Histoires Grecques Snapshots From Antiquity Revealing Antiquity:

Histoires Grecques Maurice Sartre, 2009 Sartre spans the grand narrative of Greek culture over a thousand years and a vast expanse of land and sea Ranging from Afghanistan to the Mediterranean world these excursions amount to a panoramic vision of one of the most important civilizations of all time From Shame to Sin Kyle Harper, 2013-06-10 The transformation of the Roman world from polytheistic to Christian is one of the most sweeping ideological changes of premodern history At the center was sex Kyle Harper examines how Christianity changed the ethics of sexual behavior from shame to sin and shows how the roots of modern sexuality are grounded in an ancient religious revolution **New Heroes in Antiquity** Christopher P. Jones, 2010 Heroes and heroines in antiquity inhabited a space somewhere between gods and humans In this detailed yet brilliantly wide ranging analysis Christopher Jones starts from literary heroes such as Achilles and moves to the historical record of those exceptional men and women who were worshiped after death He asks why and how mortals were heroized and what exactly becoming a hero entailed in terms of religious action and belief He proves that the growing popularity of heroizing the dead fallen warriors family members magnanimous citizens represents not a decline from earlier practice but an adaptation to new contexts and modes of thought The most famous example of this process is Hadrian's beloved Antinous who can now be located within an ancient tradition of heroizing extraordinary youths who died prematurely This book wholly new and beautifully written rescues the hero from literary metaphor and vividly restores heroism to the reality of ancient life **Broken Cities** Martin Deveau, 2020-09-01 A comparative study of cities that fell into ruin through human involvement We have been taught to think of ruins as historical artifacts relegated to the past by a catastrophic event Instead Martin Deveau argues that we should see them as processes taking place over a long present In *Broken Cities* Deveau offers a wide ranging comparative study of ruination the process by which monuments architectural sites and urban centers decay into ruin over time Weaving together four case studies of classical Athens late antique Rome medieval Baghdad and sixteenth century Mexico City Deveau shows that ruination is a complex social process largely contingent on changing imperial control rather than the result of immediate or natural events Drawing on literature legal texts epigraphic evidence and the narratives embodied in monuments and painting *Broken Cities* is an expansive and nuanced study that holds great significance for the field of historiography *Spartacus* Aldo Schiavone, 2013-03-05 Separate the man from the myth Both the newcomer and the experienced Roman historian will find a wealth of entertainment and information Publishers Weekly *Spartacus* 109 71 bce has been a source of endless fascination the subject of myth making in his own time and of movie making in ours In this riveting compact account Aldo Schiavone rescues Spartacus from the murky regions of legend and brings him squarely into the arena of serious history Schiavone transports us to Italy of the first century bce where we encounter Spartacus who is enslaved after deserting from the Roman army to avoid fighting against his native Thrace Imprisoned in Capua and trained as a gladiator he leads an uprising that will shake the empire to its

foundations While the grandeur of the Spartacus story has always been apparent its political significance has been less clear Often depicted as the leader of a class rebellion Spartacus emerges here in a very different light the commander of an army whose aim was to incite Italy to revolt against Rome and to strike at the very heart of the imperial system Surprising persuasive and highly original Spartacus challenges the lore and illuminates the reality of a figure whose achievements and whose ultimate defeat are more extraordinary and moving than the fictions we make from them A highly readable interesting inquiry into a man and a movement Booklist You've seen the movie now get the straight dope Maclean's magazine A thought provoking discussion of Spartacus and of first century slavery The Wall Street Journal An intelligent learned and challenging account New York Review of Books Greek Models of Mind and Self A. A. Long, 2015-01-05 A A Long's study of Greek notions of mind and human selfhood is anchored in questions of universal interest What happens to us when we die How is the mind or soul related to the body Are we responsible for our own happiness Can we achieve autonomy Long shows that Greek thinkers modeling of the mind gave us metaphors that we still live by **Ancient West & East**, 2010 **Choice**, 2009 The British National Bibliography Arthur James Wells, 2009 Les Études classiques, 2004 *Religion Index Two*, 1986 **Guide to Microforms in Print**, 1995 **Art press**, 2002
