once in every puzzle so it is a good idea to cross off each letter as you find it in the bar of letters directly underneath the grid And when you work out the identity of a new number remember to record it in the number and letter key at the bottom of each puzzle If you are unsure of the rules then take a quick peek at the first solution to see how it works The aim of the game is to work out the number that represents all 26 letters of the alphabet and to complete the puzzle grid The end result will be a valid crossword solution filled with words you ll find in the dictionary Good luck we hope you enjoy solving these codeword puzzles If you can get through all 50 then you are a champion codeword solver
