Freedom Ship Marcus Rediker,2025-05-13

A definitive sweeping account of the Underground Railroad's long overlooked maritime origins from a pre-eminent scholar of Atlantic history and the award-winning author of *The Slave Ship*. As many as 100,000 enslaved people fled successfully from the horrors of bondage in the antebellum South, finding safe harbor along a network of passageways across North America now known as the Underground Railroad. Yet imagery of fugitives ushered clandestinely from safe house to safe house fails to capture the full breadth of these harrowing journeys; many escapes took place not by land but by sea. Deeply researched and grippingly told, *Freedom Ship* offers a groundbreaking new look into the secret world of stowaways and the vessels that carried them to freedom across the North and into Canada. Sprawling through the intricate riverways of the Carolinas to the banks of the Chesapeake Bay to Boston's harbors, these tales illuminate the little-known stories of freedom seekers who turned their sights to the sea among them the legendary abolitionist Frederick Douglass and Harriet Tubman, one of the Underground Railroad's most famous architects. Marcus Rediker, one of the leading scholars of maritime history, puts his command of archival research on full display in this luminous portrait of the Atlantic waterfront as a place of conspiracy, mutiny, and liberation. *Freedom Ship* is essential reading for anyone looking to understand the complete story of one of North America's most significant historical moments.

**The Road Taken** Sung Hee Ru, 2025-09-01

Traces China's transformations with a focus on China's incorporation process in the nineteenth century which help to grasp the historical origins of China's capitalism. As Europe's colonial powers reached China in the nineteenth century, they became so strong that China could no longer ignore them. Given that the unprecedented geographical expansion of the European system undermined a China-centered world order and brought unprecedented changes to Chinese society, an intriguing question: why and how the Chinese empire entered into the capitalist world economy has attracted increasing attention among historians, historical sociologists, and world systems researchers. Yet there has been no comprehensive monograph touching on China's incorporation process into the capitalist world economy. To rectify this, *The Road Taken* investigates China's incorporation process. Incorporation studies based on world systems analysis aims to illustrate the long-term integration process of external arenas into the capitalist world economy. Ru traces China's transformations with a focus on how incorporation process unfolded over the course of a century: 1780s-1890s, which represents a watershed era in the relations between China and the capitalist world.
