Cornish, 1998-07-23 When it comes to golf course design Robert Muir Graves and Geoffrey S Cornish are true masters Over the past few decades they have produced every type of course imaginable long and short entry level and upscale courses built on ocean bluffs and swamps courses located in the United States and around the world Now drawing on this vast experience and their popular golf course design seminars held at the Harvard Graduate School of Design and nationwide for the Golf Course Superintendents Association of America Graves and Cornish share a wealth of expertise on all aspects of design and construction in this outstanding book Golf Course Design covers all of the major historic aesthetic business and technical issues of the subject from course layout hole design drainage irrigation and turf grass selection to planning financing construction and environmental considerations **Estelle Plantation Partnership Municipal Golf Course and Housing Development, Jefferson Parish** , 1996 *The New Middle Classes* Hellmuth Lange, Lars Meier, 2009-06-10 With respect to the developing and threshold economies it is no longer the poor who are the only focus of media attention Today the new middle classes are about to take centre stage too With their lifestyles and attitudes the new middle classes are considered to be both the products as well as the promoters of globalization They are a highly heterogeneous group in socio economic terms as well as in habits and preferences including their societal role as consumers and citizens The first wave of scholarly and political attention can be traced back to the mid nineties The focal

point was surprise and unease about indubitable symptoms of consumerism which until then had been seen as a characteristic of the richest western societies However since the nineties consumerism has run rampant in developing countries too This has particularly been noted with respect to the emerging middle classes in South East Asia The will to consume seemed inexhaustible and appetites insatiable This rage to consume was both celebrated and feared by political leaders and other social moral gatekeepers who began to condemn the process as Westernization and even westoxication Chua 2000 xii Ever since the debate about the lifestyles of the new middle classes and their role in society has gained momentum

Information and Exclusion Lior Jacob Strahilevitz, 2011-07-19 DIV Nearly all communities are exclusive in some way When race or wealth is the basis of exclusion the homogeneity of a neighborhood workplace or congregation is controversial In other instances as with an artist's colony or a French language book club exclusivity is tolerable or even laudable In this engaging book Lior Strahilevitz introduces a new theory for understanding how exclusivity is created and maintained in residential workplace and social settings one that emphasizes information's role in facilitating exclusion The book provides many colorful examples to show how lawmakers frequently misunderstand the subtle mechanics of exclusion leaving enormous loopholes in the law Strahilevitz focuses particular attention on today's changing dynamics of exclusion and discusses how technology presents new opportunities for governments to stamp out the most offensive exclusionary behaviors div
