**The Censorship Files** Alejandro Herrero-Olaizola, 2012-02-01 Drawing on extensive research in the Spanish National Archive Alejandro Herrero Olaizola examines the role played by the censorship apparatus of Franco's Spain in bringing about the Latin American literary Boom of the 1960s and 1970s He reveals the negotiations and behind the scenes maneuvering among those involved in the Spanish publishing industry Converging interests made strange bedfellows of the often left wing authors and the staid officials appointed to stand guard over Francoist morality and to defend the supposed purity of Castilian Spanish Between these two uneasily allied groups circulated larger than life real world characters like the Barcelona publisher Carlos Barral and the all powerful literary agent Carmen Balcells The author details the fascinating story of how novels by Mario Vargas Llosa Guillermo Cabrera Infante Gabriel García Márquez and Manuel Puig achieved publication in Spain and in doing so reached a worldwide market This colorful account underpins a compelling claim that even the most innovative and aesthetically challenging literature has its roots in the economics of the book trade as well as the institutions of government and the exigencies of everyday politics and ideology *Encyclopedia of Literary Translation Into English: A-L* O. **Voice of the Masters** Roberto González Echevarría, 2010-07-05 By one of the most original and learned critical voices in Hispanic studies a timely and ambitious study of authority as theme and authority as authorial strategy in modern Latin American literature An ideology is implicit in modern Latin American literature argues Roberto González Echevarría a through which both the literature itself and criticism of it define what Latin American literature is and how it ought to be read In the works themselves this ideology is constantly subjected to a radical critique and that critique renders the ideology productive and in a sense is what constitutes the work In literary criticism however too frequently the ideology merely serves as support for an authoritative discourse that seriously misrepresents Latin American literature In *The Voice of the Masters* González Echevarría attempts to uncover the workings of modern Latin American literature by creating a dialogue of texts a dynamic whole whose parts are seven illuminating essays on seminal texts in the tradition As he says To have written a sustained expository book would have led me to make the same kind of critical error that I attribute to most criticism of Latin American literature I would have naively assumed an authoritative voice while attempting a critique of precisely that critical gesture Instead major works by Barnet Cabrera Infante Carpentier Cortázar Fuentes Gallegos García Márquez Roa Bastos and Rodó are the object of a set of independent deconstructive and reconstructive readings Writing in the tradition of Derrida and de Man González Echevarría brings to these readings both the penetrative brilliance of the French master and a profound understanding of historical and cultural context His insightful annotation of Cabrera Infante's *Meta* End the full text of which is presented at the close of the study clearly demonstrates these qualities and exemplifies his particular approach to the text

**Teaching Literature and Medicine** Anne Hunsaker Hawkins, Marilyn Chandler McEntyre, 2016-01-01 Both the actualities and the metaphorical possibilities of illness and medicine abound in literature from the presence of tuberculosis in Franz Kafka's fiction or childbed fever in Mary Shelley's *Frankenstein* to disease in Thomas Mann's *Death in Venice* or in Harold Pinter's *A Kind of Alaska* from the stories of Anton Chekhov and of William Carlos Williams both doctors to the poetry of nurses derived from their contrasting experiences These are just a few examples of the cross pollination between literature and medicine It is no surprise then that courses in literature and medicine flourish in undergraduate curricula medical schools and continuing education programs throughout the United States and Canada This volume in the MLA series *Options for Teaching* presents a variety of approaches to the subject It is intended both for literary scholars and for physicians who teach literature and medicine or who are interested in enriching their courses in either discipline by introducing interdisciplinary dimensions The thirty-four essays in *Teaching Literature and Medicine* describe model courses deal with specific texts authors and genres list readings widely taught in literature and medicine courses discuss the value of texts in both medical education and the practice of medicine and provide bibliographic resources including works in the history of medicine from classical antiquity
