

It's Not Easy Being Green

It's not that easy being green;
Having to spend each day the color of the leaves.
When I think it could be nicer being red, or yellow or gold...
or something much more colorful like that.

It's not easy being green.
It seems you blend in with so many other ord'nary things.
And people tend to pass you over 'cause you're
not standing out like flashy sparkles in the water
or stars in the sky.

But green's the color of Spring.
And green can be cool and friendly-like.
And green can be big like an ocean, or important like a mountain,
or tall like a tree.

When green is all there is to be
It could make you wonder why, but why wonder why?
Wonder, I am green and it'll do fine, it's beautiful
And I think it's what I want to be.

The Carefree Garden Bill Terry, 2015. What happens when a lifelong gardener finally realizes he must collaborate with Mother Nature rather than work against her to achieve his dream of creating the perfect garden? In this delightful and thoughtful narrative journey of horticultural discovery, Bill Terry asks how and even why we garden and to what end. These are personal stories, thoughts and ideas about the perfect garden interspersed with humorous imagined conversations with Mother Nature herself. As he works in his West Coast garden, choosing wild roses over fancy hybrid teas and discarding man-made cultivars in favour of the charm and simplicity of peonies, hellebores and tulips, Terry learns to welcome and encourage happy accidents, greatly reducing the work and effort required to maintain order as most gardeners seek to do, and embrace a substantial measure of disorder. The perfect garden he discovers respects both Mother Nature's demands by integrating endemic plants and choosing natural species and varieties and the gardener's personality, expressing their own taste and creativity and embodying private memories. This is a witty collection of reflections that will appeal to gardeners everywhere.

Soupergreen! Doug Jackson, 2021-06-21. SOUPERgreen features projects and essays that offer a long overdue critique of the current approach to green architecture and in turn demonstrate a more appropriate way for architects to address the challenges posed by the environmental crisis. In sharp contrast to contemporary examples of green or sustainable architecture which primarily rely upon the invisible agency of unremarkable technologies and materials to reduce resource consumption but which do so without producing a necessary shift in the public's perception of the environment or behavior towards it, SOUPERgreen demonstrates how green technology can not only perform from a measurable standpoint but can also produce engaging experiences that profoundly alter, enhance and transform the public's understanding of the environment. By leveraging the inherently expressive nature of technology in order to dramatize the constantly negotiated relationship between humanity and the natural world, the souped-up green architecture featured in SOUPERgreen transforms greenness from a mere measurement of environmental performance into an actively engaged and highly conscious lived reality, resulting in a new way of experiencing and understanding the environment that is inherently more ecological. Includes a foreword by Sanford Kwinter.

Mrs Paddy takes swipes at our politicians and culture, often with a humorous tone. Personalities from Obama to McCain are lampooned, as well as political hot buttons like Global Warming, Immigration and Tax and Spend policies. It is both a retrospective of the last election cycle and a running commentary on current events, all set to familiar tunes.

Gaudin, 2025-03-18 Shaped by centuries of migration enslavement freedom colonization and cultural mixture Louisiana Creole identity is often simplified or misunderstood to fit into today's ideas about race and nationality In *Sunset Limited: An Autobiography of Creole* Wendy A. Gaudin fearlessly takes on the many meanings of Creole in a lyrical exploration of how this multilayered transnational bilingual and racially expansive history of New Orleans and Louisiana has manifested itself in her own diasporic Creole family When Gaudin's Creole grandparents boarded the Sunset Limited train in Jim Crow era New Orleans they imagined new lives for themselves in the city of Los Angeles The Sunset Limited produced a twentieth century Creole community on the West Coast whose members ate the traditional foods of south Louisiana gathered in one another's homes and churches spoke in the distinctive dialects of the Gulf Coast and taught their children to respect their unique blended ancestry and their centuries long history As an adult yearning to know more about her Creole background Gaudin returned to Louisiana There she began to trace her Creole ancestors back to the time before the Civil War confronting hard truths about the past her grandparents left behind Revisiting the lands of her ancestors diving into the archival record interviewing those who remained in New Orleans and remembering the stories told to her by her elders Gaudin sought answers to questions asked by many whose lives are shaped by migration Why did her people leave their ancestral home What did they lose in the leaving and what did they gain *Sunset Limited* explores the boundaries of what it means to be Creole how migration shaped Gaudin's family and her community and how this history is remembered and told Incorporating historical narrative oral history biomythography historiography cultural geography autoethnography and poetry *Sunset Limited* is as multidimensional and dynamic as Louisiana Creoles themselves Weaving together the stories of her mixed race elders the artifacts of her ancestors and memories of her California childhood Gaudin argues that history is not a cold linear record of the past Rather it is a deeply felt understanding of how we are shaped by the movements of our ancestors and of our rich and ever changing relationships with those who came before us **Strategic Reinvention in Popular Culture** Richard Pfefferman, 2013-12-11 Not all original works invoke the encore impulse in their audiences Those that do generally spawn replications sequels spin offs or re makes This book presents a theory of why some
