Hillard**

## History Of The Breast:

**A History of the Breast** Marilyn Yalom, 1997 This engrossing work of original research is the first to consider how the breast has been perceived in the Western world from ancient days to the present how it has been understood in religion in the arts in medicine in psychoanalysis by Freud as erotically secondary to the phallus then by Melanie Klein as the original object of desire

**A History of the Breast** Marilyn Yalom, 1999-06-07 This engrossing work of original research is the first to consider how the breast has been perceived in the Western world from ancient days to the present Yalom investigates how the breast has been understood in religion in medicine and in psychoanalysis 352 pp 15 000 print **Journal of the National Cancer Institute** ,2008 *Breast Imaging, An Issue of Magnetic Resonance Imaging Clinics* Bonnie N. Joe, 2013-08-28 Guest edited by Bonnie Joe this issue of MRI Clinics covers breast screening protocols imaging the newly diagnosed cancer patient imaging to monitor response to therapy breast MR spectroscopy and more *Handbook of Research on Oncological and Endoscopical Dilemmas in Modern Gynecological Clinical Practice* Dinas, Konstantinos, Petousis, Stamatios, Kalder, Matthias, Mavromatidis, George, 2020-08-07 For the past decade or so research regarding women s health has become a major source of concern among health professionals Due to the vast amounts of research it has been difficult to amass a comprehensive source describing the challenges of physicians in this area of medical treatment and care The Handbook of Research on Oncological and Endoscopical Dilemmas in Modern Gynecological Clinical Practice is a pivotal reference source that provides vital research on the application of clinical practices in regards to the health of women and prevention of severe life threatening diseases While highlighting topics such as mental health women s health and preventative care this publication provides an insight into critical dilemmas and issues in modern gynecologic oncology and endoscopy as well as the methods of daily clinical practice This book is ideally designed for obstetricians gynecologists specialized physicians medical professionals academicians researchers and medical students **Breast Imaging Essentials** Niketa Chotai, Supriya Kulkarni, 2020-04-29 This book covers all the essential aspects of breast imaging necessary for the preparation of MMed MD FRCR and FRANZCR exams The main focus is on mammogram and breast ultrasound along with basics of breast MRI and breast interventions With the increasing popularity of these qualifying exams among radiology residents in Asia Great Britain as well as Australia and dearth of relevant resources on the topic this book will serve as a valuable resource for the candidates The book is also aligned with preparations required for the FRCPC Canada and the American Board of Radiology The book is divided into two sections first section includes chapters on basics of breast imaging along with a chapter on emerging technologies while the second section includes 50 exam relevant cases covering imaging findings utilizing appropriate BI RADS lexicon possible differentials next recommended investigation and appropriate management in accordance with American College of Radiology lexicon BI RADS system and MRI correlation whenever available Readers also get familiar with the indications for breast MRI The book is written by experts in breast

imaging with relevant teaching experience Written by an experts with strong teaching experience this book is not only suitable for exams but is also useful for practicing breast and non breast radiologists as well as breast care clinicians keen to learn fundamentals of breast imaging     The Allegorical Manifold Mihajlo Bugarinovic,2006-09 With the basic premise as the presentation of the idea of an aesthetic ideal as a metaphor for the metaphysical absurdism the fact that if we were to say that there are no true or untrue objects the object of the discussion to be found within the idea of the absurd crumbles author Mihajlo Bugarinovic has though it may not seem so written a book that belongs to the metaphysics branch of philosophy in a fashion that may very well be compared to the Copernican revolution that Immanuel Kant identified himself with with Critique of Pure Reason Its style is like a cross between Nietzsche Wittgenstein Heidegger and Hegel This is Mihajlo Bugarinovic s third book He lives in Vancouver     **Breasts** Florence Williams,2012-04-30 A 2012 New York Times Notable Book A 2013 Los Angeles Times Book Award Winner in the Science Technology category An engaging narrative about an incredible life giving organ and its imperiled modern fate Did you know that breast milk contains substances similar to cannabis Or that it s sold on the Internet for 262 times the price of oil Feted and fetishized the breast is an evolutionary masterpiece But in the modern world the breast is changing Breasts are getting bigger arriving earlier and attracting newfangled chemicals Increasingly the odds are stacked against us in the struggle with breast cancer even among men What makes breasts so mercurial and so vulnerable In this informative and highly entertaining account intrepid science reporter Florence Williams sets out to uncover the latest scientific findings from the fields of anthropology biology and medicine Her investigation follows the life cycle of the breast from puberty to pregnancy to menopause taking her from a plastic surgeon s office where she learns about the importance of cup size in Texas to the laboratory where she discovers the presence of environmental toxins in her own breast milk The result is a fascinating exploration of where breasts came from where they have ended up and what we can do to save them     **Breast Imaging** Christoph I. Lee,Constance D. Lehman,Lawrence W. Bassett,2018-01-26 Breast Imaging presents a comprehensive review of the subject matter commonly encountered by practicing radiologists and radiology residents in training This volume in the Rotations in Radiology series includes succinct overviews of breast cancer epidemiology screening staging and treatment overviews of all imaging modalities including mammography tomosynthesis ultrasound and MRI step by step approaches for image guided breast interventions and high yield chapters organized by specific imaging finding seen on mammography tomosynthesis ultrasound and MRI     The Physician Assistant Student's Guide to the Clinical Year Seven-Volume Set Maureen Knechtel,Maureen A.
