A History of the State of Delaware Francis Vincent, 2015-07-17 Excerpt from A History of the State of Delaware From Its First Settlement Until the Present Time Containing a Full Account of the First Dutch and Swedish Settlements With a Description of Its Geography and Geology This State having been first discovered by the Dutch and the first settlement made by them and the Swedes its early history must necessarily be found in those languages These two nations inhabited the Delaware between them and struggled for mastery until finally the former Reduced the latter to subjection The Dutch officials on the Delaware sent a regular account to New York of every matter of interest The New York officials sent copies of those accounts to Holland The Swedes on the Delaware sent accounts to Sweden These several accounts both Dutch and Swedish have many of them been preserved either in the original manuscripts or by record in books and it is from these records and contemporary works written by Dutch and Swedish authors that we are enabled to get a minute and circumstantial account of our early history The Dutch records by the liberality of the State of New York have been translated into English by Broadhead and O'Callaghan and published in thirty large volumes Among these records are the letters of Budde and Beekman both of whom minutely record the occurrences on the Delaware The correspondence of the latter who was governor of the territory of the northern side of the Christiana is especially valuable containing as it does a succinct record of the events in the territory that now comprises this State from 1659 to 1664 The Swedish documents from which we extract our principal information in relation to Swedish affairs were furnished by Mr Russell our former minister to Sweden to the American Philosophical Society of Philadelphia They were translated and published several years ago in the Register of Pennsylvania One of the most useful though also in some instances one of the most inaccurate of Swedish works is that entitled A Short Description of the Province of New Sweden by Titus Compaenias of Holme printed at Stockholm in the year 1702 under the patronage of Charles the 12th About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
