Italy A Contested Polity West European Politics:

Italy - A Contested Polity Martin Bull, Martin Rhodes, 2013-10-31 Despite the promise of the new Second Republic launched in the early 1990s Italy remains Europe's least well governed country Fifteen years ago politicians on the take and mafiosi on the make were supposedly pushed aside by a new generation of reformers and crusading magistrates However in this new book a team of leading experts on Italy uncovers little real progress Badly needed reforms have foundered on bickering between the parties and their ego centric leaders Both left and right wing coalitions have been guilty of impeding the anti corruption revolution Little has been done to improve the quality of public expenditure infrastructure and education systems remain shambolic and decades of periodic devaluation and deficit spending have left the economy structurally weakened Italy's politicians are not just masters of trasformismo an ability to reinvent and present themselves anew to voters but of stratificazione or layering the introduction of new policies and institutions without replacing those that preceded them The result is a damaging mix of obsolete and contradictory legislation the product of bargaining over reform by chronically weak governments in a veto ridden polity The outcome immobilismo is a system in which all parties and democratic government itself are steadily losing legitimacy This book was published as a special issue of West European Politics

The Politics of Work-Family Policy Reforms in Germany and Italy Agnes Blome, 2016-11-25 One of the fundamental challenges facing modern welfare states is the question of work family reconciliation An increasing share of mothers work but many European welfare states do not adequately support the dual earner model especially in southern Europe After 2005 German policy makers transformed the nature of Germany's family policy regime through a number of legislative measures whilst Italy a country with many similarities witnessed little change Using a multi methods approach this book addresses the puzzle of why Germany was able to implement far reaching reforms in this policy area after a long

impasse and Italy was not. As such it delivers a broad systematic account of these reforms and sheds light on why similar reforms were not also adopted in other similar welfare states at the same time. More generally it contributes to understanding the determinants of welfare policy change in modern European welfare states. This text will be of key interest to scholars, students and professionals working on topics linked to European politics, welfare and work/family policies, comparative politics, social policy and more broadly to political science and gender studies.

The Politics of Public Administration Reform in Italy Sabrina Cavatorto, Antonio La Spina, 2020-06-24. This book provides a stimulating presentation of the Italian administrative system through an empirical and critical perspective on the processes of administrative reform at the national level. It focuses on some of the most recent changes developed during the years of austerity and fiscal crisis and offers an updated perspective on the attempts made by Italian governments to modernize national public administration through the new public management and governance paradigms. These frameworks have been suggested as models to enhance efficiency, transparency, accountability and public participation. The book studies international and supranational influence, policy diffusion, domestic politics and institutional dynamics, administrative traditions and functional explanations, all determinants of policy outputs and outcomes and possibly of policy learning as well. This book is the first to set out such a comprehensive and up to date analysis for non Italian readers.

The Structure of Political Competition in Western Europe Zolt Enyedi, Kevin Deegan-Krause, 2013-09-13. Is European party politics hovering above society? Why do voters pick one party over others? Is it a question of class? Of religion? Of attitudes about taxes or immigration or global warming? Or is it something else entirely? *The Structure of Political Competition in Western Europe* takes a detailed look at the ways in which Western Europe's party systems are anchored in social and ideological structures. The book's first section focuses on the role of social structures, particularly education, class and religion, and analyzes the complex interplay among these factors. The second section addresses the ways that the sociological structures such as class and religion interact with voters' values. The third section examines the way that these structures and values shape the space of political competition among parties. The conclusion integrates the findings of the empirical articles, putting them into broader comparative perspective, discussing whether relatively predictable structures have been overwhelmed by media driven spectacles, political personalities and focus on short term economic performance. This volume will appeal to scholars and graduate students in Europe and those from North America, Asia and other regions who study European politics, political parties, cleavages and political behaviour. This book was published as a special issue of *West European Politics*.

The Role of Parties in Twenty-First Century Politics

Luciano Bardi,Stefano Bartolini,Alexander H. Treschel,2017-10-02 For a long time analyses of political parties were framed within the usual context of democracy and of the historical transformation of the forms of democratic government More recently several authors among which eminently Peter Mair progressively began to question the relationship between the normative definition of democratic government and the actual operation of parties These new concerns are well epitomized by the tension between responsiveness and responsibility that gives the title to this book While classic democratic theory sees as desirable that parties in government and in opposition too are sympathetically responsive to their supporters first and more generally to public opinion and at the same time responsible toward the internal and international systemic constraints and compatibilities these two roles seem to have become more difficult to reconcile and even increasingly incompatible The chapters of this book explore the tensions between responsiveness and responsibility decomposing the international sources from the domestic sources and discussing the options and the possibilities for political parties to continue to play the role of provider of political stability in rapidly changing domestic and international environments This book was published as a special issue of West European Politics

Dynamics of Change in the European Union Daniel Naurin,Anne

Rasmussen,2013-09-13 Agreements concerning inter institutional rules in the treaties of the European Union often give rise to reactions and processes of adaptation within the EU institutions Recent literature on EU legislative politics has increasingly examined decision making within the EU institutions but has largely overlooked how these internal processes react and adapt to changes in relations between the EU bodies To fill this gap the authors present a series of empirical studies that examine how shifts in inter institutional rules and procedures affect intra institutional politics They show that the resulting intrainstitutional adaptations may in turn both have distributive consequences and affect the efficiency of the initial inter institutional reforms In addition they provide some stepping stones for theory building on how treaty reforms affect organizational structure and decision making within the EU institutions by outlining a series of mediating variables that link these two types of change processes This book was originally published as a special issue of West European Politics

Assessing Political Representation in Europe

Christine Arnold,Mark N. Franklin,2020-05-21 It has long been realized that democratic governance requires a two way flow of influence Governments must be able to respond to what people want and people must be able to react to what governments do These mechanisms of democratic governance have contributed to two research traditions one the responsible party approach views policy change as a consequence of electoral turnover and the other the dynamic representation approach views policy change as occurring in rational anticipation of electoral repercussions The aim of this book is to evaluate the state of political representation in contemporary Europe in the light of

these two approaches The chapters present fresh insight into issue congruence between voters and parties and into the extent of dynamic representation The chapters are logically clustered into three groups one group of scholars base their work on the responsible party model and apply it to voters and European parties and party groups a second group of scholars demonstrate the importance of institutional structures on the degree of issue congruence and a third group of scholars examine the reciprocal nature of dynamic representation and the effects of institutions on the opinion policy connection This book was published as a special issue of West European Politics *Accountability and European Governance* Deirdre Curtin, Peter Mair, Yannis Papadopoulos, 2014-01-02 In recent years there has been a considerable effort in some transnational organizations and institutions to confront a crisis of legitimacy by promising more accountability and openness This volume takes as its central focus the role of accountability in democratic governance and attempts to position a broad understanding of the notion of accountability within the overall context of the evolving political system of governance in Europe and in particular of the European Union Bringing together new work by some of the leading scholars in the field this volume considers the relationship between accountability and a wide range of other themes in European governance such as problems of representation transparency bureaucracy and transnational relations The volume also deals with the role of accountability in multi level governance and its relationship to both direct democracy and civil society This book was published as a special issue of West European Politics **Western Europe 2023-2024** Wayne C. Thompson, 2023-06-23 The World Today Series Western Europe is an annually updated presentation of each sovereign country in Western Europe past and present It is organized by individual chapters for each country expertly covering the region's geography people history political system constitution parliament parties political leaders and elections The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource for researchers practitioners in international development media professionals government officials potential investors and students Now in its 40th edition the content is thorough yet perfect for a one semester introductory course or general library reference Available in both print and e book formats and priced low to fit student budgets Resisting the Tide Daniele Albertazzi, Clodagh Brook, Charlotte Ross, Nina Rothenberg, 2011-12-22 Edited by members of the Department of Italian Studies at the University of Birmingham and bringing together academics in Britain Ireland the US and Italy this volume takes an international perspective on Italian events It investigates how resistance to the new conservative culture has been articulated and how this has been expressed and explained by those involved The volume is divided into four areas 1 The Economic and Media Landscapes which sets the scene for the rest of the book by explaining how Italian society and particularly its media environment have developed in recent years 2 Political Challenges which discusses the main threats to the authority and policies of Berlusconi coming from within his own centre right coalition the left and social movements 3 Texts which analyses films internet sites television programmes novels newspaper articles and theatre performances that sought to resist increasingly dominant conservative

National Parliaments in the European Union Katrin Auel, Thomas Christiansen, 2017-10-02 The role of national parliaments in EU matters has become an important subject in the debate over the democratic legitimacy of European Union decision making Strengthening parliamentary scrutiny and participation rights at both the domestic and the European level is often seen as an effective measure to address the perceived democratic deficit of the EU the reason for affording them a prominent place in the newly introduced Provisions on Democratic Principles of the Union in particular Article 12 TEU Whether this aim can be met however depends crucially on the degree to which and the manner in which national parliaments actually make use of their institutional rights This volume therefore aims at providing a comprehensive overview of the activities of national parliaments in the post Lisbon Treaty era This includes the classic scrutiny of EU legislation but also parliamentary involvement in EU foreign policy the use of new parliamentary participation rights of the Lisbon Treaty Early Warning System their role regarding the EU's response to the Eurozone crisis and the so far under researched role of parliamentary administrators in scrutiny processes This book was originally published as a special issue of West European Politics

Understanding Electoral Reform Reuven Hazan, Monique Leyenaar, 2014-06-03 The field of elections and electoral systems and particularly electoral reform has exhibited tremendous growth and cross national appeal over the last two decades However beyond an increased knowledge of voting rules and their consequences for political representation little attention has been devoted to the question of why electoral systems have recently undergone substantial change in several liberal democracies This book addresses several new approaches to electoral reform First the scope of the study of electoral reform has been expanded Second contrary to previous studies of electoral reform the conviction that the determinants of reform can be explained by one single approach has been replaced by a belief in a more comprehensive framework for analysis Third we move beyond political parties acting in parliament and government as the most significant source of electoral reform Fourth a focus on the determinants of electoral reform allows us to include motivations and objectives of electoral reform A final advancement in the study of electoral reform is the inclusion of countries other than established democracies This book was published as a special issue of West European Politics *Political Parties and*

European Integration Cesáreo R. Aguilera de Prat, 2009 This book offers a systematic analysis of the role of political parties in the European Union in the process of Community integration The author looks at the theoretical and empirical dimensions of the transnational structures of the parties and their stake in the institutions of the EU Examining the manifestos and programmes that the principal political parties of the six most populated states of the EU presented during the campaign for

the European parliamentary elections of 2004 he provides an analysis of their political strategies placing the parties on both the classic left right axis and that of supranationalism intergovernmentalism The focus is specifically on the statements and policy proposals of the parties on the following issues related to the EU as a political system the nature of the EU the reach of its territorial space the debate about a European citizenry the various projects for institutional reform of the EU and the principal concrete public policies regarding the three pillars Based on the methodological perspective of comparative politics the book addresses in a transversal manner the parties core programmes and their implications for Europe

Implementing Social Europe in Times of Crises Dorte Martinsen, Hans Vollaard, 2017-10-02 While the EU legitimacy crisis and the Great Recession prevail certain European Union principles and policies have to be implemented in the member states This volume explores the diverse processes stages and subjects of implementation in a variety of social policies to identify different institutional dynamics and actor behaviours at play The individual contributions examine the transposition of the patients rights directive to the Europeanisation of pension reforms the role of national parliaments in transposing social Europe judicial Europeanisation and the multi level enforcement of EU decisions Theoretically the contributions in this book highlights the fact that implementation is often conditioned by domestic politics or comes as a random walk due to organisational and cognitive constraints Empirically the volume has three main findings First the constitutive components of the EU tend to have a contradictory impact on the EU s social policies and the national welfare systems Second crises influence the implementation of social Europe at times leading to a modification of fundamental principles and content but not across the board Third as a result there is evidence of differentiated Europeanisation This book was originally published as a special issue of West European Politics

Decision making in the EU before and after the Lisbon Treaty Madeleine Hosli, Amie Kreppel, Běla Plechanovová, Amy Verdun, 2017-10-02 Decision making in the European Union before and after the Lisbon Treaty aims to assess what the changes the Treaty of Lisbon envisaged and whether these ambitions have materialised since the Treaty entered into force It offers analyses of the past as well as what might be the future because some provisions will only enter into effect in the years to come To what extent has the current decision making process been able to address the shortcomings and challenges of the past What has been the impact of aspects of the Lisbon Treaty that clarified pre existing norms and structures in some cases formalizing them rather than introducing new changes The authors in this book look at the interaction between formal rules and informal practices seeking to point to the interaction between the two They find that informal practices to date typically still dominate formal rules This book was published as a special issue of West European Politics

From Europeanisation to Diffusion Tanja A. Borzel, Thomas Risse, 2020-11-25 This book provides a comprehensive account of the extent to which policies and institutions of the European Union EU spread across different contexts Are the EU s attempts to transfer its policies and institutions to accession and neighbourhood countries sustainable and effective To what degree do other regions of the world emulate the

EU's institutional features: what are the mechanisms of and conditions for their diffusion? Chapters deal with Europeanization in the new EU member states particularly in Romania and Bulgaria in current accession candidates i.e. the Western Balkans and Turkey as well as the Eastern Southern Caucasus and Southern Neighbourhood Israel and the Maghreb. In addition, authors investigate the diffusion of EU policies and institutions in Sub-Saharan Africa, Asia and Latin America. The authors place Europeanization studies in the wider context of research on transnational diffusion and examine the relevant mechanisms and processes including incentives and capacity building, socialization and learning as well as functional and normative emulation. Finally, the book discusses what conditions lead to the successful diffusion of European institutions and policies such as domestic incentives, degrees of limited statehood, regime type and power asymmetries. This book was originally published as a special issue of *West European Politics*. **Italy Transformed** Martin Bull, Gianfranco Pasquino, 2020-06-09

The decade commencing with the great crash of 2008 was a watershed period for Italian politics involving fundamental and dramatic changes many of which had not been anticipated and which are charted in this book. This comprehensive volume covers the impact of the Eurozone crisis on the Italian economy and its relationship with the European Union, the dramatic changes in the political parties and particularly the rise of a new political force, the Five Star Movement which became the largest political party in 2013, the changing role of the Trade Unions in the lives of Italian citizens, the Italian migration crisis, electoral reforms and their impact on the Italian party system where trends towards bipolarisation appear to be exhausted, the rise of new forms of social protest, changes to political culture and social capital and finally amidst the crisis, reforms to the welfare state. Overall, the authors reveal a country which many had assumed was in quiet transition towards a more stable democracy that suffers an immense shock from the Eurozone crisis and bringing to the fore deep rooted structural problems which have changed the dynamics of its politics as confirmed in the outcome to the 2018 National Elections. This book was originally published as a special issue of *South European Society and Politics*. **The Development of Human Resource Management Across Nations** Bruce E. Kaufman, 2014-07-31
