History Teaching Manuals Cbse Schools:

World History Teaching in Asia Shingo Minamizuka, 2019-03-30 World History Teaching in Asia is the first broad survey of the content and approaches used to teach world history in secondary schools and colleges in Asia. The collection has been crafted by scholars and educators whose goal was to shed light on the importance of history education and to foster understanding of and between Asian countries. These essays show how the teaching of world history in Asian countries has developed since World War II with many interesting parallels including the issue of Eurocentrism but also distinctive national trends and considerable changes over time. At a time when many Asian countries are making great strides in education, this study of history education in Asia will be of real interest to educators, history scholars, and policy makers worldwide.

State and Nation in South Asia Swarna Rajagopalan, 2001. What makes a national community out of a state? Addressing this fundamental question, Rajagopalan studies national integration from the perspective of three South Asian communities: Tamilians in India, Sindhis in Pakistan, and Tamils in Sri Lanka, that have a history of secessionism in common but with vastly different outcomes. Rajagopalan investigates why integration is relatively successful in some cases (Tamil Nadu), less so in others (Sindh), and disastrous in some (Sri Lanka). Broadly comparative and drawing together multiple aspects of political development and nation building, her imaginative exploration of the tension between state and nation gives voice to relatively disenfranchised sections of society.
