Doiron,2013-04-09 **Thread of Life** An Adoption Story is the true story of an adopted child's journey to find his birth parents. The adoption process can often leave many unanswered questions for the adoptee, the adopted parents, and even the eventual offspring of an adopted child. It has been said that adoption is more like a marriage than a birth, with two or more individuals each with their own unique mix of needs, patterns, and genetic history coming together with love, hope, and commitment for a future together. You become a family not because you share the same genes but because you share love for each other. Mike Doiron's original intent was to try to fill in some of the gaps genealogically, medically, and perhaps even mentally as he began his adult life following university. The endeavor took him down a path of self-discovery and adventure. When he began to chronicle what he had learned, he decided that he wanted to share his findings with others. For him, **Thread of Life** is not meant to be a guidebook for families of adoption but rather a documented true story sharing personal insights from his own journey to answer the questions many adopted children ponder as they become adults.

Uncovering the Act of Maternal Infanticide from a Psychological, Political, and Jungian Perspective Brooke Laufer,2024-07-02 Using a wide range of disciplinary backgrounds, Laufer examines the topic of maternal infanticide through the lens of Jungian theory and presents an integrated and forensic view of this issue as an aggregate of personal and political moments and as a feminine and feminist outcry urging human evolution. The first part of the book will dissect the identity of the infanticidal mother and the Death Mother archetype, with the author providing firsthand accounts of patients that she has worked with in her professional career. The second part of the book focuses on interpreting that act of maternal infanticide, and these chapters will look to the construct of patriarchal Motherhood as a way of explaining the drive and actions of an infanticidal mother. The third and final section of the book takes the concept of evolution and transmutation a step further and addresses what is required in our modern state for the event of maternal infanticide. This is an important new book for Jungian and analytic clinicians and scholars with an interest in maternal archetypes as well as psychologists and psychiatrists who specialize in perinatal mental health. It would also be appropriate for forensic psychologists and legal analysts and academics and clinicians in the fields of women's health and studies.

Conceiving People Daniel Groll,2021-08-24 Each year tens of thousands of children are conceived with donated gametes sperm or eggs Some know the identity of their donors Others never will Questions about what donor conceived people should know about their genetic progenitors are significant for literally millions of people including donor conceived people their parents and donors But the practice of gamete donation also provides a vivid occasion for thinking about questions that matter to everyone What is the value of knowing who your genetic progenitors are How are our identities bound up with knowing where we come from In Conceiving People Identity Genetics and Gamete Donation Daniel Groll argues that people who plan to create a child with donated gametes should choose a donor whose identity will be made available to the resulting child This is not Groll argues because having genetic knowledge is fundamentally important Rather it is because donor conceived people are likely to really care about having genetic knowledge and parents should care about what their kids care about **The Oxford Bible Commentary** John Barton,John Muddiman,2007-01-25 CD ROM contains Introductions and verse by verse commentaries to Genesis and Mark s Gospel Logos Library System *The Delineator* ,1910 **New York Magazine** ,1988-09-19 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and
