

Introduction Health Insurance PPS (HIPPS) Codes

Each Medicare PPS assessment is used to support Medicare Part A payment for a maximum number of days. The HIPPS code must be entered on each claim, and must accurately reflect which assessment is being used to bill the RUG-III group for Medicare reimbursement.

The CMS HIPPS codes contain a three position code to represent the RUG-III of the SNF resident, plus a 2-position assessment indicator to indicate which assessment was HIPPS modifier codes have been established for each type of assessment used to support Medicare payment. For example, the Medicare reason for assessment on a Medicare 5-Day assessment is "1", and the HIPPS code is "Q1".

Situations Requiring Dual Assessments

Under the SNF PPS, there are situations when two assessments may be needed to fulfill Medicare requirements. Rather than requiring such duplication of effort, providers have the ability to combine assessments.

For example, if an OMRA is required during the assessment window for a Medicare 30-Day assessment (i.e., days 21-34), the SNF is required to perform only one assessment. There is no way to code two Medicare Reasons for Assessment. The combined OMRA/30-Day Medicare assessment is coded on the MDS as an OMRA and identified on the Part A billing by using a HIPPS modifier code of "28". The combined assessment can then be used when billing the Medicare claim.

Similarly, if an assessment is a combined 30-Day and an SCSEA, the SCSEA is coded as the Primary Reason for assessment. The 30-Day is shown as the Medicare Reason for Assessment, and the HIPPS modifier code used for billing is "32".
