here develops further the themes first addressed in her widely influential book *The Science Question in Feminism* and conducts a compelling analysis of feminist theories on the

philosophical problem of how we know what we know Following a strong narrative line Harding sets out her arguments in highly readable prose In Part 1 she discusses issues that will interest anyone concerned with the social bases of scientific knowledge In Part 2 she modifies some of her views and then pursues the many issues raised by the feminist position which holds that women's social experience provides a unique vantage point for discovering masculine bias and questioning conventional claims about nature and social life In Part 3 Harding looks at the insights that people of color male feminists lesbians and others can bring to these controversies and concludes by outlining a feminist approach to science in which these insights are central Women and men cannot understand or explain the world we live in or the real choices we have she writes as long as the sciences describe and explain the world primarily from the perspectives of the lives of the dominant groups Harding's is a richly informed radical voice that boldly confronts issues of crucial importance to the future of many academic disciplines Her book will amply reward readers looking to achieve a more fruitful understanding of the relations between feminism science and social life

**The Intercourse of Knowledge** Athalya Brenner, 2021-08-30 This groundbreaking book which builds on the author's earlier work in *On Gendering Texts* studies how by what means and to what extent human love desire and sex and possibly even sexuality are gendered in the Hebrew Bible Following a classification and gendering of the linguistic and semantic data the investigation looks into the construction of male and female bodies in language and ideologies the praxis and ideology of sex procreation and contraception deviation from socio sexual boundaries e.g. incest rape adultery homosexuality prostitution eroticism and pornoprophetics Finally the work discusses some of the wider sociological and theological implications of the findings

[A Lure of Knowledge](#) Judith Roof, 1991 Lesbianism in literature has been dealt with rather indirectly in the past Editors have led readers to the artistry of a work containing lesbianism emphasizing instead the literary history and historical context of the work rather than the representations of lesbianism The editor for Colette's *The Pure and the Impure* for instance affirms that Colette has a knowledge of a strange sisterhood but assures readers she has never strayed from the normal In the groundbreaking *A Lure of Knowledge* Judith Roof demonstrates that representations of lesbian sexuality occupy specific locations or positions in the arguments subject matter and rhetoric of Western European and American literary criticism She examines the political context of representations how lesbian sexuality is used as a signifier and why it appears when and where it does Roof argues that attempts to depict or explain lesbian sexuality spur anxieties about knowledge and identity In reaction to and denial of these anxieties lesbian sexuality is represented in film literature theory and criticism as foreplay as simulated heterosexuality as erotic excess as joking inauthenticity as artful compromise or as masculine mask in a specific repertoire of neutralization and evasion Challenging the heterosexism of film theory and feminist theory this book analyzes the rhetorical use of lesbian sexuality Roof explores a range of discourses from the works of such authors as Anaïs Nin Olga Broumas Julia Kristeva Jane Rule Luce Irigaray and Sigmund Freud to films such as *Emmanuelle* *Desert Hearts* *Entre Nous* and *I've Heard the Mermaids Singing* to professional

tennis     Sartre's French Contemporaries and Enduring Influences William L. McBride, 2013-09-13 Sartre's French Contemporaries and Enduring Influences This final volume examines Sartre's best known philosophical contemporaries in France Albert Camus Maurice Merleau Ponty and Simone de Beauvoir in terms of both their own philosophical insights and their relationship to Sartre's thought The articles also offer some suggestive connections between Sartre's thought and subsequent developments in European philosophy notably structuralism poststructuralism and postmodernism The comparatively recent nature of much of this scholarship is solid testimony to the enduring influence of Sartrean existentialism     Metaphor and Thought Andrew Ortony, 1993-11-26 Metaphor and Thought first published in 1979 reflects the surge of interest in and research into the nature and function of metaphor in language and thought In this revised and expanded second edition the editor has invited the contributors to update their original essays to reflect any changes in their thinking Reorganised to accommodate the shifts in central theoretical issues the volume also includes six new chapters that present important and influential fresh ideas about metaphor that have appeared in such fields as the philosophy of language and the philosophy of science linguistics cognitive and clinical psychology education and artificial intelligence     On Feminine Sexuality the Limits of Love and Knowledge Jacques Lacan, 1999-11-23 In his psycholinguistic exploration of the relationship between the desire for love and the attainment of knowledge Jacques Lacan leads into a new way of interpreting the two most fundamental human drives     Thoreau's Living Ethics Philip Cafaro, 2010-01-25 Thoreau's Living Ethics is the first full rigorous account of Henry Thoreau's ethical philosophy Focused on Walden but ranging widely across his writings the study situates Thoreau within a long tradition of ethical thinking in the West from the ancients to the Romantics and on to the present day Philip Cafaro shows Thoreau grappling with important ethical questions that agitated his own society and discusses his value for those seeking to understand contemporary ethical issues Cafaro's particular interest is in Thoreau's treatment of virtue ethics the branch of ethics centered on personal and social flourishing Ranging across the central elements of Thoreau's philosophy life virtue economy solitude and society nature and politics Cafaro shows Thoreau developing a comprehensive virtue ethics less based in ancient philosophy than many recent efforts and more grounded in modern life and experience He presents Thoreau's evolutionary experimental ethics as superior to the more static foundational efforts of current virtue ethicists Another main focus is Thoreau's environmental ethics The book shows Thoreau not only anticipating recent arguments for wild nature's intrinsic value but also demonstrating how a personal connection to nature furthers self development moral character knowledge and creativity Thoreau's life and writings argues Cafaro present a positive life affirming environmental ethics combining respect and restraint with an appreciation for human possibilities for flourishing within nature     Human Motivation David C. McClelland, 1988-01-29 Human Motivation originally published in 1987 offers a broad overview of theory and research from the perspective of a distinguished psychologist whose creative empirical studies of human motives span forty years David McClelland describes methods for

measuring motives the development of motives out of natural incentives and the relationship of motives to emotions to values and to performance under a variety of conditions He examines four major motive systems achievement power affiliation and avoidance reviewing and evaluating research on how these motive systems affect behaviour Scientific understanding of motives and their interaction he argues contributes to understanding of such diverse and important phenomena as the rise and fall of civilisations the underlying causes of war the rate of economic development the nature of leadership the reasons for authoritarian or democratic governing styles the determinants of success in management and the factors responsible for health and illness Students and instructors alike will find this book an exciting and readable presentation of the psychology of human motivation

*Joseph Conrad and the Anxiety of Knowledge* William Freedman, 2014-04-07 An alternate view of the perplexing and often contradictory fiction of an elusive author Few if any writers in the English language have been cited praised chided or marveled at more routinely than Joseph Conrad for the perplexing evasiveness contradictoriness and indeterminacy of their fiction William Freedman argues that the explanations typically offered for these identifying characteristics of much of Conrad's work are inadequate if not mistaken Freedman's claim is that the illusive nature of a coherent interpretation of Conrad's novels and shorter fictions is owed not primarily to the inherent slipperiness or inadequacy of language or the consequence of a willful self deconstruction Nor is it a product of the writer's philosophical nihilism or a realized aesthetic of suggestive vagueness Rather Freedman argues the perplexing elusiveness of Conrad's fiction is the consequence of a pervasive ambivalence toward threatening knowledge a protective reluctance and recoil that are not only inscribed in Conrad's tales and novels but repeatedly declared defended and explained in his letters and essays Conrad's narrators and protagonists often set out on an apparent quest for hidden knowledge or are drawn into one But repelled or intimidated by the looming consequences of their own curiosity and fervor they protectively obscure what they have barely glimpsed or else retreat to an armory of practiced distractions The result is a confusingly choreographed dance of approach and withdrawal fascination and revulsion revelation and concealment The riddling contradictions of these fictions are thus in large measure the result of this ambivalence their evasiveness the mark of intimidation's triumph over fascination The idea of dangerous and forbidden knowledge is at least as old as Genesis and Freedman provides a background for Conrad's recoil from full exposure in the rich admonitory history of such knowledge in theology myth philosophy and literature He traces Conrad's impassioned at times pleading case for protective avoidance in the writer's letters essays and prefaces and he elucidates its enactment and its connection to Conrad's signature evasiveness in a number of short stories and novels with special attention to *The Secret Agent* *Heart of Darkness* *Lord Jim* *Under Western Eyes* and *The Rescue*

*A New Kabbalah for Women* Perle Besserman, 2025-06-25 The red bracelet it graces the wrists of numerous celebrities from Madonna to Britney Spears who have converted to the spiritual practice of Kabbalah But what is Kabbalah and how can women apply it to their own lives In *A New Kabbalah for Women* bestselling author and teacher of Jewish

mysticism and meditation Perle Besserman shares a feminine approach to spirituality Since the time of Moses Jewish mysticism has been barred to women and Shekhinah the feminine side of God has been forced underground Now many women are adapting traditional mystical practices in radical new ways Besserman is at the forefront of this revolution In this book she traces the history of female centered worship and tells the story of searching for her own path to truth Combining practices from the Kabbalah with meditation Besserman walks readers through step by step rituals to find their own personal connection with the divine

Knowledge Building in Early Modern English Music Katie Bank,2020-08-16 Knowledge Building in Early Modern English Music is a rich interdisciplinary investigation into the role of music and musical culture in the development of metaphysical thought in late sixteenth early seventeenth century England The book considers how music presented questions about the relationships between the mind body passions and the soul drawing out examples of domestic music that explicitly address topics of human consciousness such as dreams love and sensing Early seventeenth century metaphysical thought is said to pave the way for the Enlightenment Self Yet studies of the music s role in natural philosophy has been primarily limited to symbolic functions in philosophical treatises virtually ignoring music making s substantial contribution to this watershed period Contrary to prevailing narratives the author shows why music making did not only reflect impending change in philosophical thought but contributed to its formation The book demonstrates how recreational song such as the English madrigal confronted assumptions about reality and representation and the role of dialogue in cultural production and other ideas linked to changes in how knowledge was built Focusing on music by John Dowland Martin Peerson Thomas Weelkes and William Byrd this study revises historiography by reflecting on the experience of music and how music contributed to the way early modern awareness was shaped

Thinking Being: Introduction to Metaphysics in the Classical Tradition Eric Perl,2014-02-06 In Thinking Being Eric Perl articulates central ideas and arguments regarding the nature of reality in Parmenides Plato Aristotle Plotinus and Aquinas He shows that throughout this tradition these ideas proceed from and return to the indissoluble togetherness of thought and being first clearly expressed by Parmenides The emphasis throughout is on continuity rather than opposition Aristotle appears as a follower of Plato in identifying being as intelligible form and Aquinas as a follower of Plotinus in locating the first principle beyond being Hence Neoplatonism itself a coherent development of Platonic thought comes to be seen as the mainstream of classical philosophy Perl s book thus contributes to a revisionist understanding of the fundamental outlines of the western tradition in metaphysics
