The Medici Women Natalie R. Tomas, 2017-07-05 The Medici Women is a study of the women of the famous Medici family of republican Florence in the fifteenth and early sixteenth centuries Natalie Tomas here examines critically the changing contribution of the women in the Medici family to the eventual success of the Medici regime and their exercise of power within it and contributes to our historical understanding of how women were able to wield power in late medieval and early modern Italy and Europe Tomas takes a feminist approach that examines the experience of the Medici women within a critical framework of gender analysis rather than biography Keeping the historiography to a minimum and explaining all unfamiliar Italian terms Tomas makes her narrative clear and accessible to non specialists thus The Medici Women appeals to scholars of women's studies across disciplines and geographical boundaries

Stones Call Out Pamela Porter, 2006 A powerful first collection of poems which bear witness to difficult lives in Latin America in the mining towns of the USA in prairie families ruined by hardship and losses and incest Pamela Porter's poetry has both gravitas and grace it speaks about important matters beyond the personal and domestic concerns of the writer herself yet many of the poems fall within the personal narrative tradition These poems are earthy and metaphysical personal and universal geographically and historically diverse The details are beautifully often hauntingly realized Porter keeps her own sense of outrage in check creating startling and invasive images and refusing to trespass by bludgeoning or imposing a response on the reader There's an undercurrent of hope of confidence in individuals capacity to survive and make meaningful lives in the wake of tragedy We come to the end of the book disturbed deeply stirred but not devastated

Merchants' Daughters Helen F. The Scrolls of Deborah Esther Goldenberg, 2024-02-20 A Simon Schuster eBook Simon Schuster has a great book for every reader *Women and the Islamic Republic* Shirin Saeidi, 2022-01-27 Based on extensive interviews and oral histories as well as archival sources *Women and the Islamic Republic* challenges the dominant masculine theorizations of state making in post revolutionary Iran Shirin Saeidi demonstrates that despite the Islamic Republic s non democratic structures multiple forms of citizenship have developed in post revolutionary Iran This finding destabilizes the binary formulation of democratization and authoritarianism which has not only dominated investigations of Iran but also regime categorizations in political science more broadly As non elite Iranian women negotiate or engage with the state s gendered citizenry regime the Islamic Republic is forced to remake oftentimes haphazardly its citizenry agenda The book demonstrates how women remake their rights responsibilities and statuses during everyday life to condition the state making process in Iran showing women s everyday resistance to the state making process
