Fogel,2013 The modern histories of China and Japan are inexorably intertwined Their relationship is perhaps most obvious in the fields of political economic and military history but it is no less true in cultural and art history Yet the traffic in artistic practices and practitioners between China and Japan remains an understudied field In this volume an international group of scholars investigates Japan s impact on Chinese art from the mid nineteenth century through the 1930s Individual essays address a range of perspectives including the work of individual Chinese and Japanese painters calligraphers and sculptors as well as artistic associations international exhibitions the collotype production or artwork and the emergence of a modern canon *Historical Dictionary of Neoclassical Art and Architecture* Allison Lee Palmer,2020-05-15 Neoclassicism refers to the revival of classical art and architecture beginning in Europe in the 1750s until around 1830 with late neoclassicism lingering through the 1870s It is a highly complex movement that brought together seemingly disparate issues into a new and culturally rich era one that was unified under a broad interest in classical antiquity The movement was born in Italy and France and spread across Europe to Russia and the United States It was motivated by a desire to use ideas from antiquity to help address modern social economic and political issues in Europe and neoclassicism came to be viewed as a style and philosophy that offered a sense of purpose and dignity to art following the new enlightened thinking This second edition of Historical Dictionary of Neoclassical Art and Architecture contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced
