Krenesky,2021-10-11 Like many New England mill towns Beacon Falls has a history that goes back to the founding of this country It was called Brigadoon by a former state senator and its past is tied to the invention of vulcanized rubber by Charles Goodyear and the manufacture of woolen shawls for Union troops during the Civil War Its early Native American roots tell the story of Tobe a Narragansett Indian who owned most of the western portion of land that became the town in 1871 High Rock Grove brought ten thousand visitors each summer to enjoy the skating rink band concerts and acclaimed scenic vistas of Long Island Sound Local author and municipal historian Michael Krenesky reveals some of the fascinating stories behind this jewel of the Naugatuck Valley **Connecticut's Black Soldiers, 1775-1783** David O. White,2017-12-01 Black soldiers of the American Revolution Not a credible statement in light of what most Americans have read about the Revolutionary War We have heard of Casimir Pulaski the Pole Marquis de Lafayette the Frenchman and Baron von Steuben the German but not black participants Yet close to 5 000 blacks did ght in the war against the British and others served as laborers spies and guides The absence in our general histories of their activities in this struggle lies with the misconception that the Afro American has contributed little or nothing towards the creation of the United States and its subsequent development for in most studies made of the Revolutionary era there has been little impulse to search for evidences of service by blacks except perhaps to note the existence of slavery Histories of Connecticut have

generally treated the Revolution in a similar manner Few of them have acknowledged the contributions of the black soldier This is partially true because the story of Connecticut s black participant is one about the regular foot soldier in the Revolution and not about the men who led him into battle or the political leaders who guided the nation And it is these men who most often fill the pages of our history books As one phase of the Bicentennial observation The American Revolution Bicentennial Commission of Connecticut has authorized scholars in a wide range of study to write a series of monographs on the broadly defined Revolutionary Era of 1763 to 1787 These monographs appeared yearly beginning in 1973 through 1980 Emphasis is placed upon the birth of the nation rather than on the winning of independence on the field of battle *Slavery in Connecticut* Ralph Foster 1888-1970 Weld,2023-07-18 Drawing on primary sources and historical records Ralph Foster Weld provides a detailed account of the history of slavery in Connecticut from the early colonial period to its abolition in the 19th century This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The African-American Experience in**
