**History at the Limit of World-History** Ranajit Guha, 2003-08-27 The past is not just as has been famously said another country with foreign customs it is a contested and colonized terrain Indigenous histories have been expropriated eclipsed sometimes even wholly eradicated in the service of imperialist aims buttressed by a distinctly Western philosophy of history Ranajit Guha perhaps the most influential figure in postcolonial and subaltern studies at work today offers a critique of such historiography by taking issue with the Hegelian concept of World history That concept he contends reduces the course of human history to the amoral record of states and empires great men and clashing civilizations It renders invisible the quotidian experience of ordinary people and casts off all that came before it into the nether existence known as Prehistory On the Indian subcontinent Guha believes this Western way of looking at the past was so successfully insinuated by British colonization that few today can see clearly its ongoing and pernicious influence He argues that to break out of this habit of mind and go beyond the Eurocentric and statist limit of World history historians should learn from literature to make their narratives doubly inclusive to extend them in scope not only to make room for the pasts of the so called peoples without history but to address the historicity of everyday life as well Only then as Guha demonstrates through an examination of Rabindranath Tagore s critique of historiography can we recapture a more fully human past of experience and wonder

**Palgrave Advances in World Histories** M. Hughes-Warrington, 2004-10-14 World histories vary widely in shape structure and range in space and time In Palgrave Advances in World Histories ten leading world historians examine the many forms of world history writing offering an accessible engaging and comprehensive overview of what it is and what world historians do This work is a valuable introduction to those new to the field but will also stimulate discussion debate and reflection

**Hating Empire Properly** Sunil M. Agnani, 2013-05-09 In Hating Empire Properly Sunil Agnani produces a novel attempt to think the eighteenth century imagination of the West and East Indies together arguing that this is how contemporary thinkers Edmund Burke and Denis Diderot actually viewed them This concern with multiple geographical spaces is revealed to be a largely unacknowledged part of the matrix of Enlightenment thought in which eighteenth century European and American self conceptions evolved By focusing on colonial spaces of the Enlightenment especially India and Haiti he demonstrates how Burke s fearful view of the French Revolution the defining event of modernity as shaped by prior reflection on these other domains Exploring with sympathy the angry outbursts against injustice in the writings of Diderot he nonetheless challenges recent understandings of him as a univocal critic of empire by showing the persistence of a fantasy of consensual colonialism in his thought By looking at the impasses and limits in the thought of both radical and conservative writers Agnani asks what it means to critique empire properly Drawing his method from Theodor Adorno s quip that one must have tradition in oneself in order to hate it properly he proposes a critical inhabiting of dominant forms of reason as a way forward for the critique of both empire and Enlightenment Thus this volume makes important contributions to political

theory history literary studies American studies and postcolonial studies      *Breaching the Colonial Contract* Arlo Kempf, 2009-05-30 Almost a decade in Empire remains the 21st Century's dominant mode of cultural production and North America remains at the apex of the colonial imperative. The contributors to this volume argue that far from being a post colonial world, the struggle for independence of polity and culture is still alive and relevant. The book brings together relevant examples of anti colonial discourse and struggle from across the US and Canada, providing unique perspectives on resistance, activism, scholarship and pedagogy. Anti colonialism is an evolving framework to which this book hopes to make a unique contribution with the range, depth and analytical approach of the chapters it contains. The emphasis on anti colonial resistance here is significant as it consistently reveals the personal commitment required for the undoing of domination as well as the ways in which people can collectively pursue radical politics in their aim of bringing about social justice. The book examines a multitude of actions which could be termed anti colonial, from student walkouts along the US Mexico border to interrogations of the relationship between indigenous and anti racist struggles in North America, to analyses of the implications of anti colonialism for community unionism as well as disability rights struggles. Chapters also look at the movement for Africentric schools in Toronto, provide an annotated and comparative look at the myriad struggles for and by the Fourth World and Fourth World nations, and analyze the creation of an anti colonial classroom in a Montreal university. They also explore the colonial underpinnings of multicultural education in the US. With contributions from leading thinkers such as Henry Giroux, Ward Churchill and Peter McLaren, as well as fresh perspectives from junior academics, this book provides a diverse and varied survey of anti colonialism in the US and Canada. It will be a thought provoking read for those working in a wide variety of disciplines from Sociology to Politics. In daring and incisive ways, Arlo Kempf's collection further positions anti colonialism as the necessary educational project for the colonizer and colonized within us all; it reflectively re sets the radical education agenda with telling historical and current instances that are used by the book's authors to move constructively forward in critical ways. John Willinsky, Stanford University, USA

**The Reception of Edmund Burke in Europe** Martin Fitzpatrick, Peter Jones, 2017-01-12 Over the last fifty years, the life and work of Edmund Burke (1729-1797) has received sustained scholarly attention and debate. The publication of the complete correspondence in ten volumes and the nine volume edition of Burke's Writings and Speeches have provided material for the scholarly reassessment of his life and works. Attention has focused in particular on locating his ideas in the history of eighteenth century theory and practice and the contexts of late eighteenth century conservative thought. This book broadens the focus to examine the many sided interest in Burke's ideas, primarily in Europe and most notably in politics and aesthetics. It draws on the work of leading international scholars to present new perspectives on the significance of Burke's ideas in European politics and culture.

**X—The Problem of the Negro as a Problem for Thought** Nahum Dimitri Chandler, 2013-12-15 X The Problem of the Negro as a Problem for Thought offers an original account of matters African American and, by implication, the African

diaspora in general as an object of discourse and knowledge It likewise challenges the conception of analogous objects of study across dominant ethnological disciplines e g anthropology history and sociology and the various forms of cultural ethnic and postcolonial studies With special reference to the work of W E B Du Bois Chandler shows how a concern with the Negro is central to the social and historical problematization that underwrote twentieth century explorations of what it means to exist as an historical entity referring to their antecedents in eighteenth century thought and forward into their ongoing itinerary in the twenty first century For Du Bois the problem of the color line coincided with the inception of a supposedly modern horizon The very idea of the human and its avatars the idea of race and the idea of culture emerged together with the violent hierarchical inscription of the so called African or Negro into a horizon of commonness beyond all natal premises a horizon that we can still situate with the term global In ongoing struggles with the idea of historical sovereignty we can see the working out of then new concatenations of social and historical forms of difference as both projects of categorical differentiation and the irruption of originary revisions of ways of being In a word the world is no longer and has never been one The world if there is such from the inception of something like the Negro as a problem for thought could never be only one The problem of the Negro in America is thus an exemplary instance of modern historicity in its most fundamental sense It renders legible for critical practice the radical order of an ineluctable and irreversible complication at the heart of being its appearance as both life and history as the very mark of our epoch

*Post-Orientalism* Hamid Dabashi, 2017-07-28 Post Orientalism is a sustained record of Hamid Dabashi s reflections over many years on the question of authority and power Who gets to represent whom and by what authority Dabashi s work picks up where Edward Said s Orientalism left off Said traced the origin of the power of representation and the normative agency that it entails to the colonial hubris that carried a militant band of mercenary merchants military officers Christian missionaries and European Orientalists around the globe This hubris enabled them to write and represent the people they sought to rule Dabashi s book is not as much a critique of colonial representation as it is of the manners and modes of fighting back and resisting it He does not question the significance of Orientalism and its principal concern with the colonial acts of representation but he provides a different angle that argues for the primacy of the question of postcolonial agency Dabashi uses the United States as an example of a country that initiated militant acts of representation in Iraq and Afghanistan He attempts to unearth and examine the United States deeply rooted claim to normative and moral agency particularly in light of the world s post 9 11 political reality

*Geometries of Silence* Anna Ottani Cavina, 2004 Based on little known or hitherto unpublished material and enhanced by a wealth of rarely seen illustrations this book offers access to the aesthetics of neoclassical Europe from a new perspective landscape painting and interior decoration The source documents together with the nexus of relationships they helped to establish reveal a world shaken by a series of epochal changes This study of paintings drawings and documents touches on such themes as the rediscovery of the ancient world aristocratic homes in the neoclassical period and

the birth of the rationalist landscape While the most important artists are French the chosen vantage point is Rome because of the impact of antiquity on aesthetic perceptions toward the end of the century The book insightfully analyzes the last years of the eighteenth century through the visual representation of that world a world that has been handed down to us through the response of contemporary artists to momentous changes This book portrays drawing as an instrument of knowledge an absolute experience not merely an intermediate phase in the production of a painting Anna Ottani Cavina leads us to modernity which through the rarefaction of the image silence and emptiness attained heights of emotional and intellectual intensity that drawing was able to capture with extraordinary immediacy Egypt and the Limits of Hellenism Ian S.

Moyer,2011-07-07 In a series of studies Ian Moyer explores the ancient history and modern historiography of relations between Egypt and Greece from the fifth century BCE to the early Roman empire Beginning with Herodotus he analyzes key encounters between Greeks and Egyptian priests the bearers of Egypt's ancient traditions Four moments unfold as rich micro histories of cross cultural interaction Herodotus interviews with priests at Thebes Manetho's composition of an Egyptian history in Greek the struggles of Egyptian priests on Delos and a Greek physician's quest for magic in Egypt In writing these histories the author moves beyond Orientalizing representations of the Other and colonial metanarratives of the civilizing process to reveal interactions between Greeks and Egyptians as transactional processes in which the traditions discourses and pragmatic interests of both sides shaped the outcome The result is a dialogical history of cultural and intellectual exchanges between the great civilizations of Greece and Egypt

**Faire taire le passé** Michel-Rolph Trouillot,2025-09-24T00:00:00-04:00 Pourquoi dans ce qu'on appelle l'histoire certains faits sont ignorés censurés ou tués tandis que d'autres sont retenus magnifiés et amplifiés Pourquoi un événement secondaire tel que la chute de Fort lamo puis sa reconquête par les Anglo Américains en 1836 est-il devenu un des mythes fondateurs du Texas et de la frontière américaine Comment le viol d'un continent a-t-il pu être occulté par le récit piqué des

grandes d couvertes dont Colomb est devenu le héros Pourquoi la Révolution a-t-elle la seule révolution d esclaves de l histoire moderne qui ait abouti une mancipation générale est elle encore aujourd hui ignorée et passe sous silence impensable Pourquoi la mémoire collective est elle si sélective Au croisement de l histoire des études postcoloniales et de l anthropologie cet ouvrage analyse avec clairvoyance comment le pouvoir produit des silences et fait taire certaines traces du passé Si comme l écrit Michel Rolph Trouillot l histoire est le fruit d un pouvoir dont la marque suprême est l invisibilité alors le défi suprême est d en exposer les racines Et désormais grâce à la première traduction en français de ce classique paru en 1995 le nom de Michel Rolph Trouillot s ajoute ceux de Frantz Fanon Aimé Césaire et C.L.R. Blodgett, 2013-05-28T00:00:00-04:00 Premier titulaire de la Chaire Louis Desrochers en études canadiennes à l Université de l Alberta le professeur E.D. Blodgett présente dans cet essai original le résultat de sa réflexion sur les traits fondamentaux de la littérature canadienne française qu aborde Pour lui le lien écriture histoire est fondamental et constitue l origine d un processus d écriture complexe Ce processus ou dialogue selon Blodgett a constitué les lieux fondateurs de la Nouvelle France et de l imaginaire du Canada français Dans chaque cas étudié on retrouve une figure d enfant représentant un fils ou une fille à la fois idéologique et politique une figure d enfant sacrifié Cette thématique de l enfant sacrifié selon l auteur serait l héritage culturel des jésuites c est à dire de leur relation avec le Fils de Dieu sacrifié pour le salut de l humanité La culture jésuite aurait en effet été fondée sur l idéal de l aventure chevaleresque du Moyen Âge et ancrée dans une profonde croyance que la voie du martyr mène au salut éternel Cette croyance écrit Blodgett aurait imprégné la mentalité de la Nouvelle France et aurait longtemps été une force déterminante dans la littérature du Canada français L histoire de cet engagement a été racontée dans Les Relations textes destinés au recrutement de la jeunesse française Toujours la recherche de la pureté de l innocence et de la jeunesse les jésuites ont fait de l enfance l objet de leurs aspirations les plus profondes Se considérant eux mêmes enfants de Dieu ils acceptaient volontiers de se soumettre à la volonté du Père divin tel point que leur foi aveugle les amènerait à infliger des supplices et même anticiper les joies du martyr Les jésuites seront donc les premiers enfants sacrifiés de la littérature québécoise Program of the ...
