controversial book Robert Drews examines the question of the origins of man s relations with the horse He questions the  
belief that on the Eurasian steppes men were riding in battle as early as 4000 BC and suggests that it was not until around  
900 BC that men anywhere whether in the Near East and the Aegean or on the steppes of Asia were proficient enough to  
handle a bow sword or spear while on horseback After establishing when where and most importantly why good riding began  
Drews goes on to show how riding raiders terrorized the civilized world in the seventh century BC and how central cavalry  
was to the success of the Median and Persian empires Drawing on archaeological iconographic and textual evidence this is  
the first book devoted to the question of when horseback riders became important in combat Comprehensively illustrated this  
book will be essential reading for anyone interested in the origins of civilization in Eurasia and the development of man s  
military relationship with the horse      **From Byzantine to Norman Italy** Clare Vernon,2023-01-26 This is the first major

international connections with the eastern Mediterranean were a continuous thread that shaped art and architecture  
throughout the Byzantine and Norman eras Clare Vernon has examined a wide variety of media including architecture  
sculpture metalwork manuscripts epigraphy and luxury portable objects as well as patronage to illustrate how cross cultural
