Love, Sex and Teenage Sexual Cultures in South Africa Deevia Bhana, 2017-10-25 Love Sex and Teenage Sexual Cultures in South Africa interrupts the relative silence around teenage constructions of love in South Africa Against the backdrop of gender inequalities HIV and violence the book situates teenage constructions of love and romance within the wider social and cultural context underwritten by the histories of apartheid chronic unemployment poverty and the endless struggle to survive By drawing on focus group discussions with African teenage men and women the book addresses teenage Africans as active agents providing a more nuanced picture of their desires and their dilemmas through which sexuality and love are experienced The chapters in the book conceptualise desiring love material love pure love forced love and fearing love It argues that love is intrinsically linked to cultural practices and material realities which mold particular formations of teenage masculinities and femininities This book will be of interest to academics undergraduates postgraduates and researchers in sociology HIV health and gender studies development and postcolonial studies and African studies **For the Love of**

Beauty Arthur Pontynen, 2017-07-05 For most of the last century the methodology of art history has followed a positivist approach emphasizing form and style fact and history as the means of studying works of art By contrast the philosophical pursuit of truth once central to the fine arts and humanities has largely been abandoned In *For The Love of Beauty* Arthur Pontynen offers a searching and ambitious critique of modern aesthetic practice that aims to restore the pursuit of the knowledge of reality Being to its rightful place Pontynen begins by addressing the question of why the pursuit of truth be it called Dao Dharma God Logos Ideal etc is no longer acceptable in academic circles even though it has been intrinsic to the purpose of art at most times and in most cultures Lacking the pursuit of truth of some degree of knowledge of what is true and good the humanities necessarily lack intellectual and cultural grounding and purpose Fields of study such as philosophy music art and history are therefore trivialized and brutalized Pontynen's focus on the study of the visual arts details the how the denial of purpose and quality in modernist and postmodernist aesthetics has denied art any possibility of transcending entertainment therapy or propaganda In place of the established narratives Pontynen offers a counter narrative based on a cross cultural pursuit of the good the true and the beautiful He recognizes that substantively different cultural traditions exist and that the truth claims of each may be valid in whole or in part He shows how the history of art parallels the intellectual history of Western culture and how these parallels affect both aesthetics and ethics Pontynen engages with those elements of modernist and postmodernist thought that might be true His purpose is not simply to deny their validity but to engage a viewpoint that does not privilege the notion of a purposeless cosmos *For the Love of Beauty* will be of interest
