historical anthropological and sociological review of how culture affects our experience and expression of romantic love What  
is romantic love and how is it different from and similar to other kinds of love How is romantic love related to sex and  
marriage in human history and across contemporary cultures What cultural factors mediate attraction in love These are some  
of the questions the volume explores through its interdisciplinary yet focused lens Much of the current research evidence  
suggests that love is a universal emotion experienced by a majority of people in various historical eras and in all the world s  
cultures Yet love displays in different ways because culture has an impact on people s conceptions of love and the ways they  
feel think and behave in romantic relationships This volume summarizes classical knowledge on love and culture while at the  
same time focusing sharply on recent studies and cutting edge research that has advanced the field Divided into three parts  
the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in  
cultural context Part II traces the origin and evolution of romantic love both in various places throughout the world and  
various time periods throughout history Part III presents the revolutionary expansion of romantic love ideas and practices in  
the late 20th and early 21st centuries in various parts of the world focusing particularly on the development of romantic love  
as a cultural ideal of the modern cultures Finally the book concludes by summarizing the major achievements in this field of  
study and predicts future development A timely and thoughtful addition to the literature Romantic Love in Cultural Contexts  
delivers thought provoking insights to researchers in relationship scholarship sociology anthropology and cultural studies  
and all those interested in the universal human concept of love Overall I find Dr Victor Karandashev is an excellent and fine  
scholar who has a firm grasp of both the fundamental principles of cross cultural research and of anthropology In our  
increasingly connected world Romantic Love in Cultural Contexts updates and adds to the descriptions and explanations of  
similarities and differences in romantic love across generations and cultures Romantic love encompasses the life span rather  
than being a phenomenon largely confined to youthful years The topic of this project concerns the deepest of our sentiments  
and pervades life from birth to death This book contributes to better knowledge of this phenomenon across generations F lix
