Americans and the Unconscious Robert C. Fuller, 1986-09-04 Beginning with Emerson and the Transcendentalists Americans have tended to view the unconscious as the psychological faculty through which individuals might come to experience a higher spiritual realm On the whole American psychologists see the unconscious as a symbol of harmony restoration and revitalization imbuing it with the capacity to restore peace between the individual and an immanent spiritual power Americans and the Unconscious studies the symbolic dimensions of American psychology tracing the historical development of the concept of the unconscious from its early formulations in nineteenth century theology through its elaboration by the major schools of contemporary academic psychology In the process it provides portraits of William James early American Freudians and the Neo Freudians New Psychology and humanistic psychologies Fuller draws attention to the ways in which the concept of the unconscious while originating in the world of scientific discourse symbolizes philosophical and religious interpretations of human nature and shows how the American unconscious helps locate the development of psychological ideas within the broader contexts of American religious and intellectual history The Bible Says: History of Abuses Committed in the Name of the Biblical Text Foster Stockwell, 2007-06-18 Many people use the Bible the way a drunk might use a lamppost that is for support of their own prejudicial misconceptions rather than for any kind of enlightenment This book details such misuses and points to a holistic method for understanding what the Bible really says Introduction to Psychology of Religion Robert W. Crapps, 1986 Developed in almost thirty years of classroom experience this book is designed to introduce students and other readers to the psychological study of religion Robert W Crapps deals with the major questions and figures that have dominated the psychological study of religion over the past century dividing the discussion into four parts Two chapters in part one suggest the problems and possibilities for the psychological study of religion in light of the nature of religion and the scientific method Part two sketches the contributions to the study of religion of three intellectual currents in contemporary psychology psychoanalysis behaviorism and humanistic psychology part three explores the relationship between religion and human development while part four directs attention to religious lifestyles and that weave differentiated parts of human experience into a cohesive whole Publisher description Spiritual, but not Religious Robert C. Fuller, 2001-12-20 Nearly 40% of all Americans have no connection with organized religion Yet many of

these people even though they might never step inside a house of worship live profoundly spiritual lives But what is the nature and value of unchurched spirituality in America Is it a recent phenomenon a New Age fad that will soon fade or a long standing and essential aspect of the American experience In Spiritual But Not Religious Robert Fuller offers fascinating answers to these questions He shows that alternative spiritual practices have a long and rich history in America dating back to the colonial period when church membership rarely exceeded 17% and interest in astrology numerology magic and witchcraft ran high Fuller traces such unchurched traditions into the mid nineteenth century when Americans responded enthusiastically to new philosophies such as Swedenborgianism Transcendentalism and mesmerism right up to the current interest in meditation channeling divination and a host of other unconventional spiritual practices Throughout Fuller argues that far from the flighty and narcissistic dilettantes they are often made out to be unchurched spiritual seekers embrace a mature and dynamic set of basic beliefs They focus on inner sources of spirituality and on this world rather than the afterlife they believe in the accessibility of God and in the mind s untapped powers they see a fundamental unity between science and religion and an equality between genders and races and they are more willing to test their beliefs and change them when they prove untenable Timely sweeping in its scope and informed by a clear historical understanding Spiritual But Not Religious offers fresh perspective on the growing numbers of Americans who find their spirituality outside the church

The Encyclopedia of Christian Literature George Thomas Kurian, James D. Smith III, 2010-04-16 The written word is one of the defining elements of Christian experience As vigorous in the 1st century as it is in the 21st Christian literature has had a significant function in history and teachers and students need to be reminded of this powerful literary legacy Covering 2 000 years The Encyclopedia of Christian Literature is the first encyclopedia devoted to Christian writers and books In addition to an overview of the Christian literature this two volume set also includes 40 essays on the principal genres of Christian literature and more than 400 bio bibliographical essays describing the principal writers and their works These essays examine the evolution of Christian thought as reflected in the literature of every age The companion volume also features bibliographies an index a timeline of Christian Literature and a list of the greatest Christian authors The encyclopedia will appeal not only to scholars and Christian evangelicals but students and teachers in seminaries and theological schools as well as to the growing body of Christian readers and bibliophiles Just Choose Happiness Nell W. Mohney, 2010-10-01 Nell W Mohney adapted from the Introduction In seminars I have conducted over a thirty year period I have discovered that the quality most wanted by Americans is happiness Many of those seminar participants drove to the seminars in luxury cars and they looked well fed and well dressed Yet individually they often expressed disappointment with life and admitted to having a feeling of emptiness They wanted and even felt entitled to more happiness I am one of those who truly believe that the basic answer to happiness is a spiritual one We are made for God and as Saint Augustine said Our hearts are restless til they rest in thee All parts of our personalities are drawn to wholeness and happiness when Christ is

resident within In studying the life of Christ I remembered that although Jesus was a man of sorrow and acquainted with grief more than anything else he was a person of joy and happiness Even his purpose in coming into the world is revealed in John 10 10 I came that they might have life and have it abundantly This abundant life I believe is not just in the world to come but in the here and now where a series of committed choices can cause your spirit to sing
