fiercely loyal international readership and are championed by literary figures such as A S Byatt and Stephen Fry. *Georgette Heyer: History and Historical Fiction* brings together an eclectic range of chapters from scholars all over the world to explore the contexts of Heyer's career. Divided into four parts: gender, genre, sources and circulation, and reception, the volume draws on scholarship on Heyer and her contemporaries to show how her work sits in a chain of influence and why it remains pertinent to current conversations on books and publishing in the twenty-first century. Heyer's impact on science fiction is accounted for, as are the milieu she was writing in, the many subsequent works that owe Heyer's writing a debt, and new methods for analysing these enduring books. From the gothic to data science, there is something for everyone in this volume, a celebration of Heyer's status amongst historical novelists, proving that she and her contemporary women writers deserve to be read and studied as more than just guilty pleasures.

The American Historical Romance George Dekker, 1990-05-03 This book traces the tradition of American historical fiction from its origins in the early nineteenth century to the eve of World War II. It examines the historical novel's connections with Enlightenment and Romantic theories of history, with the rise of literary regionalism, with the ambitions of Romantic writers to revive the epic and romance, with changing conceptions of gender roles, and with the author's troubled responses to the great revolutionary and imperialistic conflicts of the modern era. However, though inevitably much concerned with the theory of genre and with the specific contents of the genre of historical romance, Professor Dekker devotes most of his book to new readings of major texts by James Fenimore Cooper, Nathaniel Hawthorne, Herman Melville, Mark Twain, Allen Tate, Edith Wharton, Willa Cather, and William Faulkner, as well as to the Briton whose name was synonymous with the genre for most of the nineteenth century, Sir Walter Scott. *The American Historical Romance* is the richest, most fully meditated, and most rewarding yet written by this author. It is the most important book on the relations of British and American fiction to come out for many years. No devotee of the American novel will ignore it. *The Times Literary Supplement*

Gender Bias in Mystery and Romance Novel Publishing Anna Faktorovich, 2015-04-27 Examines gender bias from the perspective of readers, writers, and publishers, with a focus on the top two bestselling genres in modern fiction. It is a linguistic, literary, stylistic, and structurally formalist analysis of the male and female sentences in the genres that have the greatest gender divide: romances and mysteries. The analysis will search for the historical roots that solidified what many think of today as a natural division. Virginia Woolf called it the fabricated feminine sentence, and other linguists have also identified clear sex-preferential differences in Anglo-American, Swedish, and French novels. Do female mystery writers adopt a masculine voice when they write mysteries? Are female-penned mysteries structurally or linguistically different from their male competitors, and vice versa, among male romance writers? The first part can be used as a textbook for gender stylistics, as it provides an in-depth review of prior research. The second part is an analysis of the results of a survey on readers' perception of gender in passages from literature. The last part is a linguistic and structural analysis of actual statistical differences between the novels in the two genres, considering the impact of the
