## **Hipster Animals A Field Guide:**

**Hipster Animals** Dyna Moe, 2015-09-22 A field guide to scenesters trendhoppers and other cutting edge species you've probably never heard of. They're pretty obscure. An illustrated pocket guide to the hip characters populating cool neighborhoods across America. *Hipster Animals* helps readers identify these urban wildlife in their natural habitats. Including details on the creatures identifying characteristics, diets, mating behavior, and calls, this parody reference guide provides a snarky glimpse into the foreign yet all too familiar world of the trendsetters among us. ***Hipster Culture*** Heike Steinhoff, 2021-07-29 Twenty-first century popular culture has given birth to a peculiar cultural figure: the hipster. Stereotypically associated with nerd glasses, beards, and buns, boho clothing, and ironic T-shirts, hipsters represent a post-postmodern post-subculture whose style aesthetics and practices have increasingly become mainstream. *Hipster Culture* is the first comprehensive collection of original studies that address the hipster and hipster culture from a range of cultural studies perspectives. Analyzing the cultural, economic, aesthetic, and political meanings and implications of a wide range of phenomena prominently associated with hipster culture, the contributors bring their expertise and own research perspectives to bear, thus shaping the volume's transnational and intersectional approach. Chapters address global and local manifestations of hipster culture, processes of urban gentrification and cultural appropriation, alternative foodways, and eclectic fashion styles; the significance of nostalgia, retro technologies, and social media; and the aesthetics and cultural politics of literature, film, art, and music, marked by self-reflexivity, irony, and a simultaneous longing for an earnest authenticity. *Hipster Culture* explores the diversification of hipster culture, sheds light on popular constructions of the hipster as cultural Other, and critically investigates hipster culture's entanglements with and challenges to dominant cultural discourses of gender, ethnicity, race, sexuality, age, religion, and nationality. ***Urban Animals: A Comic Field Guide*** Mireille Silcoff, 2012-02-07 You've seen them before. They're in your home, in your office, on the street. You've encountered them at some fine and not-so-fine establishments. They're the new urban animals, and now they've been classified. You know you've met them. Every Mother's Worst Nightmare. So what if it says "Pussy" on the front? Mom, there's a picture of a cat under the word. And *The Simpsons*. Quoter. Natural habitat: His own private Springfield. No further description necessary. From That Young Literary Guy, who has just published a novel half of which is comprised of footnotes to *The Condescending Vegetarian*, who misses the nineties when it was more acceptable to call a hamburger evil, just as a dining companion was about to attack one, this book takes a biting look at the creatures that inhabit our everyday urban world, laugh-out-loud portraits with a touch of the tragically comic. Beware, you might find yourself in here. ***The Cultural Politics of Anti-Elitism*** Moritz Ege, Johannes Springer, 2023-03-16 This book examines the highly ambivalent implications and effects of anti-elitism. It draws on this theme as a cross-cutting entry point to provide transdisciplinary analysis of current conjunctures and their contradictions, drawing on examples from popular culture and media politics, fashion, labour, and spatial arrangements. Using the toolboxes of media

and discourse analysis hegemony theory ethnography critical social psychology and cultural studies more broadly the book surveys and theorizes the forms the implications and the ambiguities and limits of anti elitist formations in different parts of the world Anti elitist sentiments colour the contemporary political conjuncture as much as they shape pop cultural and media trends Populists right wing authoritarian ones and others direct their anger at cultural political and sometimes economic elites while supporting other elites and creating new ones At the same time elitist knowledge and expertise decision making power and taste regimes are being questioned in societal transformations that are discussed much more positively under headlines such as participation or democratization The book brings together a group of international interdisciplinary case studies in order to better understand the ways in which the battle cry against the elites shapes current conjunctures and possible future politics focusing on themes such as nationalist political discourse in India Austria the UK and Hungary labour struggles and anti oligarchy rhetoric in Russia tax avoiding elites and fiscal imaginaries working class agency Melania Trump as a celebrity narrative in Slovenia aesthetic codes of the Alt Right football hooliganism in Germany hipster hate in German political discourse or the politics of expertise and anti elite iconography in high fashion internationally The book is intended for undergraduates postgraduates and postdoctoral researchers The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
