Hippocrates Shadow Secrets From The House Of Medicine:

Hippocrates' Shadow David H. Newman (M.D.),2008 **Hippocrates' Shadow** David H. Newman,2009-09-15 A clear sighted heartfelt and humane story of the needless tests and treatments that cripple healthcare as a guide to good medicine it may help us get back to the essence of what good doctors do be with patients in healing Samuel Shem M D author of The House of God and The Spirit of the Place In **Hippocrates Shadow** Dr David H Newman upends our understanding of the doctor patient relationship and offers a new paradigm of honesty and communication He sees a disregard for the healing power of the bond that originated with Hippocrates and ultimately a disconnect between doctors and their oath *to do no harm* Exposing the patterns of secrecy and habit in modern medicine s carefully protected subculture Dr Newman argues that doctors and patients cling to tradition and yield to demands for pills or tests Citing fascinating studies that show why antibiotics for sore throats are almost always unnecessary how cough syrup is rarely more effective than a sugar pill and why CPR is violent invasive and almost always futile this thought provoking book cuts to the heart of what really works and what doesn t in medicine

Holism in Ancient Medicine and Its Reception Chiara Thumiger,2020-11-30 This volume aims at exploring the ancient roots of holistic approaches in the specific field of medicine and the life sciences without however overlooking the larger theoretical implications of these discussions Therefore the project plans to broaden the perspective to include larger cultural discussions and in a comparative spirit reach out to some examples from non Graeco Roman medical cultures As such it constitutes a fundamental contribution to history of medicine philosophy of medicine cultural studies and ancient studies more broadly The wide ranging selection of chapters offers a comprehensive view of an exciting new field the interrogation of ancient sources in the light of modern concepts in philosophy of medicine as justification of the claim for their enduring relevance as object of study and at the same time as means to a more adequate contextualisation of modern debates within a long historical process Contributors are Hynek Barto Sean Coughlin Elizabeth Craik Brooke Holmes Helen King Giouli Korobili David Leith Vivian Nutton Julius Rocca William Michael Short P N Singer Konstantinos Stefou Chiara Thumiger Laurence Totelin Claire Trenery John Wee Francis Zimmermann ***Dung for Dinner*** Christine Virnig,2020-07-21 Discover the stomach churning truth about the animal poop pee vomit and secretions that humans have eaten throughout history and sometimes still do in Christine Virnig s laugh out loud middle grade nonfiction debut ***Dung for Dinner*** is illustrated by Korwin Briggs From Roman charioteers scarfing wild boar dung to astronauts guzzling their own pee to today s kids spreading insect vomit on their toast this humorous compendium is chock full of history science and fascinatingly gross facts Bug secretions coating your candy corn Rodent poop in your popcorn Physicians tasting their patients pee It s deliciously disgusting SCBWI Golden Kite Award Finalist for Older Nonfiction ***Case Study Evaluation*** Trish Greenhalgh,Jill Russell,Saville Kushner,2015-01-12 This volume explores the vital contribution of case study as an evaluation approach that links methodology and political purpose and opens up new ways of seeing **The Free Market in Medical**

Care Leo Ray Ingle,2015-04-14 The most prominent theme of Take Back Our Health Care is the restoration of a genuine free market in medical care not the market touted by corporations but a market more akin to the traditional free market and to the systems of Greek and Medieval medical care The amazing scientific and technological advances in medicine and the effect of those advances changed the role of physicians and increased the costs of care Increased governmental and corporate control of medicine threatens us all A genuinely free market is described as well as the challenges facing those markets Doctors are in the position of Aesculapius who in the cover graphic represents medicine His choice is between mercury merchants and the three graces medicine hygiene and panacea Aesculapius treated patients merchants make deals with clients The book focuses on the solution

State of the Heart Haider Warraich,2019-07-23 In State of the Heart Dr Haider Warraich takes readers inside the ER inside patients rooms and inside the history and science of cardiac disease State of the Heart traces the entire arc of the heart from the very first time it was depicted on stone tablets to a future in which it may very well become redundant While heart disease has been around for a while the type of heart disease people have why they have it and how it is treated is changing Yet the golden age of heart science is only just beginning And with treatments of heart disease altering the very definitions of human life and death there is no better time to look at the present and future of heart disease the doctors and nurses who treat it the patients and caregivers who live with it and the stories they hold close to their chests More people die of heart disease than any other disease in the world and when any form of heart disease progresses it can result in the development of heart failure Heart failure affects millions and can affect anyone at anytime a child recovering from a viral infection a woman who has just given birth or a cancer patient receiving chemotherapy Yet new technology to treat heart failure is fundamentally changing just what it means to be human Mechanical pumps can be surgically sown into patients hearts and when patients with these pumps get really sick sometimes they don't need a doctor or a surgeon they need a mechanic In State of the Heart the journey to rid the world of heart disease is shown to be reflective of the journey of medical science at large We are learning not only that women have as much heart disease as men but that the type of heart disease women experience is diametrically different from that in men We are learning that heart disease and cancer may have more in common than we could have imagined And we are learning how human evolution itself may have led to the epidemic of heart disease In understanding how our knowledge of the heart evolved State of the Heart traces the twisting and turning road that science has taken filled with potholes and blind turns all the way back to its very origin

First Do No Self Harm Charles Figley,Peter Huggard,Charlotte Rees,2013-08-05 First Do No Self Harm by three medical and mental health educators offers a clarion call for the improved medical and mental health of physicians across their education continuum by posing and answering five fundamental questions about sources of stress and methods of coping among physicians and medical students and best practices in medical education and physician support

Hippocrates
Now Helen King,2019-11-14 This book is available as open access through the Knowledge Unlatched programme and is

available on www.bloomsburycollections.com We need to talk about Hippocrates Current scholarship attributes none of the works of the Hippocratic corpus to him and the ancient biographical traditions of his life are not only late but also written for their own promotional purposes Yet Hippocrates features powerfully in our assumptions about ancient medicine and our beliefs about what medicine and the physician himself should be In both orthodox and alternative medicine he continues to be a model to be emulated This book will challenge widespread assumptions about Hippocrates and in the process about the history of medicine in ancient Greece and beyond and will also explore the creation of modern myths about the ancient world Why do we continue to use Hippocrates and how are new myths constructed around his name How do news stories and the internet contribute to our picture of him And what can this tell us about wider popular engagements with the classical world today in memes quotes and online
