Bibliotheca Americana Nova Obadiah Rich, 1846 *Los jesuitas en Antioquia, 1727-1767* José del Rey Fajardo, Felipe González Mora, 2008 The book is the first provincial vision of the contributions of the Jesuits to the culture art and architecture to colonial Antioquia Colombia The Jesuits created in 1727 the first public school of Antioquia becoming the local promoters of humanism ecclesiastic sciences and religious art The edition includes a section with the architectural history of the convent and church of Santa Bárbara a series of constructions that conform the former Jesuit complex of the Colegio de Antioquia Provided by vendor **Encounters in the New World** Mirela Altic, 2022-07-08 Analyzing more than 150 historical maps this book traces the Jesuits significant contributions to mapping and mapmaking from their arrival in the New World In 1540 in the wake of the tumult brought on by the Protestant Reformation Saint Ignatius of Loyola founded the Society of Jesus also known as the Jesuits The Society's goal was to revitalize the faith of Catholics and to evangelize to non Catholics through charity education and missionary work By the end of the century Jesuit missionaries were sent all over the world including to South America In addition to performing missionary and humanitarian work Jesuits also served as cartographers and explorers under the auspices of the Spanish Portuguese and French crowns as they ventured into remote areas to find and evangelize to native populations In Encounters in the New World Mirela Altic analyzes more than 150 of their maps most of which have never previously been published She traces the Jesuit contribution to mapping and mapmaking from their arrival in the New World into the post suppression period placing it in the context of their worldwide

undertakings in the fields of science and art. Altieri's analysis also shows the incorporation of indigenous knowledge into the Jesuit maps effectively making them an expression of cross cultural communication even as they were tools of colonial expansion. This ambiguity she reveals reflects the complex relationship between missions, knowledge and empire. Far more than just a physical survey of unknown space, Jesuit mapping of the New World was in fact the most important link to enable an exchange of ideas and cultural concepts between the Old World and the New.
