Stephens American Historical Review **Historiography in Saudi Arabia** Jörg Matthias Determann, 2013-10-25 Saudi Arabia is generally and justifiably viewed as a country with the fewest democratic institutions and the weakest traditions of pluralism in the world. It is therefore surprising to learn that at least in one corner of the Saudi world there is a plurality of voices. Jörg Matthias Determann brings this element to light by analysing an important field of cultural activity in Saudi Arabia: historical writing. By exploring the emergence of a plurality of historical narratives in the absence of formal political pluralism, Determann seeks to paint a more nuanced picture of Saudi Arabia than has previously been drawn. Since the 1920s, local tribal, Shi'i and dynastic histories have contributed to a growing plurality of narratives diverging from and contesting the histories which focus on the royal family. Instead, they have emphasized the communities' historical independence from the House of Saud or asserting the communities' importance in Saudi national history. In addition to this, during the 1970s, distinct social and economic histories began to be developed, new narratives which have described important historical events evolving from wider social and economic factors rather than resulting from the actions of individual rulers or communities. Paradoxically, this happened because of the expansion of the Saudi state, including state provision of mass education. A variety of previously illiterate and relatively poor sections of Saudi society, including former Bedouin, were thus empowered to produce histories which, while conformist for the most part, also provided a vehicle for dissenting voices. Furthermore, Determann argues that this proliferation of alternative histories is also due to globalizing processes such as the spread of the internet. It is through this phenomenon that narrative plurality has been facilitated by putting Saudi historians in contact with different ideologies, methodologies and source material from abroad. In challenging the widely held perception of Saudi Arabia as an irredeemably closed and monolithic society, *Historiography in Saudi Arabia* provides a deeper understanding of modern Arab historiography, the Saudi state and education and scholarship in the Middle East. [The Craft of Research, Third Edition](#) Wayne C. Booth, Gregory G. Colomb, Joseph M. Williams, 2009-05-15 With more than 400,000 copies now in print, *The Craft of Research* is the unrivaled resource for researchers at every level, from first-year undergraduates to research reporters at corporations and government offices. Seasoned researchers and educators Gregory G. Colomb and Joseph M. Williams present an updated third edition of their classic handbook, whose first and second editions were written in collaboration with the late Wayne C. Booth. *The Craft of Research* explains how to build an argument that motivates readers to accept a claim; how to anticipate the reservations of readers and to respond to them appropriately; and how to create introductions and conclusions that answer the most demanding question: "So what?" The third edition includes an expanded discussion of the essential early stages of a research task: planning and drafting a paper. The authors have revised and fully updated their section on electronic research, emphasizing the need to distinguish between trustworthy sources such as those found in libraries and less reliable sources found with a quick Web search. A chapter on warrants has also been thoroughly reviewed to make this difficult subject easier for researchers. Throughout, the authors have preserved the amiable tone, the

reliable voice and the sense of directness that have made this book indispensable for anyone undertaking a research project

The Routledge Handbook of Events Stephen J. Page, Joanne Connell, 2020-04-22 The Routledge Handbook of Events explores and critically evaluates the debates and controversies associated with the rapidly expanding domain of Event Studies. It brings together leading specialists from a range of disciplinary backgrounds to provide a state of the art review on the evolution of the subject. The first edition was a landmark study which examined how event research had evolved and developed from a range of different social science subject areas and disciplines. The Handbook was the first critique of the extent to which the subject had developed into a major area of social science inquiry. This second edition has been fully updated to reflect crucial developments in the field and includes brand new sections on ever important aspects of Event Studies such as anthropology, hospitality, seasonality, knowledge management, accessibility, diversity and human rights as well as new studies on the eventful city and the benefits of events in older life. The book is divided into four inter related sections. Section 1 introduces and evaluates the concept of events. Section 2 critically reviews the relationship between events and other disciplines such as the contribution of economics, psychology and geography to the critical discourse of Event Studies. Section 3 focuses on the business, operational and strategic management of events while the final section crucially focuses on critical events as a new paradigm within the burgeoning literature on Events. It offers the reader a comprehensive and critical synthesis of this field conveying the latest thinking associated with events research, edited by two of the leading scholars in the field. The text will provide an invaluable resource for all those with an interest in Events Studies, encouraging dialogue that will span across disciplinary boundaries and other areas of study. It is an essential guide for anyone interested in events research.

Modernity, Metatheory, and the Temporal-Spatial Divide Michael Krimm, 2015-03-27 This book is about how modernity affects our perceptions of time and space. Its main argument is that geographical space is used to control temporal progress by channeling it to benefit particular political, economic and social interests or by halting it altogether. By incorporating the ancient Greek myth of the Titanomachy as a conceptual metaphor to explore the elemental ideas of time and space, the author argues that hegemonic interests have developed spatial hierarchy into a comprehensive system of technocratic monoculture which interrupts temporal development in order to maintain exclusive power and authority. This spatial stasis is reinforced through the control of historical narratives and geographical settings. While increasingly comprehensive, the author argues that this state of affairs can best be challenged by focusing on the development of unmappable places which presently exist within the socio-spatial matrix of the modern world.

The Historian's Toolbox Robert C. Williams, 2024-09-19 Now in its fifth edition, *The Historian's Toolbox* is designed to help students become skilled in the intellectual process and craft of history, offering an overview of the field and techniques for reading and writing about history. The fifth edition expands the selection of tools available to students entering the workshop of history. These include new chapters on digital history, Indigenous peoples and gender history, and new sections on the

Voynich manuscript LGBTQ history slavery and a historian who survived the war in Ukraine The book has been fully updated to address the possibilities and limits of computerized approaches to doing history with careful attention paid to the benefits and controversies of artificial intelligence chatbots and the internet It demonstrates the continuing relevance of history in a cacophonous world of misinformation and censorship emphasizing critical thinking facts and evidence as valuable means of understanding the past and shaping the future Engaging and accessible this volume is ideal for undergraduate courses in historiography and historical methods

Landscapes of the Western Front Ross Wilson, 2013-06-17 This book examines the British soldiers on the Western Front and how they responded to the war landscape they encountered behind the lines and at the front Using a multidisciplinary perspective this study investigates the relationship between soldiers and the spaces and materials of the war zone analyzing how soldiers constructed a sense of place in the hostile unpredictable environment Drawing upon recent developments within First World War Studies and the anthropological examination of the fields of conflict an ethnohistorical perspective of the soldiers is built which details the various ways soldiers responded to the physical and material world of the Western Front This study is also grounded in the wider debates on how the First World War is remembered within Britain and offers an alternative perspective on the individuals who fought in the world's first global conflagration nearly a century ago

The Jesus Puzzle Brenda Watson, 2023-02-24 The Jesus Puzzle Challenging intellectual uncertainty about Jesus shares the question of knowledge of the historical Jesus in order to refute sceptics who consider that we can know very little about Him and to encourage Christians to have more confidence in relating to what is said about Jesus in the gospels

Buddhist Historiography in China John Kieschnick, 2022-07-29 Winner 2023 Toshihide Numata Book Award Numata Center for Buddhist Studies at the University of California Berkeley Since the early days of Buddhism in China monastics and laity alike have expressed a profound concern with the past In voluminous historical works they attempted to determine as precisely as possible the dates of events in the Buddha's life seeking to iron out discrepancies in varying accounts and pinpoint when he delivered which sermons Buddhist writers chronicled the history of the Dharma in China as well compiling biographies of eminent monks and nuns and detailing the rise and decline in the religion's fortunes under various rulers They searched for evidence of karma in the historical record and drew on prophecy to explain the past John Kieschnick provides an innovative expansive account of how Chinese Buddhists have sought to understand their history through a Buddhist lens Exploring a series of themes in mainstream Buddhist historiographical works from the fifth to the twentieth century he looks not so much for what they reveal about the

people and events they describe as for what they tell us about their compilers understanding of history Kieschnick examines how Buddhist doctrines influenced the search for the underlying principles driving history the significance of genealogy in Buddhist writing and the transformation of Buddhist historiography in the twentieth century This book casts new light on the intellectual history of Chinese Buddhism and on Buddhists understanding of the past Africa and the First World War De-Valera NYM Botchway, Kwame Osei Kwarteng, 2018-10-26 The First World War was a widespread conflagration in world history which despite its European origins had enormous effects throughout the world Fettered to European politics and diplomacy through colonialism Africa could not claim a position of neutrality meaning that it mobilised human and natural resources to support the imperial war effort Fighting both within and outside Africa colonised Africans who were compelled or coaxed by the colonial regimes of the warring European countries fought Europeans and Africans too The soldiers fought with great dedication and contributed significantly to successes attained by the belligerent European colonialists Similarly African non combatants like carriers brought zeal and enthusiasm to difficult wartime tasks The impact of the war on Africa was immense with far reaching consequences in specific colonies and touched the lives of all Africans under colonial rule Although the continent's connections to the war were immense and diverse these experiences are not widely known among scholars and the general public This is because over the years most studies and commemorative events of the war have centred on the European theatre of the war and its outcomes This book brings together interesting essays written by scholars of African history society and military about African experiences of the war It complements and problematises some key themes on Africa and the First World War and offers a stimulating historiographical excursion providing possibilities for reconsidering normative conclusions on the war The volume will be of interest to general readers as well as students and researchers in different areas of scholarship including African history war studies postcolonial studies cultural studies labour history and the history of memory among others *What is African American History?* Pero Gaglo Dagbovie, 2015-06-04 Scholarship on African American history has changed dramatically since the publication of George Washington Williams pioneering *A History of the Negro Race in America* in 1882 Organized chronologically and thematically *What is African American History* offers a concise and compelling introduction to the field of African American history as well as the black historical enterprise past present and future Pero Gaglo Dagbovie discusses many of the discipline's important turning points subspecialties defining characteristics debates texts and scholars The author explores the growth and maturation of scholarship on African American history from late nineteenth and early twentieth centuries until the field achieved significant recognition from the mainstream U S historical profession in the 1970s Subsequent decades witnessed the emergence and development of key theoretical approaches controversies and dynamic areas of concentration in black history the vibrant field of black women's history the intriguing relationship between African American history and Black Studies and the imaginable future directions of African American history in the twenty first century *What is African American History* will be

a practical introduction for all students of African American history and Black Studies **Black Marxism, Revised and Updated Third Edition** Cedric J. Robinson, 2020-12-16 In this ambitious work first published in 1983 Cedric Robinson demonstrates that efforts to understand Black people's history of resistance solely through the prism of Marxist theory are incomplete and inaccurate Marxist analyses tend to presuppose European models of history and experience that downplay the significance of Black people and Black communities as agents of change and resistance Black radicalism Robinson argues must be linked to the traditions of Africa and the unique experiences of Blacks on Western continents and any analyses of African American history need to acknowledge this To illustrate his argument Robinson traces the emergence of Marxist ideology in Europe the resistance by Blacks in historically oppressive environments and the influence of both of these traditions on such important twentieth century Black radical thinkers as W E B Du Bois C L R James and Richard Wright This revised and updated third edition includes a new preface by Tiffany Willoughby Herard and a new foreword by Robin D G Kelley **The Marxist catastrophe: The decline and fall of Marxism in the social sciences and academia** Sujay Rao Mandavilli, 2025-08-20 Communism has generally been seen to be in long and gradual retreat all over the world since the 1980's Unease against communism and its general principles has been known since at least 1968 when the Prague Spring unraveled itself This was a period of liberalization in Eastern Europe but was brutally suppressed by the former Soviet Union and its communist leaders who feared its ripple and cascading effects in the rest of the communist world The Soviet Union itself crumbled less than a quarter of a century later this collapse was precipitated by Mikhail Gorbachev's reforms namely Glasnost or openness and Perestroika or structural reform Gorbachev needs no introduction to most people he was born in 1931 and died in 2022 Gorbachev's began his political career in the Communist Party of the former Soviet Union where gradually he rose through the ranks to assume leadership positions becoming General Secretary in 1985 Gorbachev gradually moved away from orthodox Stalinism Leninism to embrace more democratic ideals He therefore sought to modernize the USSR by saving its stagnant economy which was even being overtaken by newly emerging Asian powers and counter nationalist sentiments in other Soviet Republics The Soviet Union was subsequently formally dissolved on the 26th of December 1991 by a declaration known as 142 N All the Soviet republics declared their independence effectively putting an end to the USSR which vanished into the annals of history Many communist nations of Eastern Europe were dissolved even prior to this with the Berlin wall falling in November 1989 and Nicolae Ceausescu's regime in Romania being toppled a month later Egalitarian Sublime Williams James Williams, 2019-09-11 We call sublime those things and experiences supposed to be the very best But what if the best actually leads to inequality and exploitation Williams critiques the sublime over its long history and in recent returns to sublime nature and technologies Deploying a new critical method that draws on process philosophy he shows how the sublime has always led to inequality This holds true even where it underpins ideas of cosmopolitan enlightenment and even when refined by Burke Kant Nietzsche Schopenhauer and Žižek Against the unjust

legacies of the traditional sublime James Williams defends a new anarchist sublime multiple self destructive and temporary opposed to any idea of highest value to be shared by all but always imposed on the powerless *The Columbian Covenant: Race and the Writing of American History* James Carson, 2014-12-18 This provocative analysis of American historiography argues that when scholars use modern racial language to articulate past histories of race and society they collapse different historical signs of skin color into a transhistorical and essentialist notion of race that implicates their work in the very racial categories they seek to transcend
