History Post Communist Routledge Contemporary Eastern:

Plural and Multiple Geographies of Modern and Contemporary Art in East-Central Europe Caterina Preda, Magdalena Radomska, 2024-11-29 This edited volume proposes a theoretical reflection on the different artistic geographies of East Central Europe ECE from an interdisciplinary perspective found at the intersection of art history art and politics and critical geography Contributors argue that this multiplicity is a defining feature of the region At the same time chapters employ the concept of plural geographies and call for an equal geography based on solidarity and an equal distribution of capital which could allow plural geographies to exist and be described The multiple geographies of ECE consider the perspective of local conditions and emphasize how this region was part of successive empires with an important ethnic diversity and changing borders giving it historical layers and multicultural characteristics The book will be of interest to scholars working in art history political studies cultural studies and geography

The Spirit of Socialism Joseph Kellner, 2025-06-15 The Spirit of Socialism is a cultural history of the Soviet collapse It examines the millions of Soviet people who during the cascading crises of the collapse and the post Soviet transition embarked on a spirited and highly visible search for new meaning Amid profound disorientation these seekers found direction in their horoscopes or behind gurus in saffron robes or apocalyptic preachers or by turning from the most basic premises of official science and history to orient themselves anew The beliefs they seized on and even more the questions that guided their search reveal the essence of late Soviet culture and its legacy in post Soviet Russia To skeptical outsiders the seekers appeared eccentric deviant and above all un Soviet Yet they came to their ideas by Soviet sources and Soviet premises As Joseph Kellner demonstrates their motley beliefs reflect modern values that formed the spiritual core of Soviet ideology among them a high regard for science an informed and generous internationalism and a confidence in humanity to chart its own course Soviet ideology failed however to unite these values in an overarching vision that could withstand historical change And so as *The Spirit of Socialism* shows the seekers asked questions raised but not resolved by the Russian Revolution and subsequent Soviet order questions of epistemic authority of cultural identity and of history's ultimate meaning Although the Soviet collapse was not the end of history it was a rupture of epochal significance whose fissures extend into our own uncertain era
