Historically Black Colleges and Universities F. Erik Brooks,Glenn L. Starks,2011-09-13 This exhaustive analysis of Historically Black Colleges and Universities HBCUs throughout history discusses the institutions and the major events individuals and organizations that have contributed to their existence The oldest HBCU Cheyney University of Pennsylvania was founded in 1837 by Quaker philanthropist Richard Humphreys as the Institute for Colored Youth By 1902 at least 85 such schools had been established and in subsequent years the total grew to 105 Today approximately 16 percent of America s black college students are enrolled in HBCUs Historically Black Colleges and Universities An Encyclopedia brings the stories of these schools together in a comprehensive volume that explores the origin and history of each Historically Black College and University in the United States Major founders and contributors to HBCUs including whites free blacks churches and states are discussed and distinguished alumni are profiled Specific examples of the impact of HBCUs and their alumni on American culture and the social and political history of the United

States are also examined In addition to looking at the HBCUs themselves the book analyzes historical events and legislation of the past 174 years that impacted the founding funding and growth of these history making schools *Historically Black Colleges and Universities in a Globalizing World* Sabella Ogbobode Abidde, Mohamed S. Willie, Richard J. Reddick, Ronald Brown, 2005-12-15 This study compares the culture of black colleges and universities a generation ago with those that exist today and makes projections into the future based on a comprehensive review of professional literature and an analysis of the management skills of contemporary black college leaders The book considers the assets and liabilities of historically Black colleges and discusses the ways in which Black colleges can be of help to non Blacks including white students who can benefit from the unique kind of education offered by such schools The mission of historically black colleges and universities HBCUs a generation ago focused on opening doors closed to students because of their scores on standardized aptitude tests providing remedial and supportive services to students whose academic backgrounds reflect low levels of achievement combining academic as well as vocational course concentrations modifying

instructional methods and techniques to meet students where they are and take them to the higher levels they are capable of attaining This mission of opening new opportunities giving support to overcome deficits of the past and preparing students for professional and academic vocations continues today for these institutions

Historically Black Colleges and Universities Charles L. Betsey, 2011-12-31 Beginning in the 1830s public and private higher education institutions established to serve African Americans operated in Pennsylvania and Ohio the Border States and the states of the old Confederacy Until recently the vast majority of people of African descent who received post secondary education in the United States did so in historically black institutions Spurred on by financial and accreditation issues litigation to assure compliance with court decisions equal higher education opportunity for all citizens and the role of race in admissions decisions interest in the role accomplishments and future of Historically Black Colleges and Universities has been renewed This volume touches upon these issues Historically Black Colleges and Universities HBCUs are a diverse group of 105 institutions They vary in size from several hundred students to over 10 000 Prior to Brown v Board of Education 90 percent of African American postsecondary students were enrolled in HBCUs Currently the 105 HBCUs account for 3 percent of the nation s educational institutions but they graduate about one quarter of African Americans receiving college degrees The competition that HBCUs currently face in attracting and educating African American and other students presents both challenges and opportunities Despite the fact that numerous studies have found that HBCUs are more effective at retaining and graduating African American students than predominately white colleges HBCUs have serious detractors Perhaps because of the increasing pressures on state governments to assure that public HBCUs receive comparable funding and provide programs that will attract a broader student population several public HBCUs no longer serve primarily African American students There is reason to believe and it is the opinion of several contributors to this book that in the changing higher education environment HBCUs will not survive particularly those that are financially weak The contributors to this volume provide cutting edge data as well as solid social analysis of this major concern in black life as well as American higher education as a whole
