The Smells and Senses of Antiquity in the Modern Imagination Adeline Grand-Clément, Charlotte Ribeyrol, 2021-12-16 This volume tackles the role of smell under explored in relation to the other senses in the modern rejection reappraisal and idealisation of antiquity Among the senses olfaction in particular has often been overlooked in classical reception studies due to its evanescent nature which makes this sense difficult to apprehend in its past instantiations And yet the smells associated with a given figure or social group convey a rich imagery which in turn connotes specific values perfumes scents and foul odours both reflect and mould the ways in which a society thinks or acts Smells also help to distinguish between male and female citizens and strangers and play an important role during rituals The Smells and Senses of Antiquity in the Modern Imagination focuses on the representation of ancient smells both enticing and repugnant in the visual and performative arts from the late 18th century up to the 21st century The individual contributions explore painting sculpture literature and film but also theatrical performance museum exhibitions advertising television series historical reenactment and graphic novels which have all played a part in reshaping modern audiences perceptions and experiences of the antique

Jihadis Riva Kastoryano,2018-08-01 New thinking on the practical and ethical quandaries of dealing with Islamist inspired suicide attackers corpses *Politicizing Rape and Pornography* Trine Rogg Korsvik,2020-10-24 This book examines how feminist movements in Norway and France have politicized rape pornography and sexual exploitation of women from the 1970s to the present Through a cross national comparison it provides insights into why the fight against rape became top priority for French feminists in the 1970s what kind of strategies the feminist movements used when politicizing sex and violence who the opponents of the feminist mobilizations were and who the allies were as well as what the feminist movements achieved and what the costs of the battles were This book provides historical context for contemporary and contentious debates about the tension between feminism and sexual freedom about sexual liberation and abuse and about the limits of freedom of expression This text is relevant for students in history sociology health political science comparative politics and interdisciplinary gender studies It is also relevant for researchers and activists who are concerned with the history of feminism feminist politics and sexual politics **Zouave Theaters** Carol E. Harrison,Thomas J. Brown,2024-04-17

In this compelling new study Carol E Harrison and Thomas J Brown chart the rise and fall of the Zouave uniform the nineteenth century s most important military fashion fad for men and women on both sides of the Atlantic Originating in French colonial Algeria the uniform was characterized by an open collarless jacket baggy trousers and a fez As Harrison and Brown demonstrate the Zouaves embraced ethnic racial and gender crossing liberating themselves from the strictures of bourgeois society Some served as soldiers in Papal Rome the United States the British West Indies and Brazil while others acted in theatrical performances that combined drag and drill Zouave Theaters analyzes the interaction of the stage and the military and reveals that the Zouave persona influenced visual artists from painters and photographers to illustrators and filmmakers Representations of Endymion and Selene Anna Chiara Corradino,2025-03-06 A focused study of an ancient myth and its reception which provokes new consideration of how myth in general can challenge social norms Analyzing the visual and literary transformations of the myth of Endymion and Selene Anna Chiara Corradino argues that this myth becomes a valuable tool for understanding the cultural problematization and censorship of female sexuality as well as the

marginalization of alternative forms of male sexuality The myth's key themes of dominant femininity reified masculinity and female necrophilia are shaped through the centuries from the core story of Selene the goddess of the Moon falling in love with a mortal shepherd Endymion and granting him eternal sleep so she can kiss him every night In five core sections focusing on the archaeology of the myth in the ancient world the art of the Renaissance to Baroque periods and modern art and film Corradino traces the way the relationship between the two lovers embodies the taboo topic of the eroticization of the sleeping and or dead male body and the suppressed desire of female domination and dominance This research breaks new ground by displaying how these marginal desires have always challenged normativity and have had a profound impact on and through multiple receptions *Cessez-le-feu, cesser les combats ?* Claire Miot, Thomas Vaisset, Paul Vo-Ha, 2022-09-01 Cet ouvrage explore sur la longue durée la sortie des combats comme un processus transactionnel Impressionable Biologies Maurizio Meloni, 2019-01-10 During the twentieth century genes were considered the controlling force of life processes and the transfer of DNA the definitive explanation for biological heredity Such views shaped the politics of human heredity in the eugenic era controlling heredity meant intervening in the distribution of good and bad genes However since the turn of the twenty first century this centrality of genes has been challenged by a number of postgenomic disciplines The rise of epigenetics in particular signals a shift from notions of biological fixedness to ideas of plasticity and impressionability of biological material This book investigates a long history of the beliefs about the plasticity of human biology starting with ancient medicine and analyses the biopolitical techniques required to govern such permeability It looks at the emergence of the modern body of biomedicine as a necessary displacement or possibly reconfiguration of earlier plastic views Finally it analyses the returning of plasticity to contemporary postgenomic views and argues that postgenomic plasticity is neither a modernistic plasticity of instrumental management of the body nor a postmodernist celebration of potentialities It is instead a plasticity that disrupts clear boundaries between openness and determination individual and community with important implications for notions of risk responsibility and intervention Living in Arcadia Julian Jackson, 2009-12-15 In Paris in 1954 a young man named Andr Baudry founded Arcadie an organization for homophiles that would become the largest of its kind that has ever existed in France lasting nearly thirty years In addition to acting as the only public voice for French gays prior to the explosion of radicalism of 1968 Arcadie with its club and review was a social and intellectual hub attracting support from individuals as diverse as Jean Cocteau and Michel Foucault and offering support and solidarity to thousands of isolated individuals Yet despite its huge importance Arcadie has largely disappeared from the historical record The main cause of this neglect Julian Jackson explains in *Living in Arcadia* is that during the post Stonewall era of queer activism Baudry's organization fell into disfavor dismissed as conservative conformist and closeted Through extensive archival research and numerous interviews with the reclusive Baudry Jackson challenges this reductive view uncovering Arcadie's pioneering efforts to educate the European public about homosexuality in an era of renewed repression In the course of

relating this absorbing history Jackson offers a startlingly original account of the history of homosexuality in modern France

Bodies and Voices, 2008-01-01 A wide ranging collection of essays centred on readings of the body in contemporary literary and socio anthropological discourse from slavery and rape to female genital mutilation from clothing ocular pornography voice deformation and transmutation to the imprisoned dismembered remembered abducted or ghostly body in Africa Australasia and the Pacific Canada the Caribbean Great Britain and Eire Debating New Approaches to History Marek Tamm, Peter Burke, 2018-10-04 With its innovative format *Debating New Approaches to History* addresses issues currently at the top of the discipline s theoretical and methodological agenda In its chapters leading historians of both older and younger generations from across the Western world and beyond discuss and debate the main problems and challenges that historians are facing today Each chapter is followed by a critical commentary from another key scholar in the field and the author s response The volume looks at topics such as the importance and consequences of the digital turn in history what will history writing be like in a digital age the challenge of posthumanist theory for history writing how do we write the history of non humans and the possibilities of moving beyond traditional sources in history and establishing a dialogue with genetics and neurosciences what are the perspectives and limits of the so called neurohistory It also revisits older debates in history which remain crucial such as what the gender approach can offer to historical research or how to write history on a global scale *Debating New Approaches to History* does not just provide a useful overview of the new approaches to history it covers but also offers insights into current historical debates and the process of historical method in the making It demonstrates how the discipline of history has responded to challenges in society such as digitalization globalization and environmental concerns as well as in humanities and social sciences such as the material turn visual turn or affective turn This is a key volume for all students of historiography wanting to keep their finger on the pulse of contemporary thinking in historical research **Consuming Modernity** Cheryl Krasnick Warsh, Dan Malleck, 2013-08-23 Positioning consumer culture in Canada within a wider international context *Consuming Modernity* explores the roots of modern Western mass culture between 1919 and 1945 when the female worker student and homemaker relied on new products to raise their standards of living and separate themselves from oppressive traditional attitudes Mass produced consumer products promised to free up women to pursue other interests shaped by marketing campaigns advertisements films and radio shows Concerns over fashion personal hygiene body image and health reflected these new expectations This volume is a fascinating look at how the forces of consumerism defined and redefined a generation A History of Fatigue Georges Vigarello, 2022-10-14 Stress burn out mental overload the twentieth and twenty first centuries have witnessed an unrelenting expansion of the meaning of fatigue The tentacles of exhaustion insinuated themselves into every aspect of our lives from the workplace to the home from our relationships with friends and family to the most intimate aspects of our lives All around us are the signs of a burn out society a society in which fatigue has become the norm How did this happen This pioneering book

explores the rich and little known history of fatigue from the Middle Ages to the present Vigarello shows that our understanding of fatigue the words used to describe it and the symptoms and explanations of it have varied greatly over time reflecting changing social mores and broader aspects of social and political life He argues that the increased autonomy of people in Western societies whether genuine or assumed the positing of a more individualized self and the ever expanding ideal of independence and freedom have constantly made it more difficult for us to withstand anything that constrains or limits us This painful contradiction causes weariness as well as dissatisfaction Fatigue spreads and becomes stronger imperceptibly permeating everything seeping into ordinary moments and unexpected places Ranging from the history of war religion and work to the history of the body the senses and intimacy this history of fatigue shows how something that seems permanently centered in our bodies has over the course of centuries also been ingrained in our minds in the end affecting the innermost aspects of the self
