**HIPAA Policies and Procedures Desk Reference** Michael W. Hubbard, Karen E. Glover, Carolyn P. Hartley, 2003-01-01  
This comprehensive reference book is designed to help physicians create HIPAA policies and procedures they can implement with confidence into their medical practice. It is broken down into privacy and security modules that closely follow the privacy rule. These modules are designed to be quickly read, easily understood, and provide valuable step-by-step procedures and language that will help physicians respond to patient requests and employee activity. The first section offers an overview of the privacy rule along with guidelines physicians should follow depending on his/her job within the practice. It also includes a quick reference guide that points to the specific policy to follow for a specific HIPAA question. The next chapter presents a light version of HIPAA policies and procedures which will help physicians get well on their way to showing a good faith effort to bring their offices into compliance. The following chapter offers more in-depth support and answers to more complex questions. Finally, the appendices give a detailed summary of the privacy rule, a crosswalk of policies and procedures to rule provisions, and selected HIPAA definitions that have been reprinted from the final privacy rule that will become part of the daily medical practice routine.
