A Desert Named Peace Benjamin Claude Brower,2011 In the mid nineteenth century French colonial leaders in Algeria started southward into the Sahara beginning a fifty year period of violence Lying in the shadow of the colonization of northern Algeria which claimed the lives of over a million people French empire in the Sahara sought power through physical force as it had elsewhere yet violence in the Algerian Sahara followed a more complicated logic than the old argument that it was simply a way to get empire on the cheap A Desert Named Peace examines colonial violence through multiple stories and across several fields of research It presents four cases the military conquests of the French army in the oases and officers predisposition to use extreme violence in colonial conflicts a spontaneous nighttime attack made by Algerian pastoralists on a French village as notable for its brutality as for its obscure causes the violence of indigenous forms of slavery and the colonial accommodations that preserved it during the era of abolition and the struggles of French Romantics whose debates about art and politics arrived from Paris with disastrous consequences Benjamin Claude Brower uses these different perspectives to reveal the unexpected causes of colonial violence such as France s troubled revolutionary past and its influence on the military s institutional culture the aesthetics of the sublime and its impact on colonial thinking the ecological crises suffered by Saharan pastoralists under

colonial rule and the conflicting paths to authority inherent in Algerian Sufism Directly engaging a controversial history A Desert Named Peace offers an important backdrop to understanding the Algerian war for independence 1954 1962 and Algeria s ongoing internal war begun in 1992 between the government and armed groups that claim to fight for an Islamist revolution     **L'histoire** ,2000
