Medical Perspectives on Human Trafficking in Adolescents Kanani E. Titchen, Elizabeth Miller, 2020-07-01 Human trafficking is an increasingly large issue in medicine particularly for the adolescent population The pubertal and neurologic development of early and mid adolescence may serves as a foothold for trauma bonds and human trafficking To date there are few case studies of human trafficking in the medical literature More often these cases are missed and human trafficking patients are unlikely to disclose their victimization to their physicians for multiple reasons As a result physicians fail to ask key questions and fail to notice important red flags for human trafficking Research shows that this is primarily due to a lack of medical training and awareness and a resultant denial on the part of many physicians that victims of human trafficking present to their clinics or specialties div This book provides clinicians with a case based guide to scenarios they may encounter in their practice that involve human trafficking These cases include those involving sex trafficking and labor trafficking male and female and transgender victims victims from a range of racial ethnic geographic and socioeconomic backgrounds as well as presentations of adolescent and young adult victims to fields such as adolescent medicine general pediatrics neonatology rheumatology transplant medicine and obstetrics gynecology in addition to the stereotypical presentations to emergency departments Each case is followed by a discussion that highlights key aspects of human trafficking in adolescent and young adult patients These discussions also reference the growing body of research on human trafficking orient the reader to medico legal aspects of reporting human trafficking in the adolescent and young adult populations and feature useful questions exercises and resources to promote discussion among those medical professionals who interact with adolescent medicine and young adult patients Written by physicians legal advocates and lawyers *Medical Perspectives on Human Trafficking in Adolescents* is the definitive guide for all clinicians who care for adolescent patients It is also a useful resource for mental health professionals and social workers [School Library Journal](#) ,2004 [Lambda Book Report](#) ,1999 **The African Book Publishing Record** ,1987 **The Oxford Handbook of Music Therapy** Jane Edwards, 2017 Music therapy is growing internationally to be one of the leading evidence based psychosocial allied health professions to meet needs across the lifespan The Oxford Handbook of Music Therapy is the most comprehensive text on this topic in its history It presents exhaustive coverage of the topic from international leaders in the field [Nutrition Abstracts](#)
