a sense of the actual and the real will do as an instrument with which to comprehend the world In doing so this book is not only a model by which to think through Los Angeles but as a model by which to think through other world cities     **Richard Neutra and the Making of the Lovell Health House, 1925-35** Edward Dimendberg, 2025-09-02 This absorbing volume reveals the impact of the Lovell Health House from its inspiration through its construction to its impact This book tells the story of the Lovell Health House designed and built by Austrian American architect Richard Neutra 1892 1970 Perched on a steep hillside with panoramic views of Los Angeles the home pioneered the use of concrete and steel radically advanced the ideals of hygienic carefree and open air living and explored new relationships between space structure the natural world and physical and psychological well being It was widely documented and written about in leading architectural journals when it was erected and these publications elevated the house to the status of an icon in the history of modernism and an essential work of the international modern movement It also helped to launch the global career of one of the central figures of twentieth century architecture The book is framed with an introduction by Edward Dimendberg and includes new texts by Crosby Doe and Thomas Hines At the heart of this project are six portfolios on the background design making circulation reception and resonance of this seminal residence by curator and archivist Nicholas Olsberg Featuring historical photography by Willard Morgan and contemporary photography by Grant Mumford this volume will help bring Neutra s masterpiece to an entirely new audience     **Selected Technical Publications** United States.
