Historical Dictionary of Singapore Justin Corfield, 2010-12-02 In spite of Singapore's small size it has long had a major impact on the world because of its geographical location and its wealth. The British initially made the island a major port for the shipping of goods and later as an airline hub for the region. These factors along with a steady government have helped to contribute to the country's affluence. This multicultural, multiracial and multi-religious island nation is the envy of many countries in the world which have tried to emulate the economic success of Singapore. The new edition of the Historical Dictionary of Singapore has been completely rewritten since the first edition was released 20 years ago. It relates the history of this country through a chronology, an introductory essay, an expansive bibliography and over 500 cross-referenced dictionary entries on significant persons, events, places, organizations and other aspects of Singapore history from the earliest times to the present.

Encyclopedia of Singapore Justin J. Corfield, Robin Corfield, 2006 This Encyclopedia of Singapore focuses on the period since the island nation's independence but also provides essential background and history. It includes entries on the leaders of Singapore's struggle for independence and economic progress as well as other cultural figures. Additional entries describe important places, institutions and events. There is also a brief chronology and an introduction both to place events in their historical context and a bibliography for further reading. Jacket

Historical Dictionary of Singapore K. Mulliner, Lian The-Mulliner, 1991-12 Entries in this dictionary highlight and trace Singapore's history from a legendary past and its modern founding in 1819 to its evolution to its emergence as a post-war battleground of communist, socialist, democratic and colonial interests and ideologies. With bibliography, chronology, maps, index and tables of government leaders, cabinet members, general election results and population by ethnicity and Chinese dialect groups.
