CHAPTER 2 COURTS AND COURT PROCEDURE

Answers to Learning Objectives

(Page 11)

1. The function of the courts is to declare and apply judicial precedents and to interpret the laws passed by the legislative branch of government.
2. In our society, courts are bound by decisions of higher appellate courts. Therefore appellate courts bind trial courts and all courts, both federal and state, are bound by decisions of the U.S. Supreme Court.
3. The first step in filing a lawsuit is for the plaintiff to file a complaint or petition with the clerk of the court.
4. In a jury trial, the jury is selected and sworn in. The plaintiff and then the defendant make an opening statement. The plaintiff calls witnesses and they testify. The defendant then calls witnesses to testify. After all witnesses have testified and all the evidence has been presented, closing statements are made, the judge instructs the jury, and then the jury deliberates its verdict.

Lesson Outline

1. It is the function of courts to interpret and apply the law to a given situation.
2. The power or authority each court has to hear cases is called its jurisdiction. Courts must have jurisdiction over the subject matter of the case and over the person of the parties. The location in a court system in which the case is tried is called the venue.
3. Courts are classified as:
 - a. Federal courts
 - b. State courts
 - c. Municipal courtsCourts may also be classified as trial courts and appellate courts.
4. Appellate courts exercise considerable authority over the courts under them.
5. Federal courts are classified as:
