The Last Conquistador Stuart Stirling, 1999-10-21 The Inca civilization of Peru was one of the greatest of the ancient civilizations of the Americas. Famous for their massive temples and fortresses built from huge blocks of stone and decorated with sheets of pure gold, the Incas also developed a system of government capable of holding a vast area of territory together and an extensive system of roads connecting administrative centres which acted as a means of colonization. Their religion of human sacrifice worshipping Inti the Sun God was forcibly imposed throughout the empire. The population in 1500 numbered between six and seven million but in the 1530s the Spanish led by conquistador Pizarro arrived in Peru. In their search for gold they devastated the Inca culture, destroying its treasures, killing its leaders and bringing to an end the infrastructure of its empire. By the 1570s native American control in Peru had been completely lost and the civilization was no more. With Pizarro came Mansio Serra de Leguizamon who became the last of the Spanish conquistadors to die. This book tells his story. After crossing the Atlantic when still in his teens he played a central part in the conquest of the Incas, survived imprisonment and torture, took an Inca princess as his lover, abandoned his wife for the gaming tables of Lima and spent the rest of his life in Peru. He died at the age of 78 leaving a famous apology for the conquest in his will. This book takes this document as its starting point weaving a tale of the vicious subjugation of the Inca civilization.

The Inca Princesses Stuart Stirling, 2003-11-13 Stuart Stirling tells the history of the Inca princesses and of their conquistador lovers and descendants. The detailed human stories of the princesses bring to life the world of the Incas and their conquerors and shed new light on the darker corners of colonial history.

Rethinking the Inka Frances M. Hayashida, Andrés Troncoso, Diego Salazar, 2022-02-08 2023 Book Award Society for American Archaeology A dramatic reappraisal of the Inka Empire through the lens of Qullasuyu. The Inka conquered an immense area extending across five modern nations yet most English language publications on the Inka focus on governance in the area of modern Peru. This volume expands the range of scholarship available in English by collecting new and notable research on Qullasuyu, the largest of the four quarters of the empire which extended south from Cuzco into contemporary Bolivia, Argentina and Chile. From the study of Qullasuyu arise fresh theoretical perspectives that both complement and challenge what we think we know about the Inka. While existing scholarship emphasizes the political and economic rationales underlying state action, Rethinking the Inka turns to the conquered themselves and reassesses imperial motivations. The book's chapters incorporating more than two hundred photographs explore relations between powerful local lords and their Inka rulers, the roles of nonhumans in the social and political life of the empire, local landscapes remade under Inka rule and the appropriation and reinterpretation by locals of Inka objects, infrastructure, practices and symbols. Written by some of South America's leading archaeologists, Rethinking the
