

### OVERVIEW

The United States system of government is supported by a political culture that fosters a sense of civic duty, takes pride in the nation's constitutional arrangements, and provides support for the exercise of essential civil liberties (albeit sometimes out of indifference more than principle). In recent decades, people's mistrust of government officials (though not of the system itself) has increased, and confidence in officials' responsiveness to the popular will has declined.

Although Americans value liberty in both the political system and the economy, they believe equality is important principally in the political realm. In economic affairs, although a few people wish to see equality of results, many support equality of opportunity and inequality of results.

Not only is the American culture generally supportive of democratic rule, it also has certain distinctive features that make the American way of governing different from other democracies. Americans are preoccupied with their rights. This fact, combined with a political system that encourages the vigorous exercise of rights and claims, gives political life in the United States an adversarial character. Unlike the Japanese or the Swedes, Americans do not generally reach political decisions by consensus, and they often do not defer to the authority of administrative agencies. U.S. politics, more than that of many other nations, has protracted conflict at every stage.

### CHAPTER OUTLINE

#### I. Introduction

- Alexis de Tocqueville wrote a two-volume study titled *Democracy in America* that continues to be one of the defining texts of American political culture.
  - De Tocqueville argued that democracy endured in the United States because of geography, laws, and "the manners and customs of the people."
  - He concluded that the attitude of Americans about the merits of democracy was fundamental to its success here.
- People in the United States may have very different views today of what democracy means for policymaking, but they continue to display the same veneration for democracy that de Tocqueville identified more than 175 years ago.

#### II. Political Culture (THEME A: WHAT IS "AMERICAN POLITICAL CULTURE"?)

- Constitutional differences among the United States, Great Britain, and France
  - Written constitution (United States, France); unwritten constitution (Great Britain)
  - Separation of powers (United States); unified powers (Great Britain, France)
  - Presidential system (United States); semipresidential system (France); parliamentary system (Great Britain)
- Demographic differences among the United States, Great Britain, and France
  - United States is larger and more diverse
    - Over 300 million citizens
    - English is dominant language, but millions speak Spanish
    - Over 25 percent are non-Hispanic whites
