Modern Dystopian Fiction and Political Thought Adam Stock, 2018-10-26 Over the past few

years dystopia has become a word with increasing cultural currency This volume argues that we live in dystopian times and more specifically that a genre of fiction called dystopia has above others achieved symbolic cultural value in representing fears and anxieties about the future As such dystopian fictions do not merely mirror what is happening in the world in becoming such a ready referent for discussions about such varied topics as governance popular culture security structural discrimination environmental disasters and beyond the narrative conventions and generic tropes of dystopian fiction affect the ways in which we grapple with contemporary political problems economic anxieties and social fears The volume addresses the development of the narrative methods and generic conventions of dystopian fiction as a mode of socio political critique across the first half of the twentieth century It examines how a series of texts from an age of political extremes contributed to political discourse and rhetoric both in its contemporary setting and in the terms in which we increasingly cast our cultural anxieties Focusing on interactions between temporality spatiality and narrative the analysis unpicks how the dystopian interacts with social and political events debates and ideas Stock evaluates modern dystopian fiction as a historically responsive mode of political literature He argues that amid the terrors and upheavals of the first half of the twentieth century dystopian fiction provided a unique space for writers to engage with historical and contemporary political thought in a mode that had popular cultural appeal Combining literary analysis informed by critical theory and the history of political thought with archival based historical research this volume works to shed new light on the intersection of popular culture and world politics It will be of interest to students and scholars in literary studies cultural and intellectual history politics and international relations
