Historical Sketches by Eminent Authors George Barnes Hall, 2018-02-03 Excerpt from Historical Sketches by Eminent Authors The Outgrowth of Our Country From Official Resources In presenting to our readers the trials tribulations massacres and great sacrifices endured in the attempts and in the final colonization Of America which was the outgrowth Of our country our motive was to fill an acknowledged want not yet fully supplied Two things have been aimed at first to avoid burdening the reader with dry and uninteresting details with long winded accounts and on the other hand to not sacrifice completeness for brevity's sake But within the compass of our condensed volume we Offer a work which is neither too brief to be of service to the student Of our early history and the outgrowth Of our country nor is it too detailed to repel the average reader But we feel sure that it is a combination Of history biography and general information nowhere else to be found In the work will be found prominent and interesting features Of great value And in order to enable the young Of our land and all those of our readers not familiar with the construction Of our government a description is given showing how the government is constituted and administered in each Of its various departments It is as fascinating as a story or novel verifying the Old adage that truth is Often stranger than fiction It is a complete library Of historical sketches biography chronological and statistical tables Of our country and a portrait gallery Of the presidents philanthropists explorers and generals Of our dictionary of great Americans And in fact to enable all to become more familiar with the causes and effects which led to the discovery Of America by Christopher Columbus and the final colonization Of America and the outgrowth Of the United States in a condensed attractive illustrated and readable form has been the inducement and incentive for the publication Of this work G B H About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Man Writes Dog William Farina, 2014-04-02 Over the millennia many great writers from Pliny and Plutarch to C S Lewis and John Steinbeck have addressed diverse canine themes in their work usually in a broader human context Late in the 20th century it was conclusively established by modern science that all dogs without

exception are descended from wolves Viewed through the dynamic lens of this new model the constantly evolving relationship between humankind and canines both wild and domesticated appears more complex and intertwined than ever before This survey reviews what 20 selected authors from the Western tradition have had to say on the same subject matter leading up to our present times
