adaptable for use during social and political unrest and in unlikely circumstances Most notably the island s songs were used at the turn of the century to help rally support for the United States involvement in World War I and to calm racial tensions between black and white soldiers In the 1960s civil rights activists adopted spirituals as freedom songs though many were unaware of their connection to the island Gullah Spirituals uses fieldwork personal recordings and oral interviews to build upon earlier studies and includes an appendix with more than fifty transcriptions of St Helena spirituals many no longer performed and more than half derived from Crawford s own transcriptions Through this work Crawford hopes to restore the cultural memory lost to time while tracing the long arc and historical significance of the St Helena spirituals

Sacral Grooves, Limbo Gateways Keith Cartwright, 2013 We re seeing people that we didn t know exist the director of FEMA acknowledged in the wake of Hurricane Katrina Sacral Grooves Limbo Gateways offers a corrective to some of America s institutionalized invisibilities by delving into the submerged networks of ritual performance writing intercultural history and migration that have linked the coastal U S South with the Caribbean and the wider Atlantic world This interdisciplinary study slips beneath the bar of rigid national and literary periods embarking upon deeper more rhythmic and embodied signatures of time It swings low through ecologies and symbolic orders of creolized space And it reappraises pluralistic modes of knowledge kinship and authority that have sustained vital forms of agency such as jazz amid abysses of racialized trauma Drawing from Haitian Vodou and New Orleanian Voudou and from Cuban and South Floridian Santería as well as from Afro Baptist Caribbean Geechee and Bahamian models of encounters with otherness this book reemplaces deep southern texts within the counterclockwise ring stepping of a long Afro Atlantic modernity Turning to an orphan girl s West African initiation tale to follow a remarkably traveled body of feminine rites and writing in works by Paule Marshall Zora Neale Hurston Lydia Cabrera William Faulkner James Weldon Johnson and LeAnne Howe among others Cartwright argues that only in holistic form emergent from gulfs of cross cultural witness can literary and humanistic authority find legitimacy Without such grounding he contends our educational institutions blind and even poison students bringing them to swallow lye like the grandson of Phoenix Jackson in Eudora Welty s *A Worn Path* Here literary study may open pathways to alternative medicines fetched by tenacious avatars like Phoenix or an orphan Kumba or a shell shaking Turtle to remedy the lies our partial histories have made us swallow

Musical Encounters with Deleuze and Guattari Pirkko Moisala, Taru Leppänen, Milla Tiainen, Hanna Väättäinen, 2017-01-12 This is the first volume to mobilize encounters between the work of Gilles Deleuze and Félix Guattari and the rich developments in cultural studies of music and sound The book takes seriously the intellectual and political challenge that the process philosophy of Deleuze and Guattari poses for previous understandings of music as permanent objects and primarily discursive texts By elaborating on the concepts of Deleuze and Guattari in innovative ways the chapters of the book demonstrate how musical and sonic practices and expressions can be reconsidered as instances of becoming actors in assemblages and actualizations of virtual tendencies The collection pushes notions of music and sound beyond such long term paradigms as identity thinking the privileging of signification and the centrality of the human subject The chapters of the volume bring a range of new topics and methodological approaches in contact with Deleuze and Guattari These span from movement improvisation jazz and western art music studies sound and performance art and reality TV talent shows to deaf musicians and indigenous music The book also highlights such fresh ways of doing analysis and shaping the methodological tools of music and sound studies that are enabled by Deleuze and Guattari's philosophy Their philosophy too gains renewed capacities and potential when responding to ethnographic cultural ethnomusicological participatory aesthetic new materialist feminist and queer perspectives to music and sound

Stigma and Culture J. Lorand Matory, 2015-12-02 In *Stigma and Culture* J Lorand Matory provocatively shows how ethnic identification in the United States and around the globe is a competitive and hierarchical process in which populations especially of historically stigmatized races seek status and income by dishonoring other stigmatized populations And there is no better place to see this than among the African American elite in academia where he explores the emergent ethnic identities of African and Caribbean immigrants and transmigrants Gullah Geechees Louisiana Creoles and even Native Americans of partly African ancestry Matory describes the competitive process that hierarchically structures their self definition as ethnic groups and the similar process by which middle class African Americans seek distinction from their impoverished compatriots Drawing on research at universities such as Howard Harvard and Duke and among their alumni networks he details how university life while facilitating individual upward mobility touting human equality and regaling cultural diversity also perpetuates the cultural standards that historically justified the dominance of some groups over others Combining his ethnographic findings with classic theoretical insights

from Frantz Fanon Fredrik Barth Erving Goffman Pierre Bourdieu and others alongside stories from his own life in academia Matory sketches the university as an institution that particularly through the anthropological vocabulary of culture encourages the stigmatized to stratify their own

From The Opposite Side of Cush KP Barnabas, 2022-02-28 The term diaspora from the Greek word diaspeir meaning to scatter abroad by definition refers to the movement migration or scattering of a people away from an established or ancestral homeland However when it comes to the history of the Jews this term transcends the primary surface level meaning and becomes a concept the culmination of the movement migration and scattering of the children of Israel didn't conclude with assimilation into the cultures in which they found themselves They transformed the bane of exile into successful establishments of prominent and distinct communities where they not only maintained their set apart identity as Jews adhering to the culture and traditions of their fathers but in many cases ascended from settlers to sovereignty Nowhere is this more evident than in the sub Saharan region of West Africa labeled Negroland or Nigritia by European cartographers but better known as Soudan for within the very name Soudan is the name Yuda the people of the preeminent Israelite tribe who had their beginnings in a land over 4 000 miles away on the opposite side of the continent the Holy Land of Judea The Diaspora of the children of Israel from Homeland to Ham's land is a series of enlightening journeys of intrigue and fascination that has been consistently glossed over scholastically whether by ignorance or intention
