Love Is All: Creative Altruism In Global Management Gebhard Deissler, 2010-12-27 Research Paper undergraduate from the year 2010 in the subject Business economics Business Management Corporate Governance course Interkulturelles Management language English abstract Mankind needs this agent today more than ever to do the integrative work which is its nature The moment it emerges the integration is completed All diversity questions are resolved As long as it does not emerge none are solved nor can they ever be solved sustainably without it We need it today more than ever because of unprecedented diversity challenges during the course of globalization and the unprecedented challenges and antagonisms that come with it It is the only solution to intercultural hate And it is because of this hate that we need it and first and foremost because it is the only power in the world that can heal it Neither science nor technology nor psychology nor philosophy nor in particular intercultural research can provide sustainable solutions beyond the analysis of the situation from a far too relative and limited vantage point of the mental psychological approaches alone

The Five Literacies of Global Leadership Richard David Hames, 2015-06-10 New research has exposed our leadership paradigm as a outdated mess of flawed models and practices By working with great leaders and observing their common attitudes and behaviours Richard Hames has cracked a universal code based on intelligence appreciation and collaboration This code unlocks Five Literacies of Global Leadership These behaviours are the trade secrets of the artists and alchemists among us Often instinctively these leaders charge others with energy search for new perspectives and embrace diversity And they are driven by dialogue This book reveals approaches and attitudes that they all share and that can make anyone an exceptional leader

Renewal Colbert Rhodes, 2017-07-11 Offering a deep look into the moral uncertainty in the contemporary social sciences and American society this book explores an in depth solution This solution as articulated by Pitirim A Sorokin in the 20th century is the theory of Integralism a perspective dating back to Plato Aristotle and Aquinas Sorokin initially applied Integralism by locating and analyzing three dominant super socio cultural systems over 2500 years of Graeco Roman and Western history Each super system was unified by a central philosophical principle based either on materialism the senses or the rational or the supersensory super rational A super system declines when it reaches the limits of its potential to achieve its true reality and value to be replaced by another super system Sorokin described a trendless rotation of the three super socio cultural systems The current dominant super socio cultural system in the West is a materialist version emphasizing science and technology with little thought given to supersensory super rational reality Sorokin asserted contemporary materialist culture was in a state of collapse due to the breakup of its moral values As a

consequence he saw a struggle for power occurring between egoistic individuals and groups often resulting in revolutions wars and inter human strife In response to the one sided materialist view of reality the goal of Integralism is to unify all three forms of reality into an integral culture that harmoniously balances materialist and supersensory super rational orientations A solution to the contemporary moral confusion Sorokin argued can be found in the application of supra conscious intuition that would enable a human to know what is eternal in the ordinary and reach the transcendent an experience not accessible to the senses or the rational intellect alone The supra conscious is the source for reaching the supreme moral value creative unselfish altruism which can be shared by all cultures to produce peace and harmony in the world Seminar ,1981
