Love And Sacrifice The Life Of Emma Jung:

Love and Sacrifice Imelda Gaudissart, 2014-09-15 Little attention has been paid to Emma Jung's role in the history of analytical psychology and in the life of C G Jung. This extended biographical essay by Imelda Gaudissart, originally published in French, provides us with a carefully detailed view of this remarkable woman. Gaudissart's sensitive depiction of Emma Jung reveals a very real woman confronted with an unexpected life and challenged to develop in ways that for a wife and mother of that period were almost unimaginable. She worked closely with her husband C G Jung and Sigmund Freud, becoming herself an analyst and she was instrumental in establishing the earliest institutions for analytical psychology. The issues Emma Jung faced on her path to individuation will resonate with those of many women today. The importance of Emma Jung in the life of C G Jung has often been either taken for granted or underestimated and her rightful place in the history of analytical psychology has rarely been given serious consideration. Imelda Gaudissart has managed to correct this imbalance and to provide us with a highly nuanced portrayal of this remarkable woman without falling into idealization or caricature. Any understanding of Jung is incomplete without an understanding of Emma's contribution. I highly recommend this book.

Tom Kelly, past president of the International Association for Analytical Psychology. The psychodynamics of the relationships between Emma, Carl, Sabina, and Toni are fascinating and Emma's composure and contributions under such difficult circumstances are miraculous. This is a story about the amazing varieties of love in this world, always combined sooner or later with some sort of a pain but always stronger in the end. Beyond therapists and historians of psychology, this book serves all who want to grow but who are sometimes frustrated by the trials of life. Emma's achievements have so much to teach us.

John Cerullo, professor of history, University of New Hampshire at Manchester. Imelda Gaudissart has the great merit of having molded the biographical material about Emma Jung Rauschenbach into an interesting and moving essay. She helps to keep alive the memory of this remarkable, brave, and generous woman, my beloved grandmother Jost Hoerni, one of Emma Jung's nineteen grandchildren. Imelda Gaudissart has a master's in psychopathology and has been a Jungian analyst for more than thirty years. She is the coauthor with her husband Pierre of a new translation of the I Ching. Married and head of a large family, she lives in Tours on the Loire Valley. Kathleen Llanwarne, English by birth, now lives in Brussels where she has worked as a translator for thirty years. Her interest in the work of C G Jung and in Jungian analysis dates back even further.

starting point of this collection from a range of theorists interested in the multiple concerns of Jungian and analytical psychology. The contributors take a unique approach to Jungian thinking. Rather than focusing on its mythological aspects, the authors develop alternative feminist approaches that enhance the appreciation of the possibilities for Jungian and post-Jungian studies. With a primarily theoretical orientation, the rigorous critical approaches in the collection highlight the possibilities of imaginative Jungian theory. Divided into three parts: Viewing Earth, Clinical Perspectives, and Literary Landscapes, the chapters cover themes including embodiment, intersubjectivity, individuation, and narrative. The contributors vividly reflect the range and diversity of opinions amongst women influenced by Jungian thought. *Feminist Views from Somewhere* is essential reading for academics and students of Jungian and post-Jungian studies, women's studies, and gender studies, as well as analytical psychologists in practice and in training.

Great Psychologists as Parents David

Cohen, 2016-09-29. Does it make you a better parent if you have pioneered scientific theories of child development? In a unique study, David Cohen compares what great psychologists have said about raising children and the way they did it themselves. Did the experts practice what they preached? Using an eclectic variety of sources from letters, diaries, autobiographies, biographies, as well as material from interviews, each chapter focuses on a key figure in historical context. There are many surprises. Was Piaget the greatest child psychologist of the 20th century, the only man to try to psychoanalyse his mother? How many sons of great gurus have had to rescue their father from a police station, as R.D. Laing's son did? And why did Melanie Klein's daughter wear red shoes the day her mother died? The book covers early scientists such as Darwin, psychoanalysts such as Freud and Jung, to founders of developmental psychology including Piaget and Bowlby, as well as Dr Spock. It gives a vivid, dramatic, and often entertaining insight into the family lives of these great psychologists. It highlights their ideas and theories alongside their behaviour as parents and reveals the impact of their parenting on their children. Close bonds, fraught relationships, and family drama are described against a backdrop of scientific development as the discipline of psychology evolves. *Great Psychologists as Parents* will be absorbing reading for students in childhood studies, education, and psychology, and practitioners in psychology and psychoanalysis. It will also interest general readers looking for a parenting book with a difference.

Jung's Red Book For Our Time Murray Stein, Thomas Arzt, 2020-03-12. Edited by Murray Stein and Thomas Arzt, the essays in the series *Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions* are geared to the recognition that the posthumous publication of *The Red Book Liber Novus* by C.G. Jung in 2009 was a meaningful gift to our contemporary world. To give birth to the ancient in a new time is creation. Jung inscribed in his *Red Book*. The essays in this volume continue what was begun in Volume 1 of *Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions* by further contextualizing *The Red Book* culturally and interpreting it for our time. It is significant that this long sequestered work was published during a period in human history marked by disruption, cultural disintegration, broken boundaries, and acute anxiety. *The Red Book* offers an antidote for this collective illness and can be seen as a link in the aurea

catena the golden chain of spiritual wisdom extending down through the ages from biblical times ancient Greek philosophy early Christian and Jewish Gnosis and alchemy The Red Book is itself a work of creation that gives birth to the old in a new time This is the second volume of a three volume series set up on a global und multicultural level and includes essays from the following distinguished Jungian analysts and scholars Murray Stein and Thomas Arzt Introduction John Beebe The Way Cultural Attitudes are Developed in Jung s Red Book An Interview Kate Burns Soul s Desire to become New Jung s Journey Our Initiation QiRe Ching Aging with The Red Book Al Collins Dreaming The Red Book Onward What Do the Dead Seek Today Lionel Corbett The Red Book as a Religious d104 John Dourley Jung the Nothing and the All Randy Fertel Trickster His Apocalyptic Brother and a World s Unmaking An Archetypal Reading of Donald Trump Noa Schwartz Feuerstein India in The Red Book Overtones and Undertones Grazina Gudaite Integrating Horizontal and Vertical Dimensions of Experience under Postmodern Conditions Lev Khegai The Red Book of C G Jung and Russian Thought G nter Langwieler A Lesson in Peacemaking The Mystery of Self Sacrifice in The Red Book Keiron Le Grice The Metamorphosis of the Gods Archetypal Astrology and the Transforma tion of the God Image in The Red Book Ann Chia Yi Li The Receptive and the Creative Jung s Red Book for Our Time in Light of Daoist Alchemy Romano M dera The Quest for Meaning after God s Death in an Era of Chaos Joerg Rasche On Salome and the Emancipation of Woman in The Red Book J Gary Sparks Abraxas Then and Now David Tacey The Return of the Sacred in an Age of Terror Ann Belford Ulanov Blundering into the Work of Redemption

Jung's Technique of Active Imagination and Desoille's Directed Waking Dream Method Laner Cassar,2020-06-07 Jung s Technique of Active Imagination and Desoille s Directed Waking Dream Method brings together Carl Jung s active imagination and Robert Desoille s r ve veill dirig directed waking dream method RED It studies the historical development of these approaches in Central Europe in the first half of the 20th century and explores their theoretical similarities and differences proposing an integrated framework of clinical practice The book aims to study the wider European context of the 1900s which influenced the development of both Jung s and Desoille s methods This work compares the spatial metaphors of interiority used by both Jung and Desoille to describe the traditional concept of inner psychic space in the waking dreams of Jung s active imagination and Desoille s RED It also attempts a broader theoretical comparison between the procedural aspects of both RED and active imagination by identifying commonalities and divergences between the two approaches This book is a unique contribution to analytical psychology and will be of great interest for academics researchers and post graduate students interested in the use of imagination and mental imagery in analysis psychotherapy and counselling The book s historical focus will be of particular relevance to Jungian and Desoillian scholars since it is the first of its kind to trace the connections between the two schools and it gives a detailed account of Desoille s early life and his first written works This book was a Grady Award nominee for 2021 The Bollingen Tower: Constructing a Jungian Sense of Place Martin Gledhill,2025-10-14 Offering a novel conceptual methodology where Jungian psychology is used to analyse Jung s own

architecture this book offers an innovative reading of Jung's Bollingen Tower in order to explore a Jungian sense of place situating it within a wider examination of the psychic places that influenced his work Representing the first comprehensive study of Jung's building activities the chapters illuminate the wider purpose of architecture as a reflection of self and a means to belong in the world Using the author's own fieldwork interviews with descendants and detailed analysis of Jung's autobiography and copious writings drawn from his own imagination and psyche chapters explore themes such as the relationship between psyche and geometry the idea of psychic place and inner and outer in analytical psychology In discussing the legacy and the predominance of Bollingen Tower as the defining spatial motif of Jung's psychological system the chapters also cover comparisons with Marie Louise von Franz's Tower and Christiana Morgan's Tower The author's own background as an award winning architect alongside a lifelong study of analytical psychology makes him uniquely placed to shed light on this as yet underexplored area of study The book opens up interdisciplinary dialogues and provides a broader context for understanding the relationship between the environment and the psyche It will therefore be of interest to scholars and postgraduate students in the fields of Jungian and analytical psychology and architecture

The Adult Development of C.G. Jung John-Raphael Staude, 2014-07-17 Originally published in 1981 this study presents Jung s theory of adult personality development and analyses and interprets in its biographical and historical context the genesis and development of Jung s theory of the individuation process Dr Staude argues that an in depth study of Jung s life offers insights into the patterns and processes of adult development and he focuses particularly on Jung s writings during and immediately after his mid life transition He shows how Jung articulated his hard won insights into adult development in his books and essays and into his analytic practice and considers how Jung s developmental theory relates to the changes he experienced in his own life and in his socio historical environment Dr Staude concludes that Jung s emphasis on impersonal universals of human psychic development complements and supplements the personal emphasis of ego development theory and provides the foundations for a more holistic understanding of adult developmental psychology
