The Law and the Lawless Art Downs, 2014-07-02 They looked impressive in their red tunics but the members of the fledgling North West Mounted Police had little experience as they departed from Fort Garry in 1874 on a mission to bring order to the lawless territories west of the Red River There they found a vast and rugged land ruled by whiskey traders outlaws and First Nations determined to defend their way of life from encroaching settlers From remote barracks in Alberta Saskatchewan and Manitoba the new recruits quickly rose to the job of dispatching justice to criminals such as the Plains Cree trapper Swift Runner hanged for murder and cannibalism and the notorious Regina crime duo of Gaddy and Raclette They put their lives on the line and sometimes paid the ultimate price for it as revealed in the story of Constable Graburn shot in the back at Cypress Hills by an unknown killer and of Manitoba's beloved first police chief Richard Power who drowned while pursuing the fugitive Mike Carroll In other stories the frontier town of Calgary is the site of the first hanging of a white man in western Canada while further east a quick witted Métis from St Boniface earns the title of

Manitoba's first indigenous outlaw These are amazing stories indeed of a formative time in Canada's history and the steadfast constabulary who helped bring order to a lawless land **Displays of Power** Steven C. Dubin, 1999-04 An examination of some of the USA's most controversial museum exhibitions of the 1990s In its analysis of these episodes of America struggling to redefine itself in the late 20th century the book draws upon interviews with museum administrators community activists curators and scholars **Cow Talk** Michelle K. Berry, 2023-03-16 The image of western ranchers making a stand for their rights against developers the government illegal immigrants may be commonplace today but the political power of the cowboy was a long time in the making In a book steeped in the culture traditions and history of western range ranching Michelle K Berry takes readers into the Cold War world of cattle ranchers in the American West to show how that power with its implications for the lands and resources of the mountain states was built shaped and shored up between 1945 and 1965 After long days working the ranch battling human and nonhuman threats and wrestling with nature ranchers got down to business of another sort which Berry calls cow talk Discussing the best new machinery sharing stories of drought blizzards and bugs talking money and management and strategy these ranchers were building a community specific to their time place and work and creating a language that embodied their culture Cow Talk explores how this language and its iconography evolved and how it came to provide both a context and a vehicle for political power Using ranchers personal papers publications and cattle growers association records the book provides an inside view of how range cattle ranchers in Arizona New Mexico Colorado Wyoming and Montana created a culture and a shared identity that would frame and inform their relationship with their environment and with society at large in an increasingly challenging modernizing world A multifaceted analysis of postwar ranch life labor and culture this innovative work offers unprecedented insight into the cohesive political and cultural power of western ranchers in our day Daily Life on the Nineteenth Century American Frontier Mary Ellen Jones, 1998-11-24 The nineteenth century American frontier comes alive for students and interested readers in this unique exploration of westward expansion This study examines the daily lives of ordinary men and women who flooded into the Trans Mississippi West in search of land fortune a fresh start and a new identity Their daily life was rarely easy If they were to survive they had to adapt to the land and modify every aspect of their lives from housing to transportation from education to defense from food gathering and preparation to the establishment of rudimentary laws and social structures They also had to adapt to the Native Americans already on the land whether through acculturation warfare or coexistence Jones provides insight into the experiences that affected the daily lives of the diverse people who inhabited the American frontier the Native Americans trappers explorers ranchers homesteaders soldiers and townspeople This fascinating book gives a sense of the extraordinary ordinariness of surviving prospering failing and dying in a new land and explores how these westering Americans inevitably displaced those already bound to the land by tradition culture and religion A wealth of illustrations complement the text of this easy to use reference *Montana Best Books on*, 1949 compiled and written by the
